

BRYAN IS IN PUEBLO

The Enthusiasm Seemingly as Great Now as it was Before the Election.

THE MINISTER SUICIDED

The United States Battleship "Texas" is Defective From Top to Bottom.

THE MARKETS ARE WEAK

DENVER, Colorado, November 25.—Mr. Bryan did not finish his speech at the chamber of commerce banquet until after 2 o'clock this morning, and it was nearly 3 o'clock before he returned to his room. He was up, however, at a few minutes past 6 and at 6:30 took a special train for Pueblo. Even at this early hour, a crowd was present at the depot to bid him farewell. He was accompanied to Pueblo by Governor-elect Alva Adams and several other prominent Coloradans.

PUEBLO, Colo., November 26.—Mr. Bryan arrived here from Denver shortly after 10 o'clock, and was greeted upon his arrival by an immense concourse of citizens. Thousands of people had come into the city during the night and early morning and added to the excitement of the town. The town was gaily decorated and business was practically suspended, to do honor to the late candidate. Mr. Bryan was met at the depot by a committee of citizens.

COLORADO SPRINGS, Colo., November 25.—A big torchlight procession has been arranged to greet Mr. Bryan when he returns from Pueblo, this evening. He will only remain there thirty minutes on his way home. A thousand people were at the depot this morning to watch the train pass here, having Mr. Bryan's suite. It did not stop, but the late candidate stepped to the platform and waved his hand as the crowd cheered him.

It Was Suicide.

SPRINGFIELD, Illinois, November 25.—Subsequent developments leave no further doubt that Rev. James Miller, whose body was found in an alley at Decatur yesterday, killed himself. The revolver with which Mr. Miller lost his life was purchased by him.

The Markets.

WALL STREET, N. Y., November 25.—Early trading at the stock exchange, this morning, was attended with weakness. Industrials, grangers and L. & N. were all pressed for sale and recorded declines of 1/4 to 3/4 per cent. Sugar and leather, preferred, scored the greatest losses.

Japan Will Inspect Things.

TOKYO, Japan, November 25.—It is announced that a Japan war-ship will be sent to the Philippine Islands, at once. A despatch received here from Manila, the capital of the Philippines, says, that the rebels have won a victory over the Spanish forces, and an attack upon Manila is feared.

At the Beginning of Peace.

JEFFERSON CITY, Mo., November 25.—Herman Walters, a teamster, committed suicide here early this morning by jumping from Capitol bluff, a distance of seventy-five feet. His neck was broken. He had just been granted a decree of divorce from his wife and was given possession of the children by the circuit court, yesterday.

A La Landville.

BERLIN, Germany, November 25.—A serious riot occurred at Lubbeck today, growing out of a strike of the hands employed in the Thiels enamel factory. The places of many of the strikers had been taken by new hands, and to-day the strikers marched to the factory in a body and attacked the new men. A number of shots were fired on both sides and several of the combatants were wounded. A number of the strikers were arrested.

The Lady Scott Trial.

LONDON, England, November 25.—The central criminal court was crowded this morning when the trial of Lady Scott, Cockerton, Kast and Aylott, for criminally libeling Earl Russell was resumed. Earl Russell resumed his place in the witness-box. He identified a letter written by Lady Scott, promising a sufficient sum of money, to give a start in life, to any person who would furnish proof that Lord Russell had been guilty of immoral acts, prior to 1894.

Severe Sentences Asked.

BARCELONA, November 25.—The attorney general who is personally conducting the prosecution of the prisoners under arrest for their connection with the throwing of a bomb in a crowded street, while a religious procession was passing, on June 7th, last, has announced that he will ask the court that twenty-eight of the prisoners be sentenced to death, and fifty-six be condemned to penal servitude for life. Great precautions will be taken against any disorder, when the sentences are published.

The "Texas" Badly Damaged.

WASHINGTON, D. C., November 25.—While the findings of the naval court which investigated the recent foundering of the battleship "Texas" has not yet returned a verdict, it is learned that without extensive repairs it is very doubtful whether the "Texas" can be again ordered to sea. It is understood that sixty-one of her compartments leaked when her engine room was flooded and that a leak sprung in any of them at sea would surely cause a total loss of the ship. Not only were all alleged "water-tight" doors found defective, but in the opinion of a member of the court, her whole bulkhead system is utterly useless.

A RAILROAD WRECK.

The Engineer and Fireman Scalded to Death in the Presence of the Passengers.

NEW BRUNSWICK, N. J., November 25.—While an extra freight was nearing this place, this morning, an axel broke and wrecked the rear end of the train. The southern express was close behind, and on another track, but running at a high rate of speed. Before it could be flagged it ran into the wrecked train, which had spread over the track. The engine, mail-car, two baggage cars and four sleepers were derailed. The passengers though considerably shaken up, escaped with a few bruises. The train crew were not so fortunate. Joseph Meegan, engineer of the express, and his fireman, H. W. Chocheater, were pinned under the fallen engine and utterly scalded to death, in full view of the passengers and trainmen, gathered about, but powerless to aid them. The baggage man was also badly hurt.

SIR HENRY IRVING

Gives a Quarter of a Century Anniversary Performance of "The Bells" To-Night.

LONDON, England, November 25.—It is a quarter of a century, to-day, since the first production of "The Bells," by Sir Henry Irving, and from the same day dates his success in the theatrical world. In commemoration of the anniversary, the friends of the world's greatest living actor joined with him in making to-day a gala occasion. This afternoon the Lyceum theater was packed to the doors for a special performance of "Cymbeline," while for the anniversary performance of "The Bells," to-night the house could have been sold out five times over, and Sir Henry has been compelled to promise a second performance to-morrow. His appearance to-night is to be preceded by a new curtain raiser, entitled "Journey's End in Lovers' Meeting," and in which Miss Ellen Terry will take the principal part.

Silver Educational Movement.

CHICAGO, Illinois, November 25.—Whether or not a national educational movement along the lines of bimetalism shall be organized, with a view of keeping alive the silver crusade of the recent campaign, will be definitely determined at a conference of representative bimetalists at the Sherman house, this evening. Among those who will take part in the deliberations are W. H. Harvey, author of "Coin," I. N. Stevens, of Denver, and General C. H. Howard, brother of General O. O. Howard, and who crossed swords with his distinguished brother on the monetary question during the recent campaign. All of those invited to the conference are favorable to the proposed national movement and a formal organization will, therefore, be effected.

"From Ifield's," of course.

It is the usual remark about an uncommonly fetching lady's hat.

TRACK AND TRAIN.

J. E. Harley is back from a southern trip.

Switchman Jones, of the Las Vegas yards, has resigned and W. A. Miller has taken his place.

Supply engine No. 228, formerly kept at the Las Vegas shops, has been taken to Raton to switch in the yards up there.

R. Horton, of the bridge and building department, who has been in the hospital here with a broken ankle, left for his home in Raton this morning to again report for duty.

One of the most interested spectators at a recent hearing of the Atchison receivership case was E. P. Ripley, president of the system. Mr. Ripley terms the appointment of a receiver for the property in Kansas an "outrage," and his opinion of the matter is concise, but to the point. He says: "It is an outrage that such proceedings could be instituted. The law was probably never passed legally, but even if it was, never intended to apply to railroads. I believe that there is a little justice left in the world, and I believe the people of Kansas are willing to accord it to the Atchison railway. We are not greatly worried over the case."

W. A. Fox, of Argentine, died recently at the Atchison railway hospital at Topeka, directly from the effects of his foot "going to sleep," last election day. Absolutely no possible explanation of the strange case can be given by the surgeons and physicians in charge of it. Nothing in medical science throws any light upon it. It is the first and only instance of the kind known to the profession, and has caused a sensation among its members. W. A. Fox, who was forty-six years old, had been an engineer on the Atchison, Topeka & Santa Fe railway for several years, running out from Argentine. He was well and favorably known there, and looked upon as a substantial citizen.

SITUATION IN CUBA

A Released British Prisoner Says Cuba is Surely Lost to Spain Forever.

EDITOR COMMITS SUICIDE

A Mob at Paducah, Ky., Insists on Hanging Jim Stone Before They Leave.

ROOSEVELT IS QUITE SICK

NEW YORK, N. Y., November 25.—William Brown, a subject of Great Britain, who was recently released from a Cuban prison, where he had spent a month, for the alleged offense of shouting "Cuba libre," and he was expelled by the order of Weyler, arrived here, to-day. Brown said the treatment by the Spanish authorities was brutal in the extreme. "Cuba, in my mind," he said, "is lost to Spain. The latter country is now on her beam end, and the storm of the little island will soon engulf her."

MADRID, Spain, November 25.—Several of the leading newspapers in Madrid are very bitter in their criticisms of the return of General Weyler to Havana, and declare him to be morally ruined. All these papers demand that General Ascaraga, the present minister of war, be sent to Cuba at once, to supersede General Weyler.

NEW YORK, N. Y., November 25.—An evening paper contains a special despatch from Jacksonville, Fla., stating that Maxco in master of the situation in Finar del Rio province and intimated that he will soon make a move that will put Weyler and Havana in peril. The city is patrolled by a large squad of soldiers, all guards being doubled. Many arrests were made last week, the government keeping the names of persons arrested secret, to avoid popular agitation.

Causes Enough, However.

ALBANY, Georgia, November 25.—Richard Cheery, editor and proprietor of the Albany Penny Press, committed suicide, to-day, by taking morphine. No cause assigned.

Roosevelt Quite Sick.

LONDON, England, November 25.—The condition of James H. Roosevelt, first secretary of the United States Embassy, who has been suffering from nervous prostration for several days, has become very serious.

They Want a Hanging Bee

PADUCAH, Ky., November 25.—A Mayfield mob, which came here last night to lynch Jim Stone, the negro under arrest for outraging Mrs. Greene, is still here. Mrs. Greene's husband is the leader of the mob and carries the rope. The mob, so far, has been unable to ascertain the whereabouts of the prisoner. Sheriff Holland says the prisoner is hidden near the city and will not be placed in jail until the mob disperses. But the mob leaders say they are not going home until they hang Stone. The governor has been asked for permission to place Stone in the penitentiary for safe-keeping.

A False Conclusion.

They don't wear night gowns in Las Vegas any more—nothing but "slumber robes" and the name has such an aristocratic flavor about it that some of the people wear the article at evening receptions. —Albuquerque Democrat.

Brother Burke, you are away off in your conclusion as to what Las Vegas men by a slumber robe. A particular one in mind now, is a silk and velvet quilt of exquisite beauty, on exhibition in a west side drug store, and the parent, fortunate enough to win it, will probably but use it to wrap a precious pink parcel of humanity in.

News from Roswell.

Charles Blanchard, just in return from an overland trip to Roswell, reports that the people of that town and vicinity are jubilant over the prospects of the Pecos Valley railway being soon extended up the Pecos, in the direction of Washburn. A telegram from J. J. Hagerman, now in New York, was bulletined at the Roswell hotel, in large letters, announcing that work would begin at an early day on the extension. This, with the inauguration of the sugar beet factory at Eddy, insures lively times in the Pecos valley this next season.

Up west of Roswell, in the mountain regions, times are also made lively by the roaming band of outlaws, who have well succeeded so far in evading the vigilance of the several posse on their tracks. Seven masked men were seen in daylight within gunshot of the store at the Black ranch. Father Migeon, the Lincoln parish priest, was interviewed by the gang near Los Palos, in the Capitan mountains and, last week, they were also seen in the neighborhood of Nogal.

There have already passed through here, recently, for Mexico, some seven or eight hundred carloads of corn, from Kansas. Mexico has developed into a permanent market for corn.
