## Busy Church

A young man was found last Sunday in the steeple of a New York church. He claimed he had been there for a week, having gone there for a rest and later discovering he had locked himself in.

It appears rather lucky for the young fellow that Sundays are only seven days apart.

## Seen on the Scene

One of the many correspondents says that Mrs. Harry Swenson was seen near the Clearbrook store Tuesday afternoon. That's nothing, several persons were seen near a Bemidji soft drink establishment "one night last week."

## WHO KNOWS?

The Philadelphia Public Ledger says: "The probabilities are that when you see three fellows with their heads together, one of them thinks he knows where they can get a drink."

According to the reports, most anyone should be allowed to think that without getting heads together. Everybody is supposed to think, but not everyone knows.

## Shortening the Armament

The Chicago Daily News has said: "Disarmament is possible. Remember the long hatpins women once wore?"

"Oh, yes. And how about the time when women wore their gowns long at both ends?"

## "Pigs Is Pigs"

"It takes two to make a profiteer," says an exchange. Two might also make two profiteers. Two's often do.

## Not a Public Benefactor.

Jud Tunking says there isn't any great help in public welfare to be expected from the man who thinks everything is all right so long as he is making plenty of money.

# HERMAN-LYNCH BATTLE REVIVES IRISH QUESTION

New York, Jan. 31.—When Joe Lynch won the bantamweight championship here recently from Pete Herman, the little New Orleans Italian made many friends by the sportsmanlike manner in which he took the loss of his title.

"Lynch is a real fighter and should make a good champion. I wish him the best of luck," the defeated title holder said in his dressing room after the fight.

Sammy Goldman, his manager, made no comment on the decision. It seems from later developments that he was reserving his opinion until a better time when he could talk to more willing listeners.

The day after the bout Herman and Goldman, with some others, including Battling Levinsky, sailed for England. When they arrived in London, Goldman was interviewed about the championship bout, which the British claimed was not a championship bout.

Goldman said the decision was terrible, according to an interview in London papers of recent arrival.

"Not even a draw would have done justice to Herman in the Lynch fight," he is quoted as saying. "Pete won nine of the fifteen rounds by a wide margin. It seemed that New York had made up its mind to prevent any chance of the championship leaving America, and with a strong Irish element at the back of the contest it was hopeless. All three of the judges were Irish."

If Goldman is quoted correctly, he is adding none to the popularity of a boxer who was never popular as a champion.

His reference to "three" judges is all wrong as only two judges officiate under the New York rules. His attempt to gain backing by referring to the Irish element and the Irish judges in a country where nothing Irish is popular is cheap politics.

Goldman furthermore claimed that the title was taken away from Herman to prevent Jimmy Wilde from winning it and that since Wilde failed, Herman will be allowed to win it back.

It is very likely that Joe Lynch and his manager, Eddie Mead, will have something to say about "winning back the title."

It is pleasing, however, to learn that Herman had nothing to say and refused to make any statement upon which the promoters of the Herman-Wilde fight could make a claim for it as a bantam championship affair.

Kirkland, Ontario.—A record in gold mining in Canada, and possibly on continent, has been established by the Lake Shore during the fiscal year which ended November, 1920, according to the claims made by this camp. # WHAT BUYERS HAVE LEARNED ABOUT CARBON PAPER

Many buyers have learned that the cheapest carbon paper in price is often the most expensive in the end. For that reason they prefer the Ault & Wiborg superior carbons which not only allow more and better copies at one writing, but, on account of their longer lasting life, cost considerably less. A trial will convince you.

# Backed by Truth

You have heard people read an advertisement and then say, "I don't believe it."

Once upon a time they might have been right, for dishonest people have advertised. But there are two good reasons why practically all advertising today is honest.

One reason is that no good newspaper will print dishonest advertising.

The other reason is that experience has proven that dishonest advertising hurts the advertiser far more than it does the buyer of the goods advertised.

This fact is easy to understand. A person may be dishonest in a quiet, sneaky way, for a long time and never actually be caught at it. But an advertisement is a combination agreement and guarantee.

A merchant or manufacturer inserts an advertisement in a paper. That advertisement carries certain statements and certain claims for the goods mentioned. To speak such statements and claims is one thing; but to print them, and sign your name to them, and to send this out for everyone to read, is giving the public a guarantee.

That's why it will pay you to read advertisements and buy advertised goods. Every advertisement is your guarantee of value.
