Read The Pieneer Want Ad

To give satisfaction needs a local service organization behind it. Why is Henry Ford selling one thousand tractors every day? Why are over one-half of all tractors used FORDSON TRACTORS? Just because Mr. Ford knows that to insure satisfactory service to the farmer, there must be located nearby a complete stock of repair parts, and mechanics who know how to repair it. It don't do you, Mr. Farmer, any good to know there is a factory a thousand miles away, if you have a break down in your busy season.

Your TRACTOR'S success and satisfaction lies in knowing that if trouble arises, there is located within a few miles, within telephone call, expert mechanics who know your tractor, and a repair part if one is needed to get you going.

A tractor engine works harder in one week of service, than a passenger car engine does in ten thousand miles. We are equipped to give Fordson service. We have mechanics who know. We have a large repair stock. We want to serve you: We know a Fordson will satisfy you.

Don't hesitate longer. Place your order. A FORDSON will make you a better farmer. It will make you money.

相运 ORDER NOW!
