

PROVERBS

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for testimonials.

Douglas' Campaign.

Wm. L. Douglas, democrat, the three dollar shoe man, was elected governor of Massachusetts last week by a majority of 86,000, in the face of Roosevelt's majority of more than 80,000. Douglas, in a clear-cut statement explaining his victory says:

"I was elected because I made my fight upon a single, live, human issue, which reached straight into the intimate, everyday affairs of men and women—because of that issue and a generous use of publicity. Advertising has made my business pay, and I used it to the limit in arousing and directing the sentiment which I knew to be wide spread on the subject which was our chief issue—reciprocity and tariff relief.

"The central committee ran the campaign—we ran the advertising down at Brockton. From the outset my idea was to keep our fight and our issue right before the people—to keep just a little more in the public view than the Republican candidate."

A HEAVY LOAD.

To lift that load off of the stomach take Kodol Dyspepsia Cure. It digests what you eat. Sour stomach, belching, gas on stomach and all disorders of the stomach that are curable, are instantly relieved and permanently cured by the use of Kodol Dyspepsia Cure. S. P. Storrs, a druggist at 207 Main street New Britain, Conn., says: "Kodol Dyspepsia Cure is giving such universal satisfaction and is so surely becoming the positive relief and subsequent cure for this distressing ailment, I feel that I am always sure to satisfy and gratify my customers by recommending it to them. I write this to show how well the remedy is spoken of here." Kodol Dyspepsia Cure was discovered after years of scientific experiments and will positively cure all stomach troubles. 816 Wells Street, MARIONETTE, WIS., Sept. 25, 1903.

I was all run down from nervousness and overwork and had to resign my position and take a rest. I found that I was not gaining my strength and health as fast as I could wish, and as your Wine of Cardui was recommended as such a good medicine for the ills of our sex, I bought a bottle and began using it. I was satisfied with the results from the use of the first bottle, and took three more and then found I was restored to good health and strength and able to take up my work with renewed vigor. I consider it a fine tonic and excellent for worn-out, nervous condition, and am pleased to endorse it.

RUSSIAN WEDDING SERVICE

Impressive and Interesting Procedure Which Unites a Couple in Wedlock.

The marriage service of Russia is a most solemn and sacred ceremony. Meeting the bride and groom at the door of the church, the priest first asks the groom whether he will have the bride as his wife and whether he has promised any other in marriage. Receiving the proper answers, he asks similar questions of the bride and receives her replies. Then he leads them into the church, where the choir sings a psalm and an ektena and the priest says prayers of blessings upon the couple.

Rings are produced which the priest lays upon the anagion, sprinkling them with holy water and blessing them. Then, giving one ring to the groom, he says: "The servant of God, N., is betrothed to the servant of God, N., in the name of the Father, Son and Holy Ghost." Giving the other ring to the bride he says the same, merely changing the names. The bride and groom then join their right hands, while the priest binds the ends of his epitrachil (stole) over the joined hands, and the groom repeats after him: "I, N., take thee, N., for my wife, and I will give thee love, faith and honor in wedlock, and I will not leave thee until death; may God help me, in the holy undivided Trinity and with all the saints." The bride also repeats: "I, N., take thee, N., for my husband, and I will give thee love, faith, honor and obedience in wedlock, and I will not leave thee until death," etc. Then the priest, taking away his stole, looses their hands and says: "What God has joined together, let no man put asunder; and I, an unworthy servant of God, by the power given to me, join you in holy wedlock, and I declare and make known this by the power of the Holy Catholic Church; in the name of the Father and Son and Holy Ghost. Amen."

After these words the crowning takes place. The priest prays that they may live as one and may be crowned with love in one flesh. Then he puts the crown on the head of the groom, making the sign of the cross and saying: "May the servant of God be crowned, in the name of the Father and Son and Holy Ghost. Amen." He then crowns the bride, with the same words. The prokimen is then sung and the Epistle from the Ephesians and the Gospel from St. John are read, while the service closes with an ektena and the dismissal prayer.

ORIGIN OF SHAMROCK.

National Emblems and Ways in Which They Were Chosen Differ Widely.

The flower of our country is popularly supposed to be goldenrod. Some years ago when the choice of a national flower was left to the children of the public schools to decide by vote the choice fell to the wild rose. But nine people out of every ten would tell you that the goldenrod was the one decided upon, and that flower is perhaps the best suited for the purpose, for it abounds in all parts of the United States and is rarely found in any other country.

In England in the fourteenth century the national flower was the broom, or plantainista. It was not till the reign of Henry VI. that the national emblem came to be the rose. The story of Ireland's shamrock is a very pretty one. St. Patrick was one day preaching at Fara trying to explain the doctrine of the Trinity. Plucking a shamrock which was peeping up through the turf at his feet, he said: "Do you not see these three leaves on the one stalk? Such is the doctrine of the Great Three in One." From that time the shamrock was the national emblem of Ireland.

Rather Strenuous.

"Did the prisoner try to choke you?" asked the police magistrate.

"He did, your honor," replied the prosecuting witness. "He squeezed my throat until there wasn't a drop of cider left in my Adam's apple."—Chicago Daily News.

THE HOME OF VINOL

To People with Weak Lungs:— You know that for centuries Cod Liver Oil has been considered the best medicine for throat and lung troubles, but its nauseating effect upon the stomach made it impossible for many to take it. Now-a-days Vinol accomplishes greater results, for while it is a Cod Liver Oil preparation, it is entirely free from oil or grease, and therefore it is fast taking the place of old-fashioned Cod Liver Oil and Emulsions.—Respectfully,

Kinloch Paint at the World's Fair.

Caldwell & Drake, the builders of the Agricultural Palace at St. Louis, the largest building in the world, write:

"We are using 'KINLOCH PAINT' on all our work and find it entirely satisfactory."

Caldwell & Drake are also the builders of the Horticultural Building, the "Irish Village", four State buildings and other World's Fair structures, aggregating over a million dollars. They are builders of the new Arkansas and West Virginia State Capitols, the \$1,000,000 hotel at West Bader and numerous other public buildings.

Such a firm is particular about the paint it uses; their work requires a particular paint. Their specifications demand the best materials and the most workmanlike labor of skilled artisans. When they use "KINLOCH" on all their work and pronounce it "entirely satisfactory", it stamps it as thoroughly good, dependable paint, the paint you want on your own home.

"KINLOCH" is not a high priced paint, although it is a high grade one, and it wears longer than any other paint in the market and looks well all the time. Made in all the standard colors.

Our local agent will tell you why you can not afford to use any other paint. The price he will quote you will be surprisingly satisfactory.
