THE TEST—Melt some ice and drink the water.

Announcement

The Peoples Ice & Produce Company Deming, - New Mexico

Will begin operating their new Ice plant about May 8th

This plant has been erected according to the most approved plans for the production of ICE under the most SANITARY CONDITIONS.

Fortunately the water of Deming is practically PURE and by installing the necessary special machinery, we will be enabled to produce better ICE from raw water, when considered from a point of HEALTH TASTE or COOLING QUALITIES, than can be made from any distilled water derived from exhaust steam, with the apparatus ordinarily employed.

ALL WATER THAT WE FREEZE WILL BE FILTERED THROUGH CHARCOAL and agitated by compressed air from which all impurities have been removed. The water for this ice goes from a SEALED WELL direct to the cooling tanks and filters, thereby insuring that it is not infected or allowed to become saturated with oil or other impurities. You can melt this ice and drink the water and have no bad taste—IT IS HEALTHFUL.

In order to give the people of Deming and vicinity as low a price as possible, it will be necessary for us to do a strictly cash business. In deciding to give the residence trade as low a price as we could, and IN CONSIDERATION OF A CASH basis, THE RETAIL PRICE OF ICE IN DEMING WILL BE THE SAME AS IN EL PASO, viz, 60 cents per hundred pounds when purchased from coupon books, in lots of 25 pounds or larger. We make this comparison, not because Deming is as large as El Paso now, but because Deming is in El Paso's class anyway.

We are in Deming to stay and most courteously ask for a part of your patronage, for

FAYWOOD ITEMS

If the late frosts keep up much longer, the farmers up here are thinking of putting paper hats on their alfalfa. The Imperial Valley farmers claim that the cantaloupe crop was saved this year from frost by putting paper drinking cups over the growing plants, when they were quite young, and, as they were planted early to get the first market, the means for saving the crop was ingenious and effective.

Dr. Brown of El Paso, who recently bought the Gorman farm, is preparing to sow forty acres of the new drought resisting grain, feterita. It is claimed that it will yield fifty to eighty bushels to the acre and is thirty-five days earlier than kafir corn. The Governor recommends it highly, and Senators A. B. Fall and T. B. Catron have sent liberal packages of seed to all who wished them.

State Senator J. N. Upton came up here from Deming Thursday. The senator is overseeing a large acreage which he is having planted in alfalfa.

Bud Perry came up from Deming last week with a bunch of high grade cattle which he recently purchased.

Mark Kennedy bought Pat Nunn's famous race horse Red Cloud Saturday. He won several races in Deming. It is rumored there will be an exciting race between Red Cloud and Mr. Stephens' Gray Eagle at Dwyer soon.

Mr. and Mrs. Templeton drove to Deming Saturday to meet their son Dillard, who has been attending school in Alpine, Texas. Dillard could not finish the term on account of sickness.

DeGrafton Reed, who is a prominent banker in Melrose, Texas, is here visiting his son and daughter. Mr. Reed is very favorably impressed with this part of the country, and may decide to locate here.

Miss Hattie Kibbon, who has been visiting Mrs. R. Hudson in Deming, returned to her mother's ranch at Old Town Saturday.

All the local cattle men are busy gathering the steers, which they will take to Deming on May 5. They are getting a fine price, as two-year old cattle bring \$50 each, and yearlings, from \$31 to \$35. Cattle are in good condition on the open ranges. In Texas we hear they are feeding their cattle.

The following were Faywood visitors: Judge Colin Neblett, Silver City; Thomas McSherry, Silver City; Reis Herndon, Fiero; J. A. Bostick, Deming; Mr. and Mrs. O. E. Bailey, and children, Deming; F. B. Shields, Deming; J. A. Shields, Deming; Thos. B. Taylor and wife, and Mr. E. C. Sparks, Deming.

Presbyterian Church

Children's Day and Mother's Day will be observed at the morning service. A splendid program will be rendered by the Sunday school. Songs, recitations, and dialogues appropriate to the occasion will be given by the young people. A hearty welcome to all.

Want Mail Carrier

Postmaster W. E. Foulks is having trouble in getting mail messengers to carry the mail to and from the Deming depot and the postoffice department has asked for bids on the matter. It is hoped that the matter will be adjusted shortly. Anyone desiring the contract to carry the mail from the Southern Pacific and Santa Fe trains can get all information from Postmaster Foulks.

Big Garage Completed

The Ed. F. Moran Contracting Company have just completed the large garage in the rear of the Catholic rectory and also a fine cement approach to the Catholic church, which greatly improves the appearance of that section of the city.

Baptist Church

Special service next Sunday morning, May 10.

The Children's Chorus will have charge of the music next Sunday morning and all, who heard them last month, will be glad of the opportunity to listen to them again. They have been practicing faithfully for the last few weeks, and have something good in store for all. The pastor will speak to "Fathers" in the morning to suit the program, and it is requested that everyone be present to encourage the work.

The average in the Sunday school for April was the largest in the history of the school, and we are urging all to attend and make May even a better month.

SOCIETY

Entertainment

The Home and Foreign Missionary society of the Methodist church was entertained on Thursday afternoon at the parsonage by Mrs. McCreary and Mrs. Gaskill. Birds figured largely in the afternoon's entertainment. The ladies were invited to write as many names of the feathered tribe as they could recall in an allotted time. Mrs. Taylor headed with the list with twenty. Next was to draw a bird. So many handsome specimens were handed in, that it was impossible to decide on the best. Little Mary Morgan appeared with "the four and twenty black birds baked in a pie." After a cute little speech, beautifully delivered, she invited the ladies to assist in opening the pie, by drawing out a bird. The birds did not begin "to sing" but each one bore on his back about the Missionary work, the answer found on the birds with which the room was decorated.

A contest of missionary information questions and answers was very helpful and interesting.

Mrs. Graham and Miss Watson furnished beautiful music for the occasion. Refreshments were served and the guests voted the ladies royal hostesses.

Five Hundred Club

The Five Hundred club met this week at the home of Miss Fay McKeyes. Miss Maud Toms had the honor of winning the prize.

Hall-Abercrombie

J. Harry Hall and Miss Emma Abercrombie, both of Silver City, came down last Sunday and were married here. Mr. Hall is a native of New Mexico, having been born at Mogollon. He is now chief steward of the Cottage Sanitarium at Silver City, and his charming wife is one of the leaders of the younger social set of the Grant county metropolis. After the ceremony the young couple made a short honeymoon trip to El Paso, returning to their home, Tuesday, in Silver City, where they will live in the future.

Wright-Thomas

Fred Wright and Miss Annie E. Thomas, two popular residents of Columbus, came up from the border city last Saturday, and were married here, after which they returned to their home in Columbus.

OIL COMPANY IS MAKING MANY IMPROVEMENTS

The local branch of the Continental Oil company started Wednesday to build extensive improvements to their supply depot in Deming, which, when completed, will assume an outlay of about \$5,000. A large store room and ware house is to be built to cost \$2,000, work on the basement and foundation being nearly completed. A large barn for the horses and wagons is to be erected and a modern pumping plant for the transfer of the company's products from the

cars to their numerous storage tanks will also be installed.

When these numerous additions are completed, the Deming depot of the Continental Oil company will be one of the best equipped stations in the state of New Mexico. H. T. Bixler and son are the contractors.

KANSAS WOMAN BOUGHT LITTLE VINEYARDS TRACT

One of the results of R. C. Ely's visit to Kansas, was the sale, recently consummated, of ten acres of Little Vineyards land to Mrs. Stella C. Ogden of Florence, Kansas. Mrs. Ogden will move here and build a home on the tract and conduct a fruit farm. Mrs. Ogden's daughter and son-in-law will also make their home here.

To fulfill the sales contract Mr. Ely had 200 plum, peach, pear, and cherry trees, 1,500 grape vines, and 10,000 raspberry bushes set out for Mrs. Ogden. A. A. Douglas supervised the work, which is pronounced excellent. The nursery stock was furnished by the Remer Nursery of Marion, Kansas. The varieties were well selected for this country, and the plants are sure to do well in this, the most favored fruit country in the Southwest.

D. P. McCauley was a visitor from Columbus this week.

Albert F. Quechoermer and wife have sold their 80-acre farm to C. C. Hollenbeck of Fairbury, Ill., for the sum of \$0,000, which includes all water rights.

H. N. Reno of Douglas, Ariz., is visiting friends in the city.

COFFEE FOR TWO.

As yet it's a table just for two,
A plate for me and a plate for Sue—
My bride and I.
White as her heart is the cloth between,
Bright as her eyes the silver's sheen;
And I gaze and try
To understand and to calculate
Why I have won so much from Fate,
As she who gazes with eyes of blue
Across the table set for two.
Fragrance o' flow'ret in her breast,
Whiff from the urn; now, which is best?
I scarcely know!
Sweet is the scent of the double rose,
But oh, that sniff from the urn's bright nose
Is surely so.
And smiles seem dearer and lips more sweet
When seen through the shimmer of fragrant
heat
From CHASE & SANBORN'S perfect brew
Above our table set for two.
