## DE PALMA SMASHES ALL

**RECORDS FOR ELGIN COURSE**  
Elgin, Ill., Aug. 30.—Breaking all records for the course, Ralph de Palma won the Annual Elgin Road race here Saturday, covering 251 miles, 2,820 feet in 3:09:54, or at an average speed of 79 1/4 miles per hour. Timmy Milton finished a close second, his time being 3:11:47. Third place was won by James Murphy, in 3:13:47. Ralph Mulford was fourth in 3:15:59. Tom Ally and Gaston Chevrolet finished seventh and eighth respectively, but were outside the prize money.

## TEN ROUND DRAW

Grand Rapids, Mich., August 30.—Harry Greb, of Pittsburgh and Ted Jamison, of Milwaukee, fought ten rounds to a draw Saturday night, in the opinion of newspaper men. Greb was scored for a count of four in the first round when Jamison caught him with a left hook.

## HEAVYWEIGHTS ARE

## EQUALLY MATCHED

Benton Harbor, Mich., Aug. 30.—Statistics on Jack Dempsey, heavyweight champion, and Billy Miske of St. Paul, contender for the title, who will meet here a week from Monday, Saturday night revealed that Miske is almost an exact duplicate of Dempsey so far as size is concerned. Miske is a quarter of an inch shorter than the champion and about as broad. While Dempsey's arms are more club-like and his chest fuller, there is little difference between them in physical make-up. Miske now is three and a half pounds heavier than Dempsey, or fourteen pounds heavier than when he fought Dempsey two years ago. The champion has the edge in age, but only a slight one. Dempsey is 25 and Miske is 26.

## AGITATION AGAINST MAYS

## IS ORDERED STOPPED

New York, Aug. 30.—Agitation for a strike against Pitcher Cary Mays of the New York club of the American League has been ordered stopped by President Ban Johnson, according to an announcement made here by Col. Jacob Ruppert, one of the owners of the New York club. He said President Johnson told him that he had sent orders to every club in the league notifying them that the agitation for a strike against Pitcher Mays must cease immediately.

## NEW RULES TO GOVERN

## COLLEGIATE BOXING

Chicago, Aug. 30.—A set of rules to govern boxing in the colleges has just been drafted by a special committee appointed by the National College Athletic association. In October there will be a meeting of representatives of all the colleges throughout the country, when a boxing league will be organized. A board will probably be selected that will have charge of appointing referees and judges, as in football. The rules that will govern college boxing are mostly along the lines that governed the sport at the war camps. One of the innovations, however, will be to have the referee outside the ring as in England. There'll be two judges. Each bout will be three rounds of two minutes' duration. A fourth round may be ordered in event of a disagreement.

## IVINS WINNER OF

## GRAND AMERICAN

Cleveland, Aug. 30.—Breaking 99 of 100 targets, Albert L. Ivins of Red Bank, N. J., Saturday created a surprise when he won the Grand American Handicap, the classic event of the week's international trapshooting tournament here. Trapshooting was interrupted by rain Friday, after Ivins had shot at 75 targets, missing the 53rd. Saturday he ran 25 straight and won. He had never been in a Grand American Handicap at clay targets before. Ivins shot from the 19-yard line.

Second place was won by Edgar T. Strutz of Hamilton, Ontario, with 98. The Columbus, Ga., cup, which goes to the winner of the high average for the tournament, was taken by Robert H. Bungay of Ocean View, California, with 760 breaks on 800 targets. The longest run of the week was made by Paul Earle of Starr, S. C., with 142 targets.

## MAY DUPLICATE LOST OR UNFIT VICTORY MEDALS

The Adjutant General has been authorized by the war department to issue duplicates of the Victory medal to enlisted men in the service and to sell duplicates at cost price to officers, warrant officers and men out of the service upon presentation of satisfactory evidence that the original medal was lost, destroyed or rendered unfit for use without fault or neglect upon the part of the person to whom it was awarded.

No such sales or issues will be made however, until the supply of medals on hand is sufficient to furnish them without delaying the issue of the originals. It is also desired that all persons interested be informed that there is no law on the statute books which authorizes the issue of the Victory medal, original or duplicate, and in making such issue the War Department is relying upon congress to legalize the action by the passage of S. 4432, which was recommended by the war department a year ago, but has not yet passed either house.

**NEGOTIATIONS TO BE TRANSFERRED TO RIGA**  
Warsaw Aug. 30.—Preparations were under way to transfer the Russo-Polish armistice negotiations from Minsk to Riga in Latvia, according to an agreement between the two governments.

## SOCIAL AND PERSONAL

Miss Maybelle Holmen visited with friends at Bagley over Sunday.

Mrs. F. S. Arnold went to Blackduck Saturday evening for a visit of a few days with friends.

Mr. and Mrs. J. P. Miller and son returned Saturday night from a two months' motor trip thru the west, stopping at a number of points in Oregon, Washington and Montana. At Bend, Ore., they visited with Mr. and Mrs. Robert Muncy, former residents here.

## PUPILS TO REPORT ON

## WEDNESDAY AFTERNOON

Pupils are required to be at their respective school buildings on Wednesday afternoon at 1:30 o'clock, at which time text books will be given out and places assigned for the beginning of the school year's work.

## UNITED IN MARRIAGE

On Saturday afternoon at 1:30 o'clock at the Presbyterian parsonage was solemnized the marriage of Arthur H. Bowman to Anna Anderson, both parties being from Bergville. They were attended by Edward F. Bowman and Anna H. Johnson, also of that place. The young couple will make their home in Bergville.

## AT BIRCHMONT

The following names are registered at the Birchmont hotel: E. H. Scofield and family, Herbert Vehon, Mr. and Mrs. J. G. McNutt, Charles E. Van Nest, Frank W. Tozer, Mr. and Mrs. W. C. Nichols, Mr. and Mrs. E. L. Fisher, Mr. and Mrs. M. C. Williams, Miss M. R. Williams, Mr. and Mrs. J. H. Marshall of Minneapolis; Dr. G. Hiebert and family of Winnipeg; J. W. Corz, M. E. DeWolf, George A. Heald of Spencer, Iowa; Miss Helen Kelly, Miss M. E. Butler, Leo Butler and Patrick Butler, of Patterson, N. J.; Mr. and Mrs. J. Bolivar of Colfax, Iowa; Mrs. B. Ingalls of San Francisco; G. L. Dalton of Lakota, Iowa; Mrs. Joseph Mazer and Donald Mazer of New York city; Mr. and Mrs. J. P. Dotson, Mr. and Mrs. W. L. Wetz, Mr. and Mrs. C. H. Johnson, Mr. and Mrs. E. J. Skalda, of Fargo; Mr. and Mrs. Karla Danielson and family of Chatfield; Mr. and Mrs. C. W. Wagner of Litchfield; Dr. G. S. Thomas, Miss Julia Thomas, Mrs. J. Nelson Kelly and party of Grand Forks.

## NO NICKNAME YET

## FOR G. O. P. CANDIDATE

(By United Press)

Marion, O., Aug. 30.—Despite the opportunity afforded by his middle name, Warren Gamaliel Harding has entirely escaped having a nickname, so far as anyone in Marion can discover.

Many years ago a few boy playmates called him "Doc" because his father was a doctor, but the nickname never stuck.

Harding's secretary, George B. Christian, Jr., calls the candidate "Gov." Harding was lieutenant governor of Ohio once. Harding refers to himself impersonally as "the candidate."

Mrs. Harding calls him "Warren," reporters address him as "Senator," and all visitors trying to be original greet him as "the next President."

director of the Minnesota Agricultural Experiment station, are usually secured on land that is fall plowed, especially in the arid and semi-arid areas. "In most seasons," he says, "early plowed land gives larger yields the following year than that which is late plowed. The early plowing is especially desired where noxious weeds are present and where there is a large amount of vegetable matter, such as stubble or other waste material to decay."

"Frequently there are pieces of land that are benefitted by plowing twice during fall season. A further beneficial effect of fall plowing is the destruction of the nests of insects and crop residue bearing plant diseases. These advantages, coupled with the time saved in preparing the land in the spring for planting, are sufficient to warrant farmers in making a special effort to get all of the land plowed this fall. "There is no bad effect from early fall plowing, therefore, the earlier plowing is begun the more can be done before the fall freeze-up."

## CHANGE OF CROPS

## FOUND DESIRABLE

Crop rotations have been advised by experiment station authorities for years. It has been counted as good practice, says Andrew Boss, vice director of the Minnesota Agricultural station, to rotate crops ever since the days of Roman agriculture. Numerous investigations in several of the states give statistical evidence that yields may be materially increased by following a good crop rotation.

The farm crops section of the division of agronomy and farm management at University Farm has recently presented some figures which show that an alteration of crops is desirable. Where a systematic rotation cannot be followed, changing from one crop to another gives better yields than continuously raising the same crop on the same land.

Where oats were alternated with corn at University Farm a 25 per cent increase was secured of oats grown continuously. Wheat followed by corn gave a larger yield of oats than if oats and wheat were alternated, showing that the cultivated crop has a beneficial effect on land intended for oats. Oats alternated

with wheat gave an increase in yield over oats grown continuously. Wheat gave considerably better yield when alternated with oats than it did where wheat was grown continuously. The results indicate clearly that while a change of crop is not so beneficial as a good rotation, there is a decided advantage and an increase in yield from most of the crops when alternated with some other grain crop or a cultivated crop. Indications are, says Mr. Boss, that from 15 per cent to 25 per cent increase may be expected by alternating or rotating the crops.
