BAXTER SPRINGS, KANSAS.—"I received the free sample of Doan's Kidney Pills. For five years I have had much pain in my back, which physicians said arose from my kidneys. Four boxes of Doan's Kidney Pills have entirely cured the trouble. I think I owe my life to these Pills, and I want others to know it." SADIE DAVIS, Baxter Springs, Kans.

FALMOUTH, VA.—"I suffered over twelve months with pain in the small of my back. Medicines and plasters gave only temporary relief. Doan's Kidney Pills cured me." F. S. BROWN, Falmouth, Va.

DESERVILLE, IND.—"It was called rheumatism. I could get no relief from the doctors. I began to improve on taking Doan's sample and got two boxes at our drug store, and, although 55 years of age, I am almost a new man. I was troubled a good deal with my water—had to get up four and five times a night. That trouble is over with and once more I can rest the night through. My headache is all gone, and I thank you ever so much for the wonderful medicine, Doan's Kidney Pills."

Intoxication in Animals.
M. Grobait, professor of physiology in Paris, in describing the effect of alcohol upon animals, says that the successive stages of intoxication through which they pass are gaudy, sadness, solemnity and a supreme intoxication which ends in death. Rabbits are very curious when under the influence of liquor and a drunken kangaroo is brutally aggressive.

German Windmills.
The old-fashioned windmill stood Germany, as well as other European countries in good stead for a long succession of centuries, and though abandoned for a short time in favor of other applications of power, is coming back again to furnish force to drive dynamos. For this there is demand enough to keep all the winds of the fatherland busy for many a year and generation to come, thus rescuing the ancient and picturesque windmill from the obliteration and forgetfulness which have of late seemed to await it.

A MAN WHO LAUGHED.

His Momentary Lapse of Deference Cost Him High Position
It does not pay to laugh at kings, at least in their presence. On several occasions where men have been given to levity before monarchs it has been amply proved that this is so. It was awkward for the confidential adviser of the czar of Russia, not long ago, that he was unable to control his impulse to smile. On the occasion in question the czar was tired and in an unpleasant frame of mind. His foot slipped on a wolf-skin mat. There was something so funny about it that the confidential adviser lost control of his features. That laugh at the wrong time cost him his high position and a salary of many thousands of dollars a year.

WASTE OF PUBLIC MONEY.

Example of the Incompetence of British Officials.
A somewhat curious waste of public money has just been brought to light by the report of the British Committee of Public Accounts. Recently the war department built a store for the ammunition of the navy at Gibraltar, costing £42,000, to be charged to navy votes. The store was found too damp to keep ammunition in; so it was converted into a cold meat storehouse for both army and navy. This was done at the expense of £47,000, including the cost of freezing machinery, etc., making a total expense of £89,000, of which the army pays only £23,000, although each department receives the same accommodation as the other.

Stamping Out Use of Opium.

When the Japanese took possession of Formosa they found there a population more or less addicted to the use of opium. It was decided to abolish the practice by degrees. Only those who have suffered from its effects to the extent that it occasions intense pain to deprive them of their pipe are now permitted, by a special warrant which they are obliged to procure, to continue the use thereof. To newly commence opium smoking is strictly forbidden, or even continue it unless it can be shown that abstinence is impossible. A government monopoly of the article was expressly established to facilitate the final extinction of the habit of using it.

In the Wrong Place.

A well known and popular physician, whose belief in the future accords with that of the late Col. Ingersoll, had occasion recently to perform a surgical operation upon a man not select in his language. After etherizing his patient the operation was successfully performed. When the effect of the ether had passed off, the subject, looking wildly around the room exclaimed: "where am I?" The doctor replied, "On! you are all right." "But," said the man, "I may be all right, but where am I?" The doctor answered jocularly, "In Heaven." The patient responded: "If that's so, I'd like to know what in — you are doing here!"

Recklessness of the Motorist.

That the motorist can not help reckless driving was maintained by a French savant in a recent meeting of scientists in Paris. The furor steels on them. In setting out they intend to go at a moderate pace, but as they warm to the work they must rush on faster and faster. The flying landscape through which they tear forward produces the kind of giddiness which Arabs say takes hold of them in the fantasia. In this state motorists would run down those nearest and dearest to them as unhesitatingly as though they were so many animals.

The Hungry Lion.

A little boy was being shown a picture depicting a Roman arena, in which there were a number of Christian martyrs. A pack of lions were in the act of springing upon their victims. "It isn't fair," said the little fellow, excitedly. "No, my son," agreed his mother. "It isn't fair; all those big, hungry lions—" "But," interrupted the young hopeful, "there's one poor lion that hasn't got any Christian."

Will Be Credit to America.

Eugene H. Lehman, the young Colorado college student, the first American to be awarded a Rhodes scholarship at Oxford, worked his way through Yale, where he got employment as a tutor at \$1 a day and wheeled an invalid in her chair for 25 cents an hour. His credentials showed a higher percentage than those submitted by twenty other students.

Morgan's Gold Dinner Service.

Pierpont Morgan has a gold dinner service, said to be worth \$50,000, which was presented to him by William H. Vanderbilt when he (Morgan) made an extensive sale of New York Central stock in Europe. It is a reproduction of a service in the British royal family, but the Morgans are not fond of display and seldom use it.

THE SMALL BOY'S LONGING

Part of the Show That Was Woefully Disappointing.
Little Willie's father took him to the show. It was a variety show, ending with a sketch called "The African Belle," in which, after a missionary had been bound to a stake by a lot of dancing savages, he is rescued by the chief's daughter after the manner of Capt. John Smith. This last part of the show Willie's father thought would please the boy immensely; but the son and he fell into a state of gloom at its close. On the way home the fond parent inquired: "Willie, didn't you like the part where all the savages come out?" "No," replied Willie with a sigh. "Me and the other boys play that. When you pay to go to a show I should think they might kill the missionary."

PEAS FROM PHARAOHS' TOMB.

Their Product Unlike Anything Known at Present.
There are bargains and finds to be made in the plant world equal to any poked up in old curiosity shops. Some time ago a Glasgow gentleman received from his son in Egypt an envelope full of peas, which were said to have been found in the tomb of one of the Pharaohs. He sent them to a friend of his at Kames, in the Isle of Bute, who sowed them. They grew up into plants quite unlike anything known at present, strong and about six feet high, with a great white flower having a red center. The pods were long and full of excellent peas. This new old variety found a ready sale at good prices.

Muscular Christianity.

Prof. Bryce, in his biographical study of Bishop Fraser, of Manchester, tells of a clergyman of Fraser's diocese who had knocked a man down who had insulted him. The bishop wrote him a letter of reproof, pointing out that exposed as the Church of England was to much criticism on all hands, her ministers ought to be very careful of their demeanor. The offender replied by saying: "I must regretfully admit that, being grossly insulted, and forgetting in the heat of the moment the critical position of the Church of England, I did knock the man down, etc." Fraser was delighted with the turning of the tables on himself, and afterward invited the clergyman to visit him.

Superfluous Boys.

A British parliamentary paper shows that, as usual, nearly 20,000 more boys than girls were born in the British Isles last year. Whence, then, the "superfluous woman?" The boys die, during the first weeks and months of life, at a far greater rate than the supposed "weaker vessels." In a few months they have sunk to an equality and soon woman takes the lead, numerically, and keeps it, numerically. The reason is not unconnected with the larger size of the baby boy's head, for which he either pays the penalty very early or reaps the reward—if woman will forgive the hint—later.

Why He Disliked Spelling Reform.

Senator F. Dumont Smith of Kinsley lectured on "Words" in Wichita, Kan., a few nights ago. He is for spelling reform, and in advocating it in his lecture said that he knew of only one argument in favor of the old way and that was given by an English bishop who declared that the present method of spelling helped the churches. According to the bishop: "By the time you can make a boy believe that 't-h-r-o-u-g-h' spells 'through,' that 't-h-o-u-g-h' spells 'though' and 't-o-u-g-h' spells 'tough' you can make him believe anything."

Much Money in Tramps Clothes.

A lot of young fellows in an Ohio town had a good time with a tramp last week. They took him into a shed, gave him a good bath, shaved him and cut his hair. They then bought a new suit of clothes, white shirt and stand-up collar and dressed him out complete. But when they attempted to burn his hobo clothes he objected and fought for them with such desperation their suspicions were aroused, and upon searching they found \$1,400 sewed up in the coat.

Girl an Excellent Athlete.

Miss Agnes S. Wood, the champion basket ball player and all-around athlete of Vassar college, has beaten the girls' record at running and almost equaled that of men, despite the fact that her gait was somewhat impeded by a rather cumbersome costume. She does not allow athletics to interfere with her studies and will graduate near the head of her class.

Few Automobiles in Washington.

Official Washington does not take kindly to the automobile and very few persons in the executive or diplomatic service are seen in vehicles other than carriages. The president is too fond of horses ever to take up the craze. He has always shown a preference for surreys and seldom drives out of town in any other kind of vehicle.
