

What Kind of Eggs

are likely to be used for glazing coffee? If you know, you would be sure to demand

Lion Coffee

which is never contaminated with any glazing of short, either eggs or glue—just pure, fresh, strong, fragrant coffee.

The sealed package insures uniform quality and freshness.

Our Exchanges.

Miss Lizzie Biles, of Lexington, is visiting Miss Allie King, on Brunswick avenue.—Marshall Republican.

Miss Anna Worthington, who has been visiting at the home of Edgar Spurgeon for several days, returned to her home in Lexington yesterday.—Sweet Springs Herald.

Talbot Simpson purchased the old school house in Aultville for \$50 and is going to move it over to the railroad track, making it an addition to his warehouse at that place.—Higginsville Jeffersonian.

About the middle of the afternoon H. G. Roebken, of Lawson, took an egg, broke the shell, placed the egg on a piece of tin in the sun, within a few minutes the egg was thoroughly cooked.—Richmond Missourian.

Work on the Colorado road in Cole and Miller counties is progressing rapidly, considering the extreme hot weather. A large number of small farmers in Miller county have abandoned their farms and with their teams have secured work with the grading contractors.—Jefferson City Republican.

Miss Elva Grinstead returned Friday from Kansas City, where she has been visiting relatives for several weeks. Miss Mary Viles left Monday for Maryville, where she visited her friend and schoolmate, Miss Eva Feurt, this week.—Noborne Jeffersonian. These young ladies were both students at Central college last session.

Harry Ordway left one hundred bushels of wheat in the sacks in his field, two miles west of town, Tuesday night and when he went to the field Wednesday morning found the grain had been stolen and fresh wagon tracks were visible, showing where the thieves had entered the field. This is a terrible outrage and the perpetrators of this crime should be caught and dealt with severely. We have not been able to ascertain whether or not Mr. Ordway has any clue as to who the thieves are, but we venture to say they will be run down sooner or later.—Marshall Republican.

The Missouri Pacific will have the river route ready for heavy work as soon as the track is completed. Forman Lippel is at work now ballasting the track laid at the junction to the first cut, and he reports that, with the material now put in, that part of the track is in fine condition, equal to any of the main line track. As fast as rails are laid the track will be ballasted and made ready for the running of heavy and fast trains. Steel laying will be commenced again this week at the first cut from the junction, where Contractor Campbell is now engaged in leveling and shaping up the grade for the track. It is expected that another mile of track will be laid by Saturday night and then track laying will be pushed to the first bridge, about three miles further.—Jefferson City Weekly Press.

William H. Jones, of Missouri City, was in Richmond last Saturday and filed with Recorder of Deeds A. B. Conrow twenty-two leases which he had secured covering between 1,000 and 1,100 acres of land belonging to parties in the vicinity of Vibbard and Elkhorn. It is said to be the intention of Mr. Jones to begin work sinking prospect holes on these lands soon with the hope of striking oil or valuable mineral deposits. For a long time past it has been well known that oil existed in various parts of Ray county, but whether or not it can be secured in paying quantities is not known.—Richmond Conservator.

Last week John Wittig and John H. Jones turned fifty-four head of cattle into a field of sugar cane, which the drought had made unfit for use, in a

molasses way, to graze. They had not been in the cane patch over ten minutes when I. L. Hemphill, an employe, noticed several of them showed signs of sickness. Before he could drive them out of the field three of them died, and only a few minutes after they had left the field seven more died, among them being a fine bull valued at \$75. Messrs. Wittig and Jones' loss is at the least \$300, and, coming at this time, is very severe. The Herald sympathizes with them.—Sweet Springs Herald.

Grow Forage this Fall.

The supply of feed can be largely increased by growing one or more forage crops which can be made to mature between now and frost, provided an average rainfall occurs from now on. Among the crops that may be sown now for this purpose, the following are recommended:

The cowpea, if sown at once on well prepared land, wheat or oat stubble that is broken, ought to make one or two tons of hay that excels clover in feeding value. This hay can be gotten off the ground in time to sow the land in wheat without another breaking, the surface being disked just ahead of the drill. Cowpeas improve the land, just as clover does, and make splendid preparation for wheat. The Whipoorwill or New Era varieties are recommended, sown at the rate of a bushel per acre, either broadcast or preferably with a wheat drill. The hay is cured and handled about the same as clover. Cowpeas stand the heat and drouth well.

Sorghum is another drouth and heat resisting crop, very productive and will mature before frost if sown now on well prepared land at the rate of about a bushel of seed per acre. The Early Amber variety is preferred for this late sowing. The hay may be partially cured in the swath, and then made into large shocks to complete the curing process, and stacked later. Unfortunately the supply of sorghum and cowpea seed is almost exhausted in our markets, owing to the large recent demand. Unless the farmer has a supply of seed on hand or knows where it can be gotten quickly it will be better to try something else, as it is getting late, especially for cowpeas.

Kaffir corn is closely related to sorghum, and may be grown and handled in essentially the same way, with almost as satisfactory results, although it is not regarded as quite so good a hay plant. The markets still have a fair supply of this seed. Millet may be used quite successfully, and will stand considerable drouth and much heat. The farmers of Missouri are too familiar with this crop to need any advice concerning the methods of growing and harvesting it. Brown dourba, a plant closely related to sorghum and kaffir corn, somewhat extensively used in the dry portions of Kansas, may be used if the seed of the others mentioned can not be gotten. It is not considered to be quite so productive and satisfactory however.

This about exhausts the range of profitable hay crops for late sowing. Crimson clover does not succeed well in this climate as a rule, and does not resist drouth.

A Texas wonder.

HALL'S GREAT DISCOVERY.

One small bottle of Hall's Great Discovery cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two month's treatment, will cure any case above mentioned. Dr. E. W. Hall, sole manufacturer, St. Louis, formerly Waco, Texas. Send for testimonials. Sold by Crenshaw & Young.

READ THIS.

Bowling Green, Mo., July 13, 1899.—To Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: We have been selling your Texas Wonder, Hall's Great Discovery, for two years and recommend it to any one suffering with any kidney trouble as being the best remedy we have ever sold.

Yours Truly,
FURNELL & DAVIS.

Jell-O, the New Dessert.

pleases all the family. Four flavors—lemon, orange, raspberry and strawberry. At your Grocers, 10 cents. Try it today.

Chattel mortgages for sale at this office 5 cents each.

Missouri Women.

The women of Missouri will occupy a prominent position at the Missouri state fair to be held at Sedalia, September 9-13. The display of textile fabrics, including home-made goods of all descriptions, knit goods of all kinds, crocheting, embroidery and domestic laces, for which nearly \$500 in cash premiums are offered, will be one of the most interesting and instructive features of the state fair.

In connection with the display of textile fragments and garments will be the grand exhibition of the works of art, including oil paintings; water colors; pastel work; the products of charcoal, crayon and lead pencil; China painting and pyrography, or burnt wood work, for displays of which the most liberal cash premiums are offered.

The pantry stores department will contain the products of the kitchen, a realm in which Missouri women acknowledge no equal and have no superior. There will be displayed bread, cakes, jellies, canned fruits, preserves, butters and jams of all kinds in a profusion never seen before. The large cash premiums offered are sure to make the display of pantry stores the finest and largest ever seen at any state fair.

The ladies will also be deeply interested in the displays of butter and cheese in the dairy department. The exhibition is certain to be a fine one as \$170 in cash premiums is offered for butter and cheese exhibits. In the annex to this department will also be shown in practical operation all of the latest improvements in labor-saving machinery for the manufacture of butter and cheese.

Moral Influences at Missouri State University.

A University, although it is a place in which much freedom of thought is exercised, is not such a terrible place as some are occasionally inclined to think. Freedom of thought and action does not necessarily lead to dissoluteness and infidelity, but rather to the opposite, as statistics show. For example, here are a few observations made upon our own State University at Columbia: To begin with more than 50 per cent of the students in attendance during the school year of 1900-1901 were members of churches, while in the United States at large, about ten per cent of the young people are members of churches.

The course of study is such as to require the use of every power of the student in order that he may accomplish it satisfactorily. The test is so severe that no student who does not discipline himself rigidly has any chance for honors or even of good standing. So only the students who lead upright and honorable lives can win in the struggle. It does not take a bright young person long to see this.

The sentiment throughout the institution is that the dishonorable student is not worthy of the respect of loyal students. In the department of athletics they soon see that the men of clean and pure lives, the fellows who discipline themselves rigidly are the ones who excel.

Chapel exercises are conducted daily by some member of the faculty, and to these any student who wishes may go. The Y. M. C. A. and Y. W. C. A. together have a membership of over 200. The Christian people of the town take great interest in the welfare of the students.

The Go By

The Sedalia newspapers have not given up the idea that the Colorado Railroad will not build into Sedalia. The Sedalia Democrat Thursday contained the following:

"A Sedalian, who was in St. Louis Monday, says he learned from those in authority that the Colorado Railroad, now being constructed, will not give Sedalia the go by.

"The company, this gentleman says, has purchased forty acres of land at Cole Camp for terminals, and will run one line from Cole Camp to either Windsor or Clinton, while another line will run to Sedalia and thence to Sibley, to connect with the Santa Fe at that point."—Jefferson City Press.

For digestive weakness, nervousness, pains in the side, flatulence, dizziness, wakefulness, headache and other annoying accompaniments of costiveness, Herbine is a prompt and unequalled remedy. Price, 50 cents. For sale by Crenshaw & Young.

M. K. & T. REDUCED RATES IN INDIAN TERRITORY.

Ever since the construction of the M. K. & T. Ry. through the Indian Territory its local passenger rate between stations in the Indian Territory has been on the basis of five cents a mile. The customary rate of passenger fares on railroads, except in sparsely settled country, is three cents a mile. The population of the Indian Territory during the past few years has grown rapidly; there has been a large increase in passenger traffic on this account, and the Katy officials recognizing the wants of the people and the justice of so doing, have voluntarily arranged to reduce the local passenger rate to a basis of three cents a mile. This reduction will take place on or about November first. There will be great rejoicing among the residents along the line of the M. K. & T.

THE TWICE-A-WEEK REPUBLIC.

Every Monday and Thursday a newspaper as good as a magazine—and better for it contains the latest by telegraph as well as interesting stories—is sent to the subscriber of the "Twice-a-Week" Republic, which is only a \$1 a year.

The man who reads the "Twice-a-Week" Republic knows all about affairs, political, domestic and foreign events; is posted about the markets and commercial matters generally.

The woman who reads the "Twice-a-Week" Republic gathers a bit of valuable information about household affairs and late fashions and finds recreation in the bright stories that come under both the headings of fact and fiction. There is gossip about new books and a dozen other topics of special interest to the wide-awake man and woman.

A GREAT NEWSPAPER.

The Sunday edition of the St. Louis Republic is a marvel of modern newspaper enterprise. The organization of its news service is world-wide, complete in every department; in fact, superior to that of any other newspaper.

The magazine section is illustrated in daintily tinted colors and splendid half-tone pictures. This section contains more high class literary matter than any of the monthly magazines. The fashions illustrated in natural colors are especially valuable to the ladies.

The colored comic section is a genuine laugh-maker. The funny cartoons are by the best artists. The humorous stories are high class, by authors of national reputation.

Sheet music, a high-class, popular song, is furnished free every Sunday in The Republic.

The price of the Sunday Republic by mail one year is \$2.00. For sale by all news dealers.

Through to Harrison.

On April 15th, the St. Louis and North Arkansas Railroad was formally opened to Harrison, Arkansas, establishing in connection with the Frisco line from Seligman direct railway communication with some of the richest lead and zinc fields yet discovered.

The territory traversed by the new line presents perhaps the most remarkable panorama of rugged mountain ranges and fertile valleys to be found on the American continent. A trip to Harrison is well worth the time so spent, either from a commercial or a sight-seeing standpoint.

A RARE CHANCE.

Having decided to close out my holdings of cows and heifers, some 60 head, I offer for sale one and all. My line comprise Shortborns, Anguses Herefords and Jersey mixed. All were selected with reference to milk strain, formerly being in creamery business. Some Twenty odd with calf at foot and balance to calve shortly. Prices ranging from \$25 to \$50 per head. Call on or address,

Low Rate Excursions all Summer via

THE BURLINGTON ROUTE

During the coming summer the Burlington Route will have in effect the very lowest excursion rates that have ever been made. The general plan of these rates, destinations, etc., is so varied that the public should ask their nearest ticket agent for details, or do so the favor to write for rates, descriptive matter, etc.

Cheap Summer Tours West—Daily Colorado, Utah and Black Hills and Home-seekers' excursions every two weeks to the whole West and Northwest.

Cheap Excursions East—Very low round trip rates to the Buffalo Exposition, the Seashore, Adirondacks, Canada, Michigan Lakes, Mackinac Island and thousand eastern resorts; fine lake and rail trips east, via Chicago, Detroit, Cleveland.

Cheap Excursions North—Every day to St. Paul, Minneapolis and Lake Superior resorts; the coolest recreation country.

Ask for the Burlington's Summer excursion rate circulars.

California Excursions personally conducted every Wednesday from St. Louis, every Thursday from Kansas City and St. Joseph.

Write us for rates and printed matter describing the proposed trip.
