

BEATS ST. LOUIS

ATTENDANCE AT KANSAS CITY HIGH SCHOOLS, 2,869.

20,335 IN THE WARD SCHOOLS

SUPERINTENDENT GREENWOOD SUBMITS HIS TERM REPORT.

More Pupils Attend the High Schools of This City Than Those of St. Louis—Schools Are Crowded for Room and Must Have Relief.

Superintendent Greenwood yesterday submitted his report for the term just closed to the board of education.

The total enrollment is as follows: High schools—Males, 1,062; females, 1,806; total, 2,869.

Ward schools—Males, 9,525; females, 10,406; total, 20,335.

Night schools—Males, 377; females, 83; total, 460.

This is the total enrollment in all the schools, 24,664, while the average daily attendance in the high schools is 2,236; in the ward schools, 15,772, and in the night schools, 131, and the total is 18,239.

The enrollment by schools is as follows: Attucks, 173; Benton, 471; Bryant, 747; Central, 1,654; Chase, 252; Clay, 121; Douglass, 254; Emerson, 639; Franklin, 623; Garfield, 486; Garrison, 529; Irving, 415; Humboldt, 1,156; Lincoln, 1,155; Jefferson, 825; Kearney, 344; Lathrop, 549; Lincoln, 722; Lincoln high, 367; Lincoln, 289; Longfellow, 458; Lowell, 577; Madison, 490; Manual Training, 1,017; Martin, 243; Morse, 725; Oakley, 261; Overton, 177; Park, 574; Washington, 678; Webster, 489; Whitaker, 600; Woodland, 885; Yeager, 444; Bruce, 52.

The average daily attendance by schools is as follows: Adams, 278; Attucks, 109; Benton, 364; Bryant, 506; Central, 1,442; Chase, 362; Clay, 185; Douglass, 428; Emerson, 259; Franklin, 238; Garfield, 161; Garrison, 226; Hamilton, 425; Humboldt, 925; Irving, 688; Jackson, 757; Jefferson, 881; Kearney, 243; Lincoln, 611; Lincoln high, 422; Lincoln, 482; Lincoln, 301; Longfellow, 458; Lowell, 577; Madison, 490; Manual Training, 1,017; Martin, 243; Morse, 725; Oakley, 261; Overton, 177; Park, 574; Washington, 678; Webster, 489; Whitaker, 600; Woodland, 885; Yeager, 444; Bruce, 52.

Crowded Rooms. The average daily attendance by schools is as follows: Adams, 278; Attucks, 109; Benton, 364; Bryant, 506; Central, 1,442; Chase, 362; Clay, 185; Douglass, 428; Emerson, 259; Franklin, 238; Garfield, 161; Garrison, 226; Hamilton, 425; Humboldt, 925; Irving, 688; Jackson, 757; Jefferson, 881; Kearney, 243; Lincoln, 611; Lincoln high, 422; Lincoln, 482; Lincoln, 301; Longfellow, 458; Lowell, 577; Madison, 490; Manual Training, 1,017; Martin, 243; Morse, 725; Oakley, 261; Overton, 177; Park, 574; Washington, 678; Webster, 489; Whitaker, 600; Woodland, 885; Yeager, 444; Bruce, 52.

Estimating from the daily attendance, 132 rooms had daily from forty to fifty pupils, each; twenty-two from fifty to sixty, ten rooms from sixty to seventy, two rooms from seventy to eighty and one room from eighty to 100.

The following schools average daily attendance: Douglass, Emerson, Franklin, Lathrop, Lincoln, Longfellow, Madison, Phillips, St. Louis, Washington, Whitaker, Yeager and Bruce, and above forty, Chase, Humboldt, Irving, Jefferson, Lincoln, Lowell and Woodland.

Pupils in Each Grade. The pupils enrolled in each grade attending the ward schools are classified by the principals in their reports as follows: First grade, 2,337; second grade, 2,138; third grade, 2,138; fourth grade, 2,138; fifth grade, 2,138; sixth grade, 1,910; and seventh grade, 1,210. To state it in another form, there are 4,375 little children in the first grade, more than the total enrollment of all the pupils in the other grades.

The night school experiment has proved a partial success, but the attendance is so variable and uncertain that it is a difficult matter to speak of with certainty.

The most pressing necessity for relief in rooms and appliances for teaching is in the ward schools, where nearly 90 per cent of the children are now.

Night Schools. The night school experiment has proved a partial success, but the attendance is so variable and uncertain that it is a difficult matter to speak of with certainty.

The East bottoms and at the Summer school, the schools were closed. To hold school with the teacher, janitor and a pupil or two perhaps, is a waste of money.

The high school building, and such pupils should be admitted to the high school, and the high school should be held in the Central high school building, and such pupils should be admitted to the high school.

The high school building, and such pupils should be admitted to the high school, and the high school should be held in the Central high school building, and such pupils should be admitted to the high school.

CATARH OF STOMACH.

A Pleasant, Simple, but Safe and Effective Cure for It.

Catarh of the stomach has long been considered the next thing to incurable.

The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing; headaches, fickle appetite, nervousness and a general paltry, languid feeling.

There is often a fullness in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure of this common and obstinate trouble is found in a treatment which digests before it has time to ferment, thoroughly irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harrison the safest treatment is to use after each meal a tablet, containing the most powerful of the Peppin, a Little Nux, Golden Seal and other acids. These can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being patent medicine they are not subject to the safety and assurance that healthy appetite and thorough digestion will follow their regular use.

Mr. N. J. Boeber, of 210 Dearborn st., condition resulting from catarrh is a local inflammation of the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me (for three years) for catarrh of stomach with no cure, but to-day I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot describe my after words to express my good feelings, but I have found fresh, appetible and sound rest.

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

Send for little book mailed free, on stomach troubles. Write to Stuart's Tablets Co., Marshall, Mich. The tablets can be found at all drug stores.

TAKING AN INVENTORY.

What Would Otherwise Be a Huge Task is Made Simple by Expedient Methods.

An inventory of all the books in the public library was taken yesterday.

This is done about every three or four months that the books may not be lost.

The method employed by the librarian is simple. With it an inventory of the 40,000 volumes in the library can be made in a few days, notwithstanding the interruptions to which librarians are always subject.

Long sheets of paper contain the letters representing the classes under which all books are catalogued and the number of each book in each class is printed on the sheets. The sheets are first carried to the shelves, and the numbers of all the books that are there are marked out with a black lead pencil.

The books that are out are marked out in red ink, and those in the library are marked out in yellow, and those in order in green. After all this has been done the books still unaccounted for are placed upon the list.

When the inventory is complete the new order list is placed in the library and the books are frequently come back to the library after several weeks of unaccounted absence.

In looking over the drawers in which the tickets of the books in circulation are kept, the librarian found a number of tickets, namely, that the drawer for fiction is as large as that for the remaining books in the library.

The tickets for the fiction books are as large as that for the remaining books in the library. The tickets for the fiction books are as large as that for the remaining books in the library.

Out-of-town orders filled from this list for 5 days.

CADY & OLNSTEAD

JEWELERS and FINE STATIONERS.

According to a copyrighted article in a New York paper an effort in high financial circles in India is being made to reopen the mines of that country to coin silver on a ratio of 25c to 1. America and other countries are to be consulted if they favor it.

The mines will be opened only for India but for China and Japan as well. 25c to 1 means 25 cents an ounce for silver, an advance of over 50 per cent. Silver is very low now. Why not lay in a stock of Spoons, Forks and other ware before the great advance that must follow when these mines are opened?

Cor. 11th and Walnut Streets.

Smoking Is A Bad Habit!

Being evil, unless to your home, especially when you furnace and range go in smoking. The best remedy is an easy one. If you will supply them with

IT IS SATISFACTORY

THE APPOINTMENT OF MCKENZIE PLEASURES LOCAL GRAIN MEN.

United in Declaring That Governor Stanley Made No Mistake in Naming Him for State Grain Inspector.

Local grain men are very well pleased over the appointment by Governor Stanley of A. E. McKenzie for Kansas City, Kan., as state grain inspector for Kansas.

The following are expressions of opinions on the appointment: J. W. Moore, president of the board of trade: "The appointment of Mr. McKenzie was wisely made. He is an able, capable man and is well qualified to fill the position."

H. B. Perine, of Perine Bros.: "We would rather have a man of experience than one who has the highest theoretical knowledge, but lacks the practical knowledge and experience of the business. A green man always has to learn the business after he is appointed, and has new ideas which he has to incorporate, which he thinks will help. We would prefer a man who has been in the business, and has had a long experience, and who will be unbiased and just in his decisions and will be a satisfactory man in the position."

H. B. Perine, of Perine Bros.: "We would rather have a man of experience than one who has the highest theoretical knowledge, but lacks the practical knowledge and experience of the business.
