GRAND

Gas Balloon Ascension!

BY PROF. VAN TASSELL.

THURSDAY.

SEPT. 21.

ON THE FAIR GROUNDS.

NO EXTRA FEE OF ADMISSION

To witness this

Thrilling Sensation.

PROF. VAN TASSELL

Will make

Captive Ascensions

In the forenoon, and in the afternoon the

Ropes Will Be Cut!

And the Balloon will rise and float away toward the clouds.

By all means witness the thrilling and exciting sensation as the aeronaut takes his place in the frail basket; the nervous start and the noble and sublime scene of the great ascent among the clouds. A balloon ascension invariably leaves a strong, lasting and vivid impression on the mind and memory. It attracts all classes, old and young, all tastes and interests, for a balloon ascension is at all times a novel and sublime sight, exhibiting, as it does, man's dominion over the very air he breathes. As a spectacle, it fixes the attention of every beholder. As an achievement of science, it is one of the greatest and grandest ever witnessed.

OFFICE OVER

THE CENTRAL BANK

ALBUQUERQUE.

Agent for the Largest, Strongest and Best Companies in the world.

Mutual Life Insurance Co. of New York.

Organized 1843. This company is too well known to say much about it. Its dividends are larger, and its policies give larger returns than any other company in the world.

Travelers' Life and Accident Insurance Co. Hartford. This is the original Accident Company of America and the largest in the world.

Liverpool, London and Globe Insurance Co. G. E.

This standard company's policies does not contain any sixty day clause, but pay, in full with no deduction of interest. Its record at the great Chicago fire of 1871, paying over three and a quarter million dollars in cash, drawing the funds entirely from England, gives this company a prominence in fire insurance not equalled by any company in the world.

Insurance Co. of North America, Phil.

The surplus of this old company, as to policy holders, is \$2,750,000, a sum larger than the "cash assets" of any other American fire insurance company, "except two." In eighty-eight years of continuous business they have paid out over fifty million dollars for losses, and still has cash assets. No American company can show any better record.

Scottish Union and National, Great Britain.

This is one of the oldest of foreign companies. This company has but recently (1880) secured the United States for business. Its security for policy holders aggregates \$22,041,046.

Commercial Union Insurance Co., London.

Conservative as an underwriter. Such is the value placed on her policies by leading merchants and others that there are but two foreign companies whose premium receipts in the United States exceed those of this model company. Assets in the United States nearly \$2,000,000, securely invested.

German American Insurance Co., New York.

Over two million dollars of the assets of this company is in "United States bonds," and in case of any large conflagration can be turned into cash at once. Surplus, as to policy holders, is over \$2,000,000.

Pennsylvania Fire Insurance Co., Philadelphia.

Fifty-seven years continuous business has placed this company among those well respected upon for one hundred cents on the dollar for losses.

Home Insurance Co. of New York.

Twenty-five years successful business places this company at the head and front of New York city companies.

American Central, St. Louis.

This is one of the most prudently managed and conservative companies in the country, and is second to none of companies in the west.

Springfield Fire and Marine Insurance Co., Springfield, Mass.

It is an old company—thirty-three years. It is a strong company with a cash capital of one million dollars. It is not exposed to large loss by sweeping fire, its head office being in a small city. It is limited to a point of perfect safety in all other cities.

Standard Fire Office, London.

This is one of the new foreign companies to come to this country, and is entitled to the confidence of the insuring public.

Phoenix Assurance Co., London.

This old company (160 years) has paid over \$5,000,000 to policy holders; is the largest exclusive fire company in Great Britain.

Capital represented for Fire Insurance \$108,401,616

Capital represented for Life Insurance \$4,703,927

Capital represented for Accident Insurance \$441,100

GRAND TOTAL \$113,546,643

OUR PROSPECTUS

FOR THE

Fall Trade!

Our facilities for handling a large trade were never so good as they are at present. We have a large store, the largest assortment of goods kept by any wholesale and retail Grocery and Queensware house in the Rio Grande Valley. Having every advantage in buying, can, and will, sell goods as

CHEAP AS THE CHEAPEST.

We have bought heavily and are prepared to meet the demands of the fall trade; we offer the advantage of a complete assortment; we carry everything pertaining to a wholesale and retail Grocery and Queensware business that can be called for. Our aim is not to sell customers once and make a large profit, but to treat them by fair dealing and close prices, so as to make permanent customers of them; you realize that one good, regular customer is worth a dozen short lived ones, and we will try to treat all who may favor us with their patronage so they will

"STAY BY US."

Prices cut down below cost and the loss made up by sharp practices and short weight will bring trade for a while but will not make customers that will stick. It is such that we seek and to gain them and hold them is our ambition. To this end we faithfully endeavor to consult our customer's interests as well as our own in selling them goods.

We Guarantee Both Quality and Price

Of every article we put up for you. If you have not dealt with us give us a trial; if you have, keep on with your orders and we will do our best to please you; we are not greedy, but we do like to do well, and we rejoice in the prosperity of all Albuquerque merchants and we are certainly striving to extend not only our own business but the influence and trade of Albuquerque, and flatter ourselves that our efforts redound not only to our profit but to the prosperity of the Central City and its merchants.

Respectfully,

J. E. SAINT & CO.

J. E. Saint & Co.'s Specialties.

There are no people under the sun who eat so much prepared food as the western people, because it is easily prepared, no waste, requires no particular skill to make it into a first class meal; is always ready and comes cheaper in the end. To meet the demand for this class of goods, we have made contracts at the factories, both in the East and in California and our first car will arrive this week and will be followed by more as rapidly as can be shipped until we will have our house full from floor to ceiling.
