

DR. PRICE'S Baking Powder

At the time the United States Government officially tested the baking powders report has shown Dr. Price's Cream Baking Powder to be of superlative baking strength, free from alum, absolutely pure and wholesome. This is gratifying, for Dr. Price's Cream Baking Powder is depended upon by millions of people to raise their daily bread.

NOTE.—These Government inquiries also developed the fact that there are many mixtures upon the market made in imitation of baking powder, but containing alum or other caustic acid, whose use in food is dangerous.

ANOTHER LOOK BACKWARD.
Judge John E. Ryland Writes Interestingly of the Past.

EDITOR INTELLIGENCE:—In an effort to recall the past history, in a very slight degree, of that once famous institution, "Old Masonic College," during its day the pride of our county and city, we read the fate of many of the bright young men that frequented the halls of that institution in the one word, "dead." Some of them died young, before the flush of youth had passed from their brows, while others lived to reach their three score years and ten; and though unknown to me, their works do follow them.
Take the members of that first class of graduates. M. M. Broadwell studied law, though he never practiced his profession; then went to New York and engaged in the business of buying and selling stocks; during the late civil war amassed a fortune that passed from his possession like the baseless fabric of a dream. Tiring of the interminable strife of the money-makers of that great city he turned his face westward and went into business again in the city at the mouth of the Kaw and a few years ago yielded to the great leverer of all human greatness and now sleeps with his fathers and his name and his fame hereabout are only known to a few.
Charley H. Grover, like his classmate, Broadwell, also studied law and practiced it for a number of years in our neighboring state of Kansas. Later in life he abandoned the law and took up the profession of teaching, at which he gained some distinction. Not long since this statement concerning him was published in a newspaper: "Died, in the city of ———, Charles H. Grover, Esq., aged — years." And who among all those who walked the streets of Lexington in the early fifties remembers the two bright, promising young men, Charles H. and A. N. Grover?
Then comes Jefferson Williams, the sociable, clever fellow and companion, known as Jeff Williams. After graduation he remained in business with his father and brother, the well known mercantile firm of "Howard Williams & Son." He afterwards went to the city of St. Joseph, where he married and engaged in the insurance business for a number of years and afterwards sought a home in the far west of our widely extended country, where he also found a grave. Outside the family of a brother and a few others, who remembers Jeff Williams?
John W. Waddell, the other member of this class of educated youths, after finishing his college life, remained in our community, where he was for a long series of years engaged in many of the active pursuits of life. He was merchant, farmer and banker and generally prospered in each and all of these businesses. He married and reared in our midst a respected and respectable family of children to inherit his fortune and to perpetuate his good name; and to them is entrusted this much desired work of keeping fresh in the minds and hearts of others the memory of their father.
The year 1851 saw this class of four stalwart young men in all the strength and pride of their young manhood, start on the journey of life, and ere the century is passed their names and their memories, too, are almost forgotten by those who had such high hopes of success in their future lives. Such is life; such may be written of the vast majority of those who began life with them and such will be written of nearly all who come after them. Only here and there a name is engraved on the tablet of time that will live forever. Emerson

YOU==Mr. Young Man!

Why aren't you buying your clothes here? Do you think that because we have served your father for years that we have grown old with him? Your father was young once, too, and knew a lot more than his father—just as you do. He had young ideas about his clothes; so had we. We got acquainted and have been friends for years. We are getting old, too, but our business grows younger and more alert. We have the full advantage of finding the wants of a young man before he knows them himself. Come, come, young man! Its you that's getting old. Others are ahead of you—getting more style and character in their clothes here than at other stores; and by the way having a dollar or more left to put into their neckties and hats. You better find out what is going on. Come and see.

H. SINAUER, The Popular Clothier.

says, "Some souls pay with what they do, while others with that which they are." Hence the truth:
"The soul that can Render an honest and a perfect man, Commands all light, all influence, all fate; Nothing to him falls early or too late. Our acts our angels are, or good or ill, Our fatal shadows that walk by us still."
May the acts of your many readers be to them only good angels. R.

Brown's in Town
The story of "Brown's in Town," which is the attraction at the New Grand Opera house Monday night, is decidedly complicated and the complications are new. They come about through the efforts of a young man to keep his marriage a secret from his father. In furtherance of his play, he and his bride go to a country villa where the father arrives later and where friends drop in, quite by accident of course, and to the utter despair of Brown and his wife. When the father arrives upon the scene he is told that his son is visiting a man of the name of Brown. This naturally compels the introduction of Mrs. Brown, as well as her husband. One of the friends, in ignorance of this marriage, is persuaded to play the part of Brown. He finds it much to his liking and proceeds to make love to the lady in earnest, a proceeding which the husband is powerless to prevent without revealing the very thing he is trying to conceal. Matters are further complicated by the fact that the pseudo Brown is supplied with two wives to suit the different emergencies and is finally accounted a Mormon by the irascible father who has caused all the trouble. Ultimately matters are straightened out by the son confessing the fact that he is married, and as the old gentleman has become very fond of Mrs. Brown he finally gives his blessing and everything ends happily.
For all fresh cuts or wounds, either on the human subject or on animals, Ballard's Snow Linctament is excellent; while for corn-busters' sprained wrists, barbed-wire cuts and sores on working horses, it cannot be too highly commended. Price, 25 and 50 cents. For sale by Crenshaw & Young. 11-2m1
