SUBSCRIPTION \$1.00 PER YEAR  
IN ADVANCE.

Entered at the Lexington postoffice as  
second class mail matter.

SATURDAY, SEPTEMBER 23, 1905.

E. N. HOPKINS - Editor  
I. G. NEALE - Business Manager

Secretary Taft's junketing party is  
homeward bound.

It is reported that the Car has  
called a second peace conference at  
the Hague.

Paul Morton says that the equit-  
able will make no more campaign  
contributions.

The American Royal management  
has barred all freaks and side shows  
this year. There will be no trotting  
steers and such things.

After a debate that lasted longer  
than the Portsmouth conference,  
Baron Komura's physicians have  
agreed that he has typhoid fever.

The ratification of the Treaty of  
Portsmouth will take place in  
Washington as soon as it has been  
approved by the Car and the Mikado.

The annual report of the Santa Fe  
railroad just received shows that the  
expense of repairs due to damage by  
flood amounted last year to more than  
\$2,000,000.

Champ Clark says that democratic  
prospects will look brighter after con-  
gress meets. He expects the republic-  
ans to develop bad blood upon the  
subject of tariff.

The cholera scare in Europe has  
had the effect of checking emmigra-  
tion. The ship owners are compelled  
by law to exercise great care in  
taking passengers.

F. H. Kellogg has retired from  
editorial charge of the Kansas City  
World and is succeeded by A. F.  
Booker. The paper will continue to  
be democratic in politics.

The Kansas City Journal is respon-  
sible for the story that the list of  
registration clerks appointed by the  
new election commissioners contains  
the names of democrats only.

Wednesday in Chicago the packers  
filed a plea in abatement. They are  
charged before the United States  
district court with conspiracy to  
monopolize the meat industry.

William J. Bryan, wife and two  
children started Thursday for a trip  
around the world. They will travel  
westward and expect to be gone a  
year.

The cholera epidemic in Germany  
seems to be more wide spread than  
the yellow fever epidemic in this  
country. The large cities are affected,  
but it is the rural towns that have  
suffered most.

Friends of Ex-State Treasurer  
R. P. Williams of Fayette are urging  
him to make the race for congress in  
this the Seventh district. It is  
believed that Mr. Williams will be in  
the race.

Governor Hoch has resolved to put  
the lid on in Kansas. It is against  
his judgement apparently, but he  
couldn't withstand the pressure. The  
people of Kansas just can't live with-  
out something strenuous going on.

Senator Elkins says he believes that  
a railroad rate bill will certainly pass  
at the approaching session of Con-  
gress, but that when the subject of  
tariff is reached there will be one of  
the longest and bitterest struggles of  
recent years.

Judge Alexander of Gallatin will  
probably be a candidate for congress  
in the Third district. Judge Alexan-  
der is highly regarded throughout the  
state as a jurist and if nominated and  
elected would be one of the foremost  
men in the Missouri delegation.

The single states proved their  
faith by their works last week by  
buying all the lots offered for sale at  
Fort Gibson at four times the  
government appraisement. If the  
Indian Territory is erected into a  
separate state Fort Gibson will be the  
capital.

The crusade being waged in New  
York City against the carrying of  
concealed weapons has resulted in  
marvelous reduction of the number of  
violent crimes. The police commis-  
sioners are enthusiastic on the subject  
and say that housebreaking and such  
crimes will soon be exceedingly rare.

The admission of George W. Perkins,  
vice-president of the New York Life  
Insurance Company, that his company  
contributed \$50,000 less agent's com-  
mission, to each of the last three  
republican campaign funds and the  
unconfirmed but extremely probable  
report that the other great insurance  
companies contributed like sums,  
ought to produce a moral earthquake  
in the United States. A man must  
be extremely glib to believe that  
insurance companies gave up trust  
funds voluntarily and without any  
threats or compulsion. Besides John A.  
McCall is supposed to be a democrat  
and has held office as a democrat.

The Kansas City Star has found  
another man who captured Jefferson  
Davis—one Joseph Langdon, of  
Tocoma, Washington. Langdon's  
story is a tame one, especially since  
he claims to be the last of the cap-  
tors. He might have put any  
number of frills upon the skirt  
which Mr. Davis is usually reported  
to have worn on this occasion, but  
he didn't. All he says of the matter  
in the interview is that, "we had the  
pleasure of surrounding his camp and  
taking the arch traitor of all traitors  
and guarding him to Macon."

The Patte County Court is consid-  
ering the split log drag system for  
roads of the county. The plan is to  
do away with working out road tax  
and let out sections of road to wide-  
awake farmers, who will be paid for  
the work done. The court estimates  
that under the present system the  
maintenance of roads costs from \$11  
to \$17 per mile. It is believed that  
under the split log drag system the  
roads will be better kept and will not  
cost to exceed \$5 per mile for  
maintenance.

Germany is troubled over an annoy-  
ing rebellion in Southwest Africa. The  
territory appropriated by Germany  
in the dark continent is about one  
thousand miles square, and the up-  
rising of the nomadic natives has  
proven unexpectedly hard to handle.  
Native Germans engaged in copper  
mining and stock raising are being  
ruined, and the fatherland is finding  
much trouble in waging war in a  
tropical country where physical con-  
ditions are so little understood.

State statistician A. T. Edmonds  
has sent out advance pages of his  
annual report in which he says that  
the increase of surplus products for  
the year 1904 over 1903 was more  
than \$65,000,000. The total of  
surplus products for the year he puts  
at \$244,156,896 42. The rank of the  
counties is in the following order:  
Jasper, Greene, St. Francois,  
Gasconade, Saline, Jackson, Lafayette.

At the annual meeting of the  
American Pomological Society in  
Kansas City this week the Ben Davis  
apple came in for a large share of  
oratorical denunciation. One of the  
virtues of the Ben Davis apple is its  
leathery rind and its resistance of  
mistreatment. It will continue to  
flourish as a standard winter apple  
in spite of all that wits may say  
against it.

Centralla is contemplating a sewer-  
age system to cost \$25,000. For a  
small town this must be considered a  
large sum. Yet for many times this  
sum it would be impossible for Cen-  
tralla to get a sewerage system equal  
to that of Lexington, which cost  
much less than \$25,000. There are  
some advantages in a city set upon a  
hill with a big river running by.

Dr. Geo. Bates informs the  
INTELLIGENCER that he expects to be a  
candidate for the office of county  
clerk at the next election. Dr. Bates  
is widely and favorably known  
throughout the country, is a life  
long democrat and is thoroughly com-  
petent to discharge the duties of the  
office, if his fellow citizen should see  
fit to nominate and elect him.

Intense interest is said to center in  
Ramsay's fight for control of the  
Wabash railroad. Of course his  
chances of success are practically nil  
unless he has the backing of other  
great railroad interests. It has been  
suggested that Rockefeller interests  
are behind him. If such is the case,  
Gould may expect the fight of his  
life.

Monsieur Witte says that all the  
credit for the diplomatic victory at  
Portsmouth is the Car's. The more  
he thinks about it the more he is  
anxious to shift the credit of the  
performance upon somebody else.  
Rojestvenski has not been heard from,  
but it is believed that he would be wil-  
ling to give all the glory of the  
Battle of the Straits to his imperial  
master.

J. W. Sydnor informs the  
INTELLIGENCER that he expects to be  
a candidate for the office of circuit  
clerk at the next election. Mr.  
Sydnor was deputy to the present  
incumbent, J. H. Campbell, from  
July 1899 to April 1904, when he  
resigned to accept the secretaryship  
of the Lexington Gas and Electric  
Company. Mr. Sydnor is familiar  
with the duties of the office and if  
nominated and elected will discharge  
its duties with faithfulness and  
efficiency.

The failure of the grand jury to  
bring indictments against the Jackson  
County Court has not discouraged  
Prosecuting Attorney Kimbrell. He  
is said to have prepared informations  
against Chrisman, Mercer and Orear  
and will file them as soon as Chrisman  
returns from California.

Chairman Dick of the Ohio  
republican state committee announces  
that tariff will be the issue in the  
state campaign. It ought to be  
made the issue in every national  
campaign until this root of all  
political evils is eradicated or the  
people give up the contest.

The organization of Warner-for-  
president clubs is a pathetic piece of  
sentimentalism. There are a good  
many republicans in the West who  
seem not yet to realize that the  
republican party is only the organized  
instrument of commercial interests.  
It can win on no other basis.

Not A Protectionist.  
In a speech at a county fair in  
Minnesota Wednesday J. J. Hill of  
the Northern Pacific said:

"Your main needs are two: An  
adequate market in which your pro-  
ducts may be sold at a fair price and  
an opportunity to purchase those  
things you need which the farm does  
not supply. As far as your grain is  
concerned you must sell in the  
markets of the world. The tariff will  
not help you, although your politi-  
cians may say you are protected, and  
thereby helped, but you know better.  
There is one way, however, in which  
you may be helped, and that is by  
lessening the cost of transportation."

The Hummelstown (Pa.) Sun of  
recent issue contains an extensive  
write-up of a new canning factory  
managed by J. B. Silver, formerly of  
Lexington.

The commissioner of pensions report  
that Missouri has 52,542 pensioners  
and that they receive a total of \$7, 255,  
888 each year from the government.

## Fall Millinery

"Our Millinery Department  
is open for business and  
showing smart new Autumn  
styles, ready to wear or made  
to your order.

"If you desire to know the  
indication of fashion's fore-  
cast visit our millinery room.

## Rugs, Rugs

"It will interest a good many  
people to know that we are  
now in a position to furnish  
you with room size rugs of  
all grades,

"We have this fall added a  
line of Oriental, Axminster,  
Burmah Brussels, Brusseline  
and Ingrain Art Squares in  
the staple sizes,

"Many beautiful patterns to  
select from, all priced for  
quick action.

## Stoves

"Cool, crisp nights are ap-  
proaching and a stove of the  
right sort should interest you.

"We have put in the well  
known "Garland" line of  
cook and heating stoves and  
steel ranges.

"The line is, as you know  
a dependable one, sold on  
strong unlimited guarantees  
and our prices are right.

## ORDER OF PUBLICATION,

STATE OF MISSOURI,  
County of Lafayette, ss.  
In the Circuit Court of Lafayette County,  
Missouri, December term 1905, at Lexington:  
Matina Nicholas,  
Plaintiff  
vs.  
Rudolph Nicholas,  
Defendant.

In the Circuit Court of Lafayette County,  
Missouri, at Lexington, August term first  
day, August 9th, 1905.  
Now at this day comes the plaintiff herein,  
and files her petition and affidavit, alleging,  
among other things, that the said defendant  
is a non resident of the state of Missouri;  
Whereupon the Court makes the following  
order to-wit: to the said Rudolph Nicholas,  
non resident of the state of Missouri, you  
are hereby notified that the said plaintiff has  
commenced a suit against you in this court,  
the object and general nature of which is to  
obtain a decree of divorce from you on the  
grounds of desertion for one whole year  
last past prior to the filing of this petition,  
and that unless the said Rudolph Nicholas  
be and appear at this court, at the next term  
thereof, to be begun and holden at the court  
house in the city of Lexington in said  
county, on the 4th day of December next,  
and on or before the first day  
of said term, if the term shall so long  
continue, and if not, then on or before the last day  
of said term, answer or plead to the petition  
in said cause, the same will be taken as con-  
fessed, and judgment will be rendered accord-  
ingly.

And it is further ordered that a copy here-  
of be published according to law in the Lex-  
ington Intelligencer, a newspaper published  
in said county of Lafayette for four weeks  
successively, published at least once a week,  
the last insertion to be at least fifteen days  
before the first day of the next December  
term of this court.  
A true copy. Attest-  
[SEAL] J. H. CAMPBELL, Circuit Clerk.

# DR. PRICE'S Cream Baking Powder

A PURE, WHOLESOME, RELIABLE  
CREAM OF TARTAR BAKING POWDER

Its superiority is unquestioned  
Its fame world-wide  
Its use a protection and a guarantee  
against alum food

Cream of tartar is derived from grapes. It is used in Dr.  
Price's Baking Powder in the exact form and composition in  
which it occurs in that luscious, healthful fruit. A pound of  
rich, ripe grapes contains a quantity of cream of tartar equiva-  
lent to that required to make baking powder sufficient to raise  
a dozen ordinary-sized hot tea biscuit. The healthfulness of  
Dr. Price's Cream Baking Powder is beyond question.

## Alum Baking Powders are Condemned by Physicians

Fifty-two different brands of alum and alum-phosphate baking powders were  
recently analyzed by an official chemist. In every one of these fifty-two different  
brands sulphuric acid was reported in large quantities, frequently greater than twenty-  
five per cent of the whole weight of the baking powder!

Chemical tests show that a portion of the alum from alum baking powder  
remains as such and unaltered in the bread.

Alum baking powders are extravagant. They cost but two cents a pound to  
make, yet they are sold at twenty-five cents a pound, or twenty-five ounces for  
twenty-five cents.

But, can the housewife afford, no matter at what price, to use a baking powder  
which puts alum and sulphuric acid in her food?
