

From old paper drawn from the wood; wines and liquors for family and medicinal use; champagne and cigars at W. E. Talbot's, the only reliable wholesale house in New Mexico.

SMALL TALK.

The great circus on Saturday. Everybody feels good over the result. More people in town now than ever before.

To-morrow comes the circus, clown, elephant and all. The Socorro delegation is the only dissatisfied faction.

An occasional drunk is all the policemen gather in now.

Talbot's new building makes a good convention hall.

The Luna men had a jollification at the Armijo house last night.

There will be an excursion to this city from Las Vegas to-night.

A large delegation of the Luna family of Las Lunas was in the city yesterday.

The Guards will turn out this morning at 9 o'clock to escort the Hon. T. Luna to the depot.

The county nominations have already commenced to claim the attention of the political people.

Billy Nuttall on Trimbles short legged horse amused the grand stand people, while waiting for the races.

In another column will be found the program of the Thirteenth infantry band at the concert this evening.

The Democrats are commencing to be heard in the land and their talk will grow louder every day until election.

The pool selling at the Armijo house last night was very lively. Little Joe was the favorite, with Leadville Girl second choice.

The postoffice was closed yesterday afternoon until 5 o'clock in order that the clerks might have an opportunity of visiting the exposition.

The entries for the 2:30 class today as follows: Little Joe, Leadville Girl, Kansas Maid and Mountaineer. Entries for the running race had not been made last evening up to a late hour.

Chris Rinkenberger, a carpenter in the employ of the Atlantic and Pacific road, has been admitted to the hospital. He shows as credentials a badly mangled foot.

Street fakirs did a land office business last night. Their glib tongues attracted a crowd, which completely blocked Second street at the corner of railroad avenue.

A large crowd was assembled in the street about Talbot's building last night while the convention was in session and lustily cheered the speakers who could be distinctly heard.

Judge Sullivan says that everybody is doing a large business this week except him. People are quiet and orderly, and refuse to do anything that will necessitate the intervention of justice.

Quite a number of the business houses followed the example of the banks and closed up yesterday afternoon to give everybody connected with them an opportunity of seeing the fair.

When the balloon was seen from the new town yesterday people supposed that Van Tassel had gone up in it. Rumor went so far as to say that two persons were in the basket, doomed to destruction.

The ladies of the Presbyterian church gave a home supper last night in Armijo Hall. Supper was served at five o'clock, and continued until a late hour in the evening. The ladies were well patronized and will realize a good sum from their enterprise.

General Passenger Agent White, of the Atchison, Topeka and Santa Fe railroad, has instructed the ticket agents to make the fare for delegates and alternates to the Democratic convention two cents per mile one way. This will make the fare one dollar and seventy cents from Albuquerque.

W. C. Nixon has been appointed agent of the Atchison, Topeka and Santa Fe road at Albuquerque, and arrived in the city yesterday morning. He is the man whom The Journal named for the position as soon as it was made vacant, and the people of Albuquerque could not be better pleased.

The following representatives of the press occupied the reporters' table, at convention: E. G. Ross, Leavenworth Standard; J. G. Wright, Albuquerque Democrat; J. M. Hill, Robinson Black Banner; S. H. Bogardus, Wallace Watchman; H. G. Kogler, Las Vegas Gazette; Mark Edwards, Socorro Sun; W. S. Burke, Albuquerque Journal; G. W. Hartman, Las Vegas Gazette; R. A. Kistler, Las Vegas Optic; Mrs. J. E. Martin, St. Louis Post-Dispatch.

New Fall Millinery. Mrs. Medler has just received a large and well selected stock of fine fall and winter millinery goods. Look out for Mrs. Medler's exhibit at the fair next week.

Big Fire. ST. CHARLES, Ill., Sept. 18.—The Co-operative Creamery Company's factory to-day. Loss, \$20,000; insurance, \$10,000.

Home Supper. The ladies of the Presbyterian church and their friends will give a supper to-night in Armijo Hall. Baked beans and doughnuts and everything home cooked. Supper 50 cents. Ice cream extra. All are invited.

A Good Chance for Investment. Saloon lease, bar fixtures, furniture, and good stock of liquors, in the best location in the city known as "Concert Hall," Railroad avenue, near Maden House.

CONTINUED SUCCESS

Of the Second Annual Exposition of New Mexico

The Largest Crowd and the Best Day Yet had.

Some of the Exhibits as Seen by the Journal.

The Balloon Escapes and Bursts a Mile Above the Earth.

The Speed King Contests, Base Ball Game Indian Races, etc.

Yesterday was the most successful day of the exposition. The many attractions secured by the management did not fail to attract a large attendance, and the grand stand was completely jammed with people to witness the races, while the main building was thronged with visitors all day long who were intent upon seeing the many attractive exhibits. The receipts of the association were much higher yesterday than on any previous day. The weather continues of the best and all doubts as to the weather for the remainder of the week have been removed.

WHITSON AND NICHOLS' DISPLAY.

Nearly every visitor at the exposition this week has been entertained by the music in the main building. For this treat they must thank the enterprising firm of Whitson & Nichols. This firm at a large expense has fitted up a very handsome booth, on the east side of the main building near the center door. It is trimmed in red and handsomely carpeted. A grand upright Decker Bros. piano occupied the center of the exhibit. The handsome body is covered by an equally handsome piano spread. On either side of this magnificent instrument a Western Cottage organ has been placed. The instruments are of ten and twelve stops, and each one is encased in walnut, very tastefully and handsomely carved. These organs are from the factory at Mendota, Illinois, and are as fine instruments as can be found anywhere in the west. On the wall back of the booth a well arranged display of musical instruments is made. Banjos, guitars, violins, tambourines and drums of every description may here be seen. In a very handsome nickel plated show case, the smaller musical instruments are shown to advantage. The case contains fife, harmonica, music boxes, and any quantity of musical merchandise.

Whitson & Nichols have combined with their music business, the sale of sewing machines. They are the agents of the Royal St. John and Singer. Within their booth at the fair three of the beautiful machines or on exhibition, and just as they should be in running order. Call at their booth and you will find one of the firm present to answer all your inquiries.

STAR CLOTHING HOUSE DISPLAY.

Just to the right of the north door in the main exposition building, the visitor is attracted by two very handsome walnut show cases. These contain the exhibit of Lewis & Ulman, or as they are better known, the Star Clothing House. In order that they shall be known wherever seen, a photograph of both members of the firm has been placed in the show cases. This exhibit will not fail to catch the eye of every gentleman who takes pride in his personal appearance.

To say that the tourist can here find a perfect outfit would but faintly describe it. The finest display of silk handkerchiefs ever seen in the Territory. Neckties, socks in endless varieties. Royal balbriggan underwear of any and every color.

Shoes and boots from those used by the miner to the finest calf-skin. A pair of boots of alligator skin, collar and cuffs, manufactured by the famous Wilson Bros., the Star clothing house, being sole agents. To cap the climax of this beautiful exhibit, there is placed between the show cases a full suit of black clothes which will stand the closest examination. The goods on exhibition are but a few samples of what their large emporium on Railroad avenue contains, if you have time to pay them a visit and you will not be sorry for it.

E. J. POST & CO.'S EXHIBIT.

Everything has passed off pleasantly and the exposition has shown such great strides in the advancement of this Territory that all who have come and seen for themselves are more than ever satisfied that we have before us a future unsurpassed by the history of any former country.

While our mineral wealth is rapidly developing, Albuquerque merchants, appreciating the necessity of full and more complete stocks are coming to the front in a way that shows the confidence in New Mexico in the future. First among those whose exhibit at the exposition attracts universal attention is that of E. J. Post & Co., wholesale and retail dealers in shelf and heavy hardware, stoves, wagon work and manufacturers of all kinds of tinware, copper ware and sheet iron ware. Their Niller proof ranges are the admiration of all, of which they are the sole agents for New Mexico and Arizona. They also keep constantly on hand a full line of guns, pistols and ammunition in which they excel any similar establishment in the southwest.

They have also the agency of Fairbanks scales, sully rakes and Buckeye mowers, the latter of which this house has disposed of in large quantities.

They have perfected arrangements for getting in the bulk of their stock

in car lots direct from factories, the increase of their wholesale trade compelling them to do so.

In builders' and mechanics' tools, they command the majority of the trade in the southwest, and that satisfaction in all their sales is proven by the large orders received daily.

A glance at their stock of black diamond and Jessup steel and all mining tools, will show that their stock is almost inexhaustible, and that they are fully prepared for any boom that may occur in our many rich mining districts.

In looking through their store we noticed over seventy-five different styles and sizes of stoves. The proprietors assure us that their present stock will not hold them through the season, and that they have made arrangements for a still further increase.

The people will do well to call at this establishment and examine for themselves with a guarantee that satisfaction in both prices and good will be given.

A cordial invitation is extended to the visitors at our exposition who may be in need of any of the many articles enumerated above with the assurance that polite and gentlemanly treatment will always be shown at the live and well popular house of E. J. Post & Co. headquarters for anything in their line and at whose exhibiting stand in the main hall, those wishing to know their correct weight can be gratified on the celebrated Fairbanks scales.

THE INDIAN SCHOOL EXHIBIT.

That the young Indian idea is being taught to shoot is well proven by the display at the exposition. In looking over this display it must be borne in mind that it is now vacation time, and none of the pupils are present at the school. The sketching on exhibition would do credit to older pupils of a civilized people. There are very few schools east that could show better progress than have these wards of the government.

The penmanship shows marked improvement in short spaces of time, and altogether the teachers should have cause to be proud of their charge.

The vegetable display from the school is equal to any in the exposition, and it has been admired by many of the visitors.

CHAS. A. MARSH'S DISPLAY.

The largest private exhibit in the main building is that of Chas. A. Marsh of Santa Fe. That it has taken a great deal of time and money to make this collection there can be no doubt. The most interesting part of the display to the general visitor is that of mounted birds. Every species of bird from the pelican and eagle to the finch and the humming bird; seventeen distinct species of ducks, from the teal to the canvas back; eight to ten species of warblers; larks, crows, geese, hawks and blackbirds are in the collection. The mineral exhibit is as nearly complete as can be, including as it does gold, silver, tellurium and copper ores.

THE GRAPE EXHIBIT.

The exhibit of grapes in the main exposition building attracts daily attention, not only from the number of varieties shown, but also because of the beauty of the fruit. The exhibits of J. K. Basye, J. J. Jackson, of Albuquerque, and that of Ira M. Bond, of Mesilla, are perhaps the finest. Besides grapes Mr. Bond shows what few people here have ever seen, ripe figs. They are delicious.

VAN TASSELL'S BALLOON.

The flying of Van Tassel's balloon was commenced at the corner of Third street and Gold avenue, on Wednesday morning, but was not completed until noon yesterday. At 2:30 a rope was thrown around the air ship, and a hundred men and boys dragged it to the exposition grounds. While the preparations were going forward, through a piece of carelessness on the part of some one, the rope holding the balloon parted, and while a number of those close by attempted to hold the ponderous ship, it rose quickly toward the clouds. Without a hand to control and guide its velocity, the ascending gas bag quickly reached an altitude of a mile or over. At this time the balloon was directly over the Exposition grounds, having risen almost directly upward. Fears were entertained by many that should the canvas burst, the anchor, in falling, might do some damage. It did burst, however, but the torn shreds acted like an immense parachute, and the descent was not nearly as fast as all imagined it would be. The unruly monster floated off to the north of the grounds, and landed about a quarter of a mile from where it started. Several parties immediately started for the spot where it fell, and shortly afterwards it was hauled to the grounds in a wagon.

Van Tassel seems to feel this accident very keenly, as he had a beautiful day and an immense crowd to witness the ascent.

He has not yet decided what he can or will do with the balloon. Before the start a patch had to be sewed on the parts having been burnt by the heat of the canvas while packed.

THE RACES.

When the pools opened yesterday afternoon on the exposition grounds, Mountaineer was the favorite and Leadville Maid second choice in the 2:35 class.

The horses were called promptly at 3 p. m., and their positions assigned as follows: Kansas Maid, Little Joe, Mountaineer and Leadville Girl. Empress had been withdrawn. After scoring three times the horses got away well together. Kansas Maid led to the quarter where she was obliged to give way to Little Joe. The race from here home was an exciting one with some very fast trotting being done. Little Joe crossed the wire first, Leadville Girl second, Mountaineer third

and Kansas Maid way behind. Time of heat 2:42.

A good deal of jockeying was indulged in before the horses got away for the second heat. Little Joe at once took the lead and trotted squarely throughout the heat. Mountaineer however showed his speed in the last one half mile, and came under the wire first, Little Joe second, Kansas Maid third and Leadville Girl fourth. Time 2:44.

After scoring several times the horses made a fairly even start in the third heat. Little Joe took the lead at once and set the pace which was a fast one. Once or twice during the heat Mountaineer pressed the little trotter very close, while Kansas Maid and Leadville Girl were having a race all by themselves.

Little Joe showed too much speed for the trotters and passed under the wire winner of the heat and race; Mountaineer second, Kansas Maid third and Leadville Girl last. Time, 2:40.

Purse \$500, 2:35 class, best two in three. Little Joe..... 1 2 1 Mountaineer..... 3 1 2 Kansas Maid..... 4 3 3 Leadville Girl..... 2 4 4

After the completion of the trotting race the horses were called to the score for the mile and repeat running race. Brown Dick seemed to be the favorite after Stone's filly had been withdrawn.

Four horses came to the score and were placed as follows: Brown Dick, Doubtful, Sympathy and Belle Mesick. A poor start was made. Brown Dick seeming to have the worst of it. From the start Belle Mesick was out of the race. The running was close all the way around. Brown Dick came in first, Doubtful, second, Sympathy, third, while Belle Mesick was distanced. Time, 1:54.

After two false starts the horses got away well together in the second heat, Doubtful taking the lead. Brown Dick, however, was too fast for the others and won the heat and race. Doubtful, second, Sympathy, third. Time, 1:56.

Purse \$300, Running race. Mile and repeat. Brown Dick..... 1 1 Doubtful..... 2 2 Sympathy..... 3 3 Belle Mesick..... dist. Time, 1:54, 1:56.

THE INDIAN RACES.

At 2 o'clock yesterday afternoon there took place on the exposition grounds one of the most interesting races that has yet been run. It was a race between two Zuni and two Laguna Indians. All were stripped to the waist and looked as though they could run almost any distance. The race was for a purse of five dollars, and the distance one mile. One of the Zuni Indians came in first with a Laguna close at his heels. Time 5:05. The whole party were afterwards photographed by Wittick & Russell.

BASE BALL.

At 2 o'clock in the afternoon game was called for the contest for the base ball supremacy between the Albuquerque Browns and the San Marcial nine. The toss up was won by Capt. Sullivan of the Browns who sent his men to the field. Both clubs seemed to be confident of winning, and at the end of the first inning the game stood 2 to 1 in favor of the San Marcial.

The Browns soon caught up and in the fifth inning were in the lead four or five runs.

Sullivan the pitcher of the Browns was at this stage doing excellent work and it was thought the home club would be victorious, but the hopes of the boys were soon dashed to pieces, for Sullivan's arm gave out and the catcher, Hopkins, with badly swollen hands, was compelled to abandon the position he had hitherto filled so well. As soon as a change pitcher and catcher were substituted the San Marcial's commenced piling up run after run and soon were in the lead by six or seven scores. The game was then virtually won for the visitors and although the home boys tried to redeem themselves it was found impossible to do so without the aid of Sullivan and Hopkins. The game was finally finished by darkness and at the close stood nineteen to twelve in favor of the San Marcial.

TO-DAY'S PROGRAM.

10 A. M.—Indian races and dances. 11 A. M.—Base ball games. 1 P. M.—Reports of awarding committees in divisions D, E and F. 2 P. M.—Competing base ball games; the competitors to be agreed upon, and reported at the secretary's office prior thereto. 3 P. M.—Trotting race, 2:30 class; purse, \$500. Running race; mile dash purse, \$100. Indian race; half-mile, first premium, \$25, second premium, \$10. Members of the Rochester, New York Bicycle club will be on the grounds with their bicycles, and have been engaged by the association to perform their evolutions during one of the intervals in the afternoon, probably about 2 P. M. Their wonderful exercises on our splendid track will be of unusual interest. The concert in the main exposition building has been postponed until Saturday evening.

Order No. 13.

Albuquerque Guards you are hereby ordered to report at Armijo Hall, for duty at 9 A. M. sharp, to-day in full dress. No man should fail to appear. By order of Jno. BORRADALE, J. DONOVAN, Capt. Commanding. O. S.

Oysters stewed, fried or raw at the Metropolitan.

Fine assortment of wall paper at Straburg's.

LOCAL NEWS.

The Arrival of the Bicyclists in the City.

What They will do on the Grounds To-day.

W. C. Melville the Recipient of a Hand-some Present.

A Substantial way to Show Esteem and Friendship.

Personal Paragraphs About People in and out of the City.

PERSONAL.

Some of the Distinguished Visitors Who Are in Albuquerque to See the Exposition.

John Salazar Otero, San Rafael, is in town.

G. A. Smith, of Santa Fe, is at the Armijo house.

Charlie Dyer, of Las Vegas, is at the Armijo house.

C. H. Rathbun, of Wallace, came down yesterday.

W. A. Frost, Las Vegas, is the latest arrival from that city.

J. H. Neal and wife of Socorro are visiting the exposition.

Lockwood and McCurdy, the Arizona merchants, are in the city.

John Westphaling, of St. Joe, Missouri, arrived in the city last night.

H. L. Harris, of Chandler, Arizona, was among yesterday's arrivals in the city.

Harry Brown, wife and daughter, of San Marcial, came up yesterday morning.

J. S. Triplett, of St. Louis, Missouri, came in last night and is quartered at the Armijo House.

Postmaster Rogers, of Williams, Arizona, and his accomplished daughter, are in the city visiting the exposition.

George Garner, check clerk at San Marcial, came up yesterday morning to see the base-ball game and returned home last night.

Allen T. Johnson, came in from the Atlantic & Pacific front yesterday morning and will remain in the city about two weeks.

Will M. McClure, the well known traveling man came up from the south yesterday morning and took in the races yesterday afternoon.

R. M. Batchellar, station agent at Coedige, arrived in the city yesterday afternoon. He says he will remain until Saturday only, but those who know him best say he will leave town while there is any prospect of seeing a circus.

Harry Comstock, representing L. C. Smith, manufacturer of Baker's patent breech loading guns, of Syracuse, New York, arrived in the city last night in company with the bicyclists, and paid The Journal office a visit. He will remain and take in the exposition.

A Cyclotest Present.

W. C. Melville has, since the commencement of construction on the Atlantic & Pacific road, occupied the position of chief clerk in the general freight and passenger agents office. Yesterday C. R. Williams went into the office and took with him his own chief clerk, and Mr. Melville retired to take charge of the company's business at Prescott, Arizona. During his long stay in Albuquerque Mr. Melville has made many friends, both among the attaches of the road and the other citizens of this city. As he is about to leave the city his friends decided to present him with a fitting token of their esteem and well wishes. They accordingly met in Berks & Fairfield's office last evening, and after summoning Mr. Melville into their presence, organized a meeting with C. W. Saunders as chairman. A handsome gold watch, with the latest improved Howard movement, and a massive gold chain was presented to Mr. Melville in an appropriate speech by C. W. Saunders. The recipient responded and thanked the donors, assuring them that he would always keep the handsome present tendered him in kind remembrance of those who gave it to him.

Speeches were made by the majority of those present, the tongues of the party being loosened by the refreshing beer and sparkling champagne which was supplied for the occasion. Among those who were present were Capt. Woodruff, Peter Mulvaney, Mr. Rogers, of Williams, Arizona, Ralph Halloran, Patrick King, J. C. Minor, J. H. Kuhns, William McAdams, E. Louis Kuhns, Tom Phelan, George S. J. Croese, W. C. Sanders, John R. Price, Bernard Rodey, A. G. Wells, James Burke, Louis Grant, Walte Katts, F. M. Crocker, Reese Price, R. M. Batchellar, John Phelan, Harry Steepel, J. G. Grundell, Allen T. Johnson, Engi near Rogers and Jim Barry.

The Bicyclists.

The management of the exposition was in telegraphic correspondence yesterday with a party of bicyclists who were in Santa Fe, which resulted in the engagement of the bicycle men for an exhibition of their skill at the grounds to-day. The party was met at the train last night by Col. Moynoux Bell and Altheimer, who secured accommodations for them at the Rio Grande House. Last night, under the guidance of Col. Bell, the gentlemen took in the city and paid The Journal office a call.

The bicyclists are three in number, and are all members of the Canandaigua, New York, bicycle club, and consist of Dr. A. G. Coleman, captain of the Canandaigua bicycle club, and representative of the League of American Wheelmen of New York state.

Fred. B. Graves, consul of the League of American Wheelmen, C. A. Smith and R. A. Punnett, fancy riders.

These gentlemen came west at the instance of the Kansas State Fair association, and gave an exhibition of their riding in Topeka last week. W. F. White, general passenger and ticket agent of the Atchison, Topeka and Santa Fe road, after the close of the fair in Topeka, furnished them with complimentary passes over the road, and they came to New Mexico. Their first stop was at Las Vegas where they visited the springs and other points of interest. From there they went to Santa Fe, and from thence to this city. The exhibition which will be given by these gentlemen to-day will consist of a bicycle drill, trick, acrobatic and fast riding. It will be a novel sight to New Mexico people, and will be the means of attracting a large number to the exposition grounds.

The party will en-route to the west stopped in Buffalo, N. Y., where they captured the first prize in the bicycle tournament, and in Chicago they gave exhibitions.

BENEFIT CONCERT

For the 13th Infantry Band.

PROGRAMME.

1. Overture—"Diadem".....Herzma 2. Potpourri—"Chimes of Normandy"....Piauet 3. Clarinet Solo—(By Mr. Nibb).....Frank 4. Gavotte—"Fairy Echoes".....Benes 5. Quairlette—"Sounds from Home".....Gurgle 10. Serio Comic—"Musical Jokes".....Carl

Concert to be given at Armijo Hall at 8 o'clock. Admission 50c. Reserved seats \$1.

The Great Circus Saturday.

The great Robinson circus to be here Saturday, is thus spoken of by the San Francisco Bulletin:

"A little after 10 o'clock the grand procession took place, the streets being by this time lined with spectators. The parade itself constituted a fine entertainment, and introduced so many new, novel and pleasing features that it will be long remembered; in fact it was one of the finest parades ever seen in the city. Inside the mammoth pavilion the performances began promptly, and was one succession of grand successes. The separate rings afforded such a diversity that the only fault that could be found was that there was really so much to see that the eye could scarcely follow the wonderful interposition of thrilling feats in which acrobat, equestrian, gymnast and juggler vied with each other in their efforts to please the public. Where there was so much that it would, perhaps, be invidious to select particular ones; but the riding of Robert Stickney, in which was displayed a perfect mastery of horsemanship, the talented and finished equestrianism of Miss Emma Lake, the wonderful performance on the bicycle of the Alfredo family, and Professor Samuel's wonderful school of comic monkeys, dogs, goats and ponies were all indeed perfect marvels of their kind."

LOCAL NOTICES.

To Rent, New, Fine Furnished Rooms.

For the fair, At the Alameda. Enquire at the St. Julien.

The kitchen and dining room furniture, consisting of table, ware, linen, dishes, stoves, ranges, chairs, etc., etc., in fact everything necessary for the furnishing of a first class dining room or restaurant, will be for sale at the Maden House on or after the 25th inst.

Strauberg will paint you cheap or expensive signs.
