#### Free To Subscribers.

The Twice-a-Week Republic, of St. Louis, Mo., is giving away a beautifully framed picture, size 5x7 1/2 inches, to every one sending \$1 for a year's subscription to their great semi-weekly paper and Farm Progress, a monthly agricultural paper published by The Republic.  
 This offer is open to both new and old subscribers. If you are taking the paper at present, send in your dollar and have your time marked up for one of these beautiful pictures without any extra cost.  
 The pictures are genuine works of art, done in fine colors. Two of them are heads of beautiful girls. One wears a black picture hat and has two roses pinned to her bodice. If this one is desired, order No. 10, "The Spring Girl," No. 11, or "The Summer Girl," wears a light brown picture hat trimmed with light green. She also wears a white and green waist, with a bunch of very pretty flowers at her breast. The remaining picture, or No. 12, is a three-quarter length picture representing "The Winter Girl," with a long coat, bonnet, and a muff.  
 The frames are made of rounded metal and are all black. To tell them from real ebony it would be necessary to take them from the wall for examination. The pictures and frames are neat and pretty enough to grace the walls of a millionaire's home. There is nothing cheap or shoddy looking about them. They cannot be duplicated in the retail stores for less than 50 cents. The best recommendation that we can give them is to say that if you are not thoroughly satisfied with your picture they will refund the money for your subscription and pay the postage for returning the picture to them.  
 If you are already a subscriber to the TWICE-A-WEEK REPUBLIC, or if you want only the agricultural monthly, Farm Progress, send a silver dime for one year's subscription to this big sixteen-page farm and home paper. The TWICE-A-WEEK REPUBLIC is the oldest and best semi-weekly family paper in the country, and Farm Progress is the fastest growing farm monthly in America. Remember that you get both these splendid publications for a year and one of these handsomely framed pictures, all for only \$1.

Result by post office or express money order, registered letter or bank draft. Do not send personal checks. Write name and address plainly. Address all orders to the St. Louis Republic, St. Louis Mo.

#### Guaranteed Stomach Remedy.

Crenshaw & Young Will Refund Money if Mi-o-na Fails to Cure. You may ask why it is that Mi-o-na stomach tablets are sold by Crenshaw & Young under guarantee to refund the money unless they cure, when no other treatment for stomach troubles is sold in this manner. This answer is simple and conclusive. Other medicines for stomach troubles merely digest the food, while Mi-o-na strengthens the whole digestive system so that it soon becomes able to care for all the food that is eaten.

If you do not use your stomach for a month, the muscles become flabby and weak and have to resort to artificial help. It is the same way with the stomach troubles. If they are not used, they become so weak that it is necessary to continue using a digestive with the food you eat. On the other hand, when you use Mi-o-na, your stomach soon grows so strong that you can give up the use of medicine. Mi-o-na costs 50c a box and does more real good than a dozen boxes of ordinary digestive tablets. The proof of this is shown in the fact that a guarantee, absolute and unqualified, is given by Crenshaw & Young with every box of Mi-o-na. For sale by Crenshaw & Young.

#### A Pittsburg Suggestion.

Inasmuch as there is a law against carrying concealed weapons, it is up to the gent's furnishing stores, while the burglar panic is on, to stock up with something neat in the way of gun and "rasnah" belts.—Pittsburg Gazette.

#### He Seldom.

Little Walter was told to write a composition containing the word "seldom." He puzzled hard over the problem for some time, but at last he found a solution, and this is what he handed up to the teacher: "My father owned some horses, but last week he seldom."

 The Kansas City Star of a few days ago makes flattering mention of a music recital given by the pupils of Miss Aone L. Trigg, formerly of this city, now of Kansas City. Miss Trigg is a daughter of Mrs. Sue Trigg and is an accomplished musician, and, it appears, a successful teacher.  
 Reid Kinkead has given to the Lexington Historical Society the seal of the old Lafayette Common Pleas Court. This court has an interesting and amusing history. In the years shortly following the war the office of Circuit Judge in this district was filled by a wagon maker of Sedalia, Chan P. Townsley, who had no knowledge of law. The people brought to bear pressure upon the

legislature and had a Court of Common Pleas established with practically co-ordinate jurisdiction. Judge William Walker, afterwards partner of Judge Richard Field, was chosen to this office. He was the only judge this court ever had. When the legislature returned to power in 1873 the office was discontinued.  
**Horse with Artificial Limb.**  
 The veterinary profession is much interested in a surgical operation which has been accomplished by Prof. Udriak, one of the staff of the veterinary school at Bucharest. Having amputated a horse's limb at the fetlock joint, after several failures he succeeded in fitting a leather boot or artificial limb that enabled the animal to walk about and take exercise.  
**Beans and Codfish.**  
 Pragmatism in its all-aroundness must consider pluralism. Monism must establish unity, otherwise it is a failure. Pluralism may easily be satisfied with a small number. Pragmatism abjures absolute monism, and also absolute pluralism. Since monism is devoted to one, then pragmatism must be classed with pluralism.—Report of Lecture in Boston Transcript.  
**Fidelity of Heart.**  
 Little faithfulnesses are not only the preparation for great ones, but the faithfulnesses are in themselves the great ones. The essential fidelity of the heart is the same whether it be exercised in the mines or in a royal treasury; the genuine faithfulness of the life is equally beautiful whether it be displayed in governing an empire or in writing an exercise.—F. W. Farrar.  
**Maps of Microscopic Size.**  
 Maps for military and general field use are produced by Dr. O. H. F. Vollbehr, of Halensee-Berlin, as microscopic transparencies, each about 1 1/2 by two inches in size. These form slides for the microphotoscope, a special instrument having a hand-mirror shaped frame, to which is attached a slide holder, with a movable lens over it. The lens slides in two directions about 70 square miles being shown in each position.  
**In Boston.**  
 "I hate," said Mrs. Backbay, "to see mothers humiliate their children by trying to keep them babies. Look at Mrs. Waldo—her little boy is five years old, and a big strapping fellow, and the silly woman hasn't put him into glasses yet!"  
**Said by the Observer.**  
 Clever women are always greatly admired, but the silly ones get married.
