The Attitude of This Country Towards the Insurgents Causes Many to Join Them.

ODDS AND ENDS OF NEWS

WASHINGTON, D. C., March 26.—The house committee has decided to submit the New Mexico and Arizona admission bills, and allow the house to express the opinion on them.

CAPE TOWN, South Africa, March 26.—A revolt has broken out among the Matabel natives, who have murdered many English settlers.

WASHINGTON, Ind., March 26.—The Baltimore and Ohio Southwestern shops here closed indefinitely this morning, throwing 400 men out of employment.

ALTON, Ill., March 26.—The boiler of the steamer "Artemus Lamb" exploded, this morning, fatally injuring two firemen, and badly wrecking the steamer.

WASHINGTON, D. C., March 26.—The U. S. treasury has raised the premium on gold bars from 1-16 to 3-16, in the endeavor to check, if possible, shipment abroad.

CAIRO, Egypt, March 26.—Representative French owners of Egyptian bonds have taken steps to prevent the use of the funds for the expedition against Abyssinia, in accordance with the objections raised by Russia, France and Turkey.

SELEWETON, Colo., March 26.—A snow slide 700 feet long, 300 feet wide and forty feet deep, carrying many huge rocks, buried the Rio Grande track, four miles south of here, yesterday. It will take several days to remove the obstruction.

MAISON, Ga., March 26.—A mail clerk on the Southern railroad threw out a mail bag at Eastman siding, which struck a switch, breaking it and opened the siding. The train broke in two, and the rear end collided with a box car on the siding, injuring four persons.

WOMAN'S EDUCATION UNION. CHICAGO, Ill., March 26.—Letters from men and women of prominence in all sections of the country were read today at the meeting of the Chicago woman's educational union, which was participated in by many women of national reputation in the field of philanthropy and reform.

Ballet Girls' Ball. NEW YORK, N. Y., March 26.—All the dudes of Gotham's dudedom will flock to-night to the Terrace garden, where the ballet girls of the metropolis are to give a fancy dress ball in celebration of the first anniversary of their protective association. It is probable that this association will soon be made national by becoming a branch of the theatrical stage employes' union.

A Federation Probable. ERIE, Pa., March 26.—Several hundred representatives of the various organizations of railroad engineers, brakemen, firemen and conductors traveling over adjacent territory in several states, are in session here today, to consider the advisability of organizing a federation. Grand Master P. H. Morrissey, of the brotherhood of railroad trainmen, arrived this morning.

Joining the Rebels. HAVANA, Cuba, March 26.—The attitude of the United States towards the insurgents has caused thousands to join the rebel ranks, and the successful landing of the expeditions by the steamers "Comodoro" and "Bermejo" has furnished them supplies, rifles and ammunition. All indications point to several offensive operations on an increased scale, in the near future.

Reed's Presidential Boom. BOSTON, March 26.—Speaker Reed's presidential boom will be formally christened by the republican state convention, to-morrow. The committee on resolutions, of which Senator Lodge, the most intimate friend of the speaker, is chairman, will meet, this afternoon, and give the finishing touches to the platform. This pronouncement takes emphatic ground against the free coinage of silver, except by international agreement.

"Amatory Madness" Don't Go. NEW YORK, N. Y., March 26.—A dispatch from London says: The court of queen's bench has decided that in the trial of persons for offenses of the nature that resulted in the conviction of Oscar Wilde, the plea of "amatory madness," a newly-coined medical phrase, cannot be accepted as a defense. This decision grows out of the conviction of a wealthy retired merchant named Nash, and his sentence to ten years' penal servitude.

TWO ALL-AMERICAN WEDDINGS.

WASHINGTON, D. C., March 26.—The wedding of Edward Gwynne, nephew of Mr. and Mrs. Cornelius Vanderbilt, and Miss Helen Steele, of this city, will be solemnized here late this afternoon. Mr. and Mrs. Vanderbilt, who, with a large party, have been traveling through the south on a special train of magnificent parlor cars, have reached here, to be present at the function. With them are their daughter, Gertrude Vanderbilt, Miss Isabel Gerry, Lippard Stewart, Harry Payne Whitney and several other leading members of New York society.

BLOOMINGTON, Ill., March 26.—[Half-a-dozen or more states will be represented this evening at the marriage of Miss Nellie Pollock and A. P. McCormick, jr., of Waco, Texas, son of Hon. A. P. McCormick of the United States circuit bench. The bride elect is the daughter of John E. Pollock, a cousin of Vice President Stevenson, and also of Hon. James S. Ewing, ambassador to Belgium. She possesses remarkable beauty and is of brilliant attainments. The nuptials will be solemnized at the home of her parents.

CHRISTENING OF THE "IOWA." DES MOINES, Iowa, March 26.—Gov. Drake, accompanied by his daughter, Mary Lord Drake, the members of his staff, state officials and other prominent citizens of the state, to the total of thirty-five, will leave for the east on a special train to-night, to be present at the launching of the new battleship, "Iowa," at Philadelphia, on Saturday next. The legislature being in session prevents many state officials and others from accepting the invitation, but the party includes a sufficient number of the Hawkeye state's prominent sons, accompanied by their better halves, to assure the state being properly represented at the christening of the magnificent addition to the navy which will be named in her honor.

TRIAL BY COURT MARTIAL. LEAVENWORTH, Kan., March 26.—The most conspicuous case that will come before the general court-martial, which convened at Fort Leavenworth, today, is that of the twelve privates from Jefferson barracks, St. Louis, who are charged with having given perjured testimony before a recent trial board at the barracks. The accused men perjured themselves, it is alleged, in order to shield some companions in the ranks who were being tried for petty breaches of discipline. As similar cases of perjury have been commonly reported from regular army posts and garrisons lately, it is believed the accused privates, if they are found guilty, will be made an example of and severely dealt with.

This visit demonstrates more strongly than the speculations of London society, and its club gossip, the precarious condition of the venerable sovereign's health; for she had originally intended to meet the emperor and empress and the Empress Frederic, next month, at Coburg, at the marriage of her grand-daughter, Princess Alexandra, to the hereditary prince of Hohenzoln.

RICHEST STRIKE OF ALL. A Prospector Named Johnson Has Found a Fabulously Rich Gold Strike Near Golden.

Correspondence New Mexican. GOLDEN, N. M., March 25.—Tally another one for Golden and Santa Fe county. The richest strike of all was made last week.

A prospector named Johnson came into Golden last Thursday and exhibited some ore that he had discovered that day, which beats anything so far found in the camp.

It is an oxidized yellow ore—very soft and crumbles very easily. Your correspondent was shown a piece weighing three ounces, which contained \$5 worth of the yellow stuff.

This piece was pulverized in a mortar and the gold actually washed out of it. It was shown, also, another piece which had become partially pulverized from carrying it in the prospector's pocket, and the pulverized portions were so rich that it appeared to be one-half gold.

Take the first named piece and compute the value of such ore per ton, and you would have a result of at least \$50,000 in gold. There is no doubt that the ore is immensely rich.

I will send the New Mexican a sample of the ore in a few days, so that all who desire to see a sample of Golden's riches, can do so by calling at the office.

This lead or vein is not wide. Mr. Johnson says it is four inches wide, all very rich, but the richest part, such as the samples shown, is two inches in width.

This find is about two miles east of Golden on government land.

Mr. Johnson, being an experienced prospector, and being almost a stranger to the camp, coming here last winter, says he will not tell just where he found this ore, until he is positive he is on unlocated ground, and that other mining claims, previously located, do not conflict with the ground on which he has made this rich discovery, and which he desires to locate and claim by reason thereof.

Where claims are located so close together, it is almost impossible to expect this ground to be entirely vacant, or that the lucky finder can get a full claim, in the part of the camp where his find is located. Half a claim is enough, and should be on some other mine's claim, one would think that the owners of the older claim should be glad to make a fair division with Mr. Johnson.

I have delayed reporting this strike, hoping that Mr. Johnson would disclose the exact location of it, but have concluded to give the facts, as they exist, and send further information later.
