An effort is being made to take advantage of large mines in the vicinity of Lexington to give this city a lead of county towns in western Missouri in the matter of inter-urban railroads. We have an opportunity of doing profitably from the start, what other towns would have to do at a loss for several years. It is easily within the means of the community to lay out an addition and to build a trolley line to the farthest mines south of town. It is not unreasonable to extend this shortly to the O. & A. It is only another step to secure its extension to Kansas City. The citizens of Lexington need only to consider that part of the work which is at present desirable and promising of profit—the road to the mines. This is the key to the situation. If we have not confidence in our resources and advantages we can not expect outsiders to have. Let us support the addition and trolley line enterprise. Future improvements will then come easier.

## Americas Majestic Sea-Line.

Never yet has Norfolk—old the port of naval rendezvous witnessed so imposing an assemblage of war craft as now lies in the harbor between Old Point Comfort and the Exposition Grounds. Though but the advance guard of the great gathering of fleets that will be here during the Exposition, the fleet is impressive, not only for its numbers and power, but by reason of the fact that it is wholly American. Sixteen first class battle-ships strung along a line extending three miles, with a secondary craft make up this stupendous array of the nation's ocean power, presenting a spectacle to stir the soul of patriotism. Other ships are daily lengthening this majestic line, and never before have Americans been privileged to witness the power of the nation in such compact concourse. This fleet constitutes the greatest assemblage of American war ships ever held. It is the great new navy on parade; the new navy with which the nation has assumed the second place among the naval powers of the earth. The fleet is manned with over five hundred officers and thirteen thousand men. Twenty abreast this splendid host of American seamen on the march would take two hours to pass a given point.

The passage through this formidable line on one of the many ferry boats that ply on Norfolk harbor, will arouse the amazed interest of the dullest, and one feels that the nation can never go wrong while such men stand sentinels at its sea gates. These are already, a grand exposition on the waters of Hampton Roads, worth alone a trip across the continent to witness.

### MAXIM GUN EXHIBIT.

One of the most important exhibits to be seen in the Marine appliances building at the Jamestown Exposition is a display of ordnance from the Vicker's Maxim Company, one of the largest manufacturers of guns and firearms in England.

Great importance is attached to the decision of this firm to participate in the ordnance exhibit at the Exposition, in that it is a recognition of the value to exhibitors to enter into the display of this line of manufacturers, at the Ter-Centennial.

The exhibit consists of one six-pound, semi-automatic, gun, with naval mounting and automatic pack gun, together with several pieces of lighter ordnance. The exhibit also include a display of saddlery and ammunition.

### How the Pendulum Was Found.

Like many of the commonest mechanical instruments in daily use, the invention of the pendulum is due entirely to chance. Galileo, when under twenty years of age, was standing one day in the metropolitan church of Pisa, while some painters were at work on the ceiling of the church.

A suspended lamp which was hanging before the altar was disturbed in some manner, and the scientist was struck with the almost perfect regularity with which it swung back and forth. The idea of measuring time by such an instrument found instant generation in his brain, and he completed the system in use to this day.

### BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists, Crenshaw and Young Price, 75c. per bottle. Take Hall's Family Pills for constipation.

### Origin of the Bayonet.

The bayonet was so named because it was invented at Bayonne, France, about 1647. It was used by the French with success at the battle of Killiecrankie in 1689. The British army adopted the bayonet in 1693.

When your food has not been properly digested the entire system is impaired in the same proportion. Your stomach needs help. Kodol For Indigestion and Dyspepsia not only digests what you eat, it tones the stomach and adds strength to the whole body. Makes rich, pure blood, Kodol conforms to the National Pure Food and Drug Law. Sold by Leroy Farmer.

## Free To Subscribers.

The Twice-a-Week Republic, of St. Louis, Mo., is giving away a beautifully framed picture, size 5x7 inches, to every one sending \$1 for a year's subscription to their great semi-weekly paper and Farm Progress, a monthly agricultural paper published by The Republic.

The offer is open to both new and old subscribers. If you are taking the paper at present, send in your dollar and have your time marked up for one of these beautiful picture without any extra cost.

The pictures are genuine works of art, done in nine colors. Two of them are heads of beautiful girls. One wears a black picture hat and has two roses pinned to her bodice. If this one is desired, order No. 10, "The Spring Girl" No. 11, or "The Summer Girl," wears a light brown picture hat, trimmed with light green. She also wears a white and green waist, with a bunch of very pretty flowers at her breast. The remaining picture, or No. 12, is a three-quarter length picture representing "The Winter Girl," with a long coat, boa about her neck and a muff.

The frames are made of rounded metal and are all black. To tell them from real ebony it would be necessary to take them from the wall for examination. The pictures and frames are neat and pretty enough to grace the walls of a millionaire's home. There is nothing cheap or shoddy looking about them. They cannot be duplicated in the retail stores for less than 50 cents. The best recommendation that we can give them is to say that if you are not thoroughly satisfied with your picture they will refund the money for your subscription and pay the postage for returning the picture to them.

If you are already a subscriber to the TWICE-A-WEEK REPUBLIC, or if you want only the agricultural monthly, Farm Progress, send a silver dime for one year's subscription to this big sixteen-page farm and home paper. The TWICE-A-WEEK REPUBLIC is the oldest and best semi-weekly family paper in the country, and Farm Progress is the fastest growing farm monthly in America. Remember that you get both these splendid publications for a year and one of these handsomely framed pictures, all for only \$1.

Remit by post office or express money order, registered letter or bank draft. Do not send personal checks. Write name and address plainly. Address all orders to the St. Louis Republic, St. Louis Mo.

### Longevity of Car Wheels.

Has anybody ever stopped to think how many miles the wheels of a railroad car travel before they wear out? Statistics gathered from various roads show that perfect car wheels often roll from three hundred thousand to four hundred and fifty thousand miles before they have to be turned down. Wheels with flaws in them run only about fifty to ninety thousand miles.

### A NARROW ESCAPE.

G. W. Cloyd, a merchant, of Plunk, Mo., had a narrow escape four years ago, when he ran a jimson bur into his thumb. He says: "The doctor wanted to amputate it but I would not consent. I bought a box of Bucklen's Arnica Salve and that cured the dangerous wound." 25c at Crenshaw and Young Druggist.

### A Southern Negro's Experiences in the North.

A Southern negro who explores the North does not find any animal that resembles the fatted calf. Here is the testimony of an Atlanta negro who, having tried the experiment, related his experience to Ray Stannard who in return records it in the May American Magazine.

"Well, I'll tell you," he said, "when I got there I wanted a shave; I walked the streets two hours visiting barber shops, and they all turned me away with some excuse. I finally had to buy a razor and shave myself! That was just a sample. I came home disgusted and decided to fight it out down here where I understand conditions."

### MY BEST FRIEND.

Alexander Benton, who lives on Rural Route 1, Fort Edward, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of incipient consumption for my son's wife. The first bottle ended the terrible cough, and this accomplished, the other symptoms left one by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equaled it. Fully guaranteed by Crenshaw and Young Druggist. 50c and \$1.00. Trial bottle free.
