

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Holcus Dicois*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator," makes for normal activity of the entire reproductive system. He continues "in Holcus we have a medication which more fully answers the above purpose than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Holcus (Unicorn root). Pain or itching in the back, with leucorrhoea; atonic (weak) condition of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagic flooding, due to a weakened condition of the reproductive system; amenorrhoea, or delayed or absent monthly periods, arising from or accompanying an abnormal condition of the digestive organs and aeric (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Holcus, and the medicinal properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions and general debility, it is useful." Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. E. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and consecutive dysmenorrhoea (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

Took Views of Wreck.

J. O. Coffin, the enterprising and omnipresent photographer, hid himself to the scene of the wreck of the steamer Tennessee Saturday and was on the spot from Saturday afternoon until Sunday afternoon, camping with the boat crews on the bank, assisting them all he could in unloading the cargo, and in the meantime getting about 20 of the most interesting views that could be secured. According to the facts that he was able to obtain from members of the crew, Mr. Coffin said that the boat struck a monster snag, submerged about 2 feet under the water and therefore invisible, nearly 23 miles on this side of Kansas City at the mouth of the Little Blue, which joins the Big Muddy at Sibley. The boat is slowly going to pieces and it will be impossible to ever put her to use again. A very small portion of the cargo will be saved despite the desperate efforts of the rousties and laborers to save it.
