VIOLA DANA IS CHARMING IN NEW PICTURE AT ELKO

Vivacious and charming, Viola Dana, the always popular star, will be seen at the Elko theatre tonight and Saturday in her latest picture entitled "There Are No Villains".

"SKIN DEEP" AT GRAND TONIGHT AND SATURDAY

Sadie Doyle was a specialist in men. She knew them as an aviator knows his machine-control or a banker knows the money market.

Trapped in a big raid Sadie faced the most difficult situation of her career. The rest of the gang were in handcuffs with policemen guarding every door and window.

WALLACE REID AT THE ELKO; SUNDAY-MONDAY

For genuine thrills, excitement and laughs, there are few pictures that will equal "The Dictator" the latest Paramount picture starring Wallace Reid, which is at the Elko theatre Sunday and Monday.

Wallace Reid is adequately supported by Lili Lee as leading woman, Theodore Kosloff, Alan Hale, Kalla Fasha and other sterling players.

"BOW WOW" AT GRAND BEGINNING ON SUNDAY

Teddy's loud "Bow Wow" which by the way is the title of the latest Mack Sennett comedy, summoned Louise Fazenda back to the screen.

In "Bow Wow" Miss Fazenda discharges household duties in such fashion to shame many mothers, plays nursemaid to her little brother (John Henry, Jr.) does many and sundry chores around the farm, is gardener, milkmaid and general handy man.

TOM MIX COMING IN NEW FOX PRODUCTION

Local followers of Tom Mix, the big luminary of the William Fox welkin, will have another treat in "Do and Dare" his latest vehicle which comes to the Grand theatre Sunday and Monday.

Those who are familiar with the varied talents of this dynamic actor can easily picture the grace and dash wherewith he conducts himself in the numerous scenes of this photoplay.

DEGREASING AND WASHING WOOLS

New Method Has Been Devised by Department of Agriculture.

WASH SAMPLES THREE TIMES

Results Obtained by Various Tests to Be Used in Mating Sheep in Attempt to Improve Fleeces of Different Breeds.

(Prepared by the United States Department of Agriculture.)

In order to compare the grease and dirt contents of various wools and to improve wools in these respects, the United States Department of Agriculture has devised a new method for degreasing and washing dirt from samples.

Washed With Gasoline. In the method for determining grease, as now used by the department, the samples are washed three times with gasoline, which is drained off through a filter paper that retains all foreign matter.

Dirt is taken out of the samples by washing with soap and water. The wool is cleaned well if the water is at a temperature between 40 and 45 degrees C, which is not hot enough to felt the wool.

Aim to Improve Fleeces. Results obtained by testing various samples of wool for grease and dirt will be used in planning the mating of

sheep in an attempt to improve the fleece in these respects.

Details of this experimental work have been published in Department Bulletin 1100, A Method of Determining Grease and Dirt in Wool, by D. A. Spencer, J. I. Hardy and Mary J. Brandon. Copies may be obtained by addressing the Department of Agriculture, Washington.

BIG VALUE OF FORAGE CROPS

Should Possess as Many Desirable Characteristics as Possible—Some Are Enumerated.

A forage crop to be of most value should possess as many desirable characteristics as possible, including (1) adaptability to soil and local climate, (2) palatability, (3) heavy yield of digestible matter, (4) narrow nutritive ratio, not wider than 1:5, (5) succulence, (6) long growing seasons with ability to endure tramping and grazing, (7) permanency, (8) reasonable cost and ease of seeding, (9) capability of quick pasturage at any time during the growing season, (10) leguminous characteristics.

LEGUMES IN IMPROVING SOIL

Thousands of Farmers Have Introduced Various Crops into Their Cropping Systems.

Over 350,000 farmers, according to reports to the United States Department of Agriculture, introduced legumes, principally soy beans, cowpeas, velvet beans, and alfalfa, into their cropping system as a result of demonstrations in the use of legumes in soil improvement given in 1921 by agricultural-extension agents.

POULTRY RAISED AT PROFIT

Farmer Has Little Knowledge as to Cost of Production of Fowls Sold for Meat.

Poultry meat is a by-product on most farms. The farm flock is supposed to lay enough eggs to satisfy the family and provide a balance to help out with the grocery bill, but when the birds are sold as meat they are turned off without much knowledge as to the cost of production.

Looking-Glass Country.

According to a copy of the Russian journal, Ekonomitsa, Henkka Zisu, which has just been received at Paris by a French socialist, the editors of a month's subscription for 1,200,000 rubles. For a two-months subscription the price is 3,000,000 rubles. The apparent paradox is explained by a note saying that the difference in price for the first and second month's subscription is due to the estimated depreciation of the ruble in the next four weeks. The amount of this depreciation is so uncertain, however, that subscription prices cannot be quoted more than two months in advance.—New York Times.

SUCCESS IN HATCHING EGGS

Care and Attention to Detail Are What Makes One Man Succeed Where Another Fails.

(Prepared by the United States Department of Agriculture.)

Between making or losing money in raising chickens there is only a narrow margin. Contrary to many persons' ideas, no magic road leads to success in this work. Care and attention to detail are what make one man succeed while another one with similar equipment fails.

The following suggestions on incubation are given by poultry specialists of the United States Department of Agriculture:

Have everything ready beforehand, and start your hatching operations early in the year.

A well-ventilated cellar is the best place to operate the incubator.

The machine should be operated according to the manufacturer's directions.

See that the incubator is running steadily at the desired temperature before filling it with eggs. Do not add eggs to a machine during incubation.

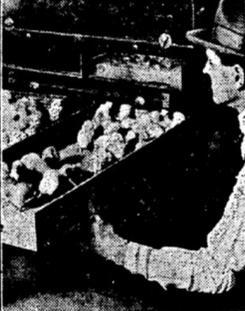

Turn the eggs twice daily after the second and through the eighteenth day. Cool the eggs once daily, according to the weather, from the seventh through the eighteenth day.

Turn the eggs before caring for the lamp.

Attend to the machine carefully at regular hours.

Keep the lamp and wick clean. Test the eggs on the seventh and fourteenth days.

Do not open the machine after the

Care is the Keynote of Success in Hatching Eggs.

eighteenth day until the chickens are hatched.

Eggs saved for hatching purposes should not be subjected to high or low temperatures.

In cold weather place from 10 to 13 eggs under the hen; in warm weather from 13 to 15.

Always try the hen on china or nest eggs before setting good eggs.

Given proper care and attention, the hen is the most valuable incubator for the farmer.

Use insect powder freely to exterminate lice when necessary.

February, March, April, and May are the best months for hatching, depending on the section of the country.

If several hens are set in one room, it is desirable to confine them to their nests.

Straw and hay make good nesting material.

Broody hens should be moved to the permanent sitting nest at night.

While corn is a good feed for sitting hens, water, grit, and dust baths should also be provided.

All eggs should be tested by the seventh day, which often makes it possible to reset some of the hens.

Which Hens to Keep

Strong, healthy, vigorous hens with short, neat heads and strong beaks.

The hens with long, deep, rectangular bodies and parallel top and bottom lines.

The hens with large, bright eyes, active appearance and short, well-worn toe nails.

The hens with dusty, worn feathers, especially worn tail feathers, but having a bright, healthy look.

The hens that molt late and those that molt rapidly.

The noisy, happy, friendly hens.

The early risers and those late to roost.

The vigorous hens with the faded beaks and shanks.

The hens with the thin pelvic bones spread wide apart.

BUCK LAKE

Missionary Cummings of Bemidji came over Sunday afternoon intending to hold Bible study at the Buck Lake school house; on account of the rain, he held same at the Alex Sawyer home. He left for Bemidji on Monday morning.

The Road Day was very poorly attended, only five men going to work on clearing the right of way of road 103. Those who worked this week were Frank Severson, William Davis, Arthur Rodine and Alex and Henry Sawyer. They cleared nearly one-half mile. There is still nearly a half-mile to brush which we hope to have done when the weather clears up.

The Blue Ribbon girls finished their quilt at the last meeting.

Mrs. Arthur Leathe is reported on the sick list.

Mr. Oscar Hoglum has returned from his visit to his parents who live at Williston, N. D., and he also took in the threshing season out there.

A Halloween entertainment and a pie social was given Friday evening by the teacher and pupils of the Buck Lake school. A short but very good program was given by the pupils. The pies were auctioned off by Alfred Rogholt, the proceeds (about \$10), went to the benefit of the school.

The Blue Ribbon girls were entertained Saturday afternoon by Mrs. H. F. Sawyer. They held their election of officers and the following were elected: president, Mable Carlson, vice-president, Cora Sawyer; secretary, Doris Larson, treasurer, Ruth Sawyer; librarian, Myrtle Rogholt. Their next meeting will be with Edna Larson on December 9. They reported a fine afternoon.

Henry Sawyer called at J. H. Phillips Monday.

Ed Rafferty piloted the mail carrier of Route 2 on his initial trip on Wednesday.

Arthur Rogholt called at the Alex Sawyer home Thursday evening.

Mrs. H. F. Sawyer and son were shopping in Cass Lake Friday morning.

Wilmer Long and Clarence Parmer were in Cass Lake Friday.

Mr. and Mrs. Dan Newton and Mr. and Mrs. H. N. Wilson of Bemidji came over Sunday morning and visited with the Henry Sawyer family. Mr. and Mrs. Newton returned Sunday evening. Mr. and Mrs. Wilson remained for a longer visit.

Miss Myrtle Rogholt entertained the glee club to dinner on Sunday. Mrs. Ed Larson was in Cass Lake Saturday.

Miss Lena Berg stayed with Miss Ruth Hanson while her folks were at International Falls.

Mr. and Mrs. E. C. Rogholt went to Wilkerson last Sunday.

Mr. M. O. Rogholt was in Cass Lake on business last Monday.

Mr. Alfred Ershro and family visited Mr. Ershro's parents last Sunday. They were accompanied by Miss Mable Ershro.

The mail route is a fact. The carrier made his first trip on November first.

PARSONS SAYS IT IS BEST MOVE HE EVER MADE

"When I got Tanlac it was the best move I ever made, for it has put me in fine shape again," declared J. L. Parsons, 701 Pelham St., St. Paul, Minnesota.

"I suffered something awful for a year from stomach trouble and indigestion. After eating I had a sluggish drowsy feeling, nothing agreed with me, and my stomach soured after every meal, causing gas and the most terrible pains. I was in such misery I could get no restful sleep, and was rapidly losing my strength and energy.

"I have taken only three bottles of Tanlac, but all my troubles have disappeared, and I am enjoying better health than in years. There's something about Tanlac that certainly does the work."

Tanlac is sold by all good druggists.
