

IF SICK--WHY PAY

Unless Health First Returns.

Here is what should and can be done!
Now you would not willingly pay for food that was worthless--would you?

Then why pay for medicine until that medicine first proves to you its actual worth? Positively knowing what Dr. Shoop's Restorative can do for the sick, I say to all "don't pay unless health first returns". And I back my Restorative with a signed and sealed 30 day "No Refund, No Pay" contract.

I positively pledge to the sick everywhere that "Dr. Shoop's Restorative is absolutely free if it fails". Let others do the same or else pass their prescriptions by.

If you need more strength, more vitality, more vigor or more vim, use my Restorative a few days and note the immediate improvement.

When the Stomach, Heart, or Kidneys go wrong, then test Dr. Shoop's Restorative. I do not do the stomach nor stimulate the Heart or Kidneys, for that is wrong. You may find a way that misleads in medicine. The books below will best tell you how I am succeeding.

These books also tell of a tiny hidden "inside nerve," no larger than a silk thread. They tell how that nerve, until it fails, actually gives to the Heart its power, its tone, its never-ending action or impulse.

These books will open up new and helpful ideas to those who are not well. They tell how the Stomach and Kidney "reach" their "inside" or "power" nerves. They tell how the Restorative was especially made to reach and revitalize these weak or failing inside nerves. All of these facts tell why I am able to say "It is free if it fails".

This is why I say "Take no chance on a medicine whose maker dare not back it just as I do by this remarkable offer".

So write me today for the order.

I have appointed honest and responsible druggists in nearly every community to issue my medicines to the sick.

But write me first for the order.

All druggists sell Dr. Shoop's Restorative, but all are not authorized to give the 30 day test. So drop me a line please--and thus save disappointment and delay. Tell me also which book you need.

A postal will do.

Besides, you are free to consult me as you would your home physician. My advice and the book below are yours--and without cost.

Perhaps a word or two from me will clear up some serious ailment. I have helped thousands upon thousands by my private prescription or personal advice plan. My best effort is surely worth your simple request. So write now while you have it fresh in mind, for tomorrow never comes. Dr. Shoop, Box 12, Madison, Wis.

ALL UNIFORMS ALIKE TO HER

Mistake of Lady's Maid Was Embarrassing to High Russian Military Official.

Uniformed officials are often a puzzle to American travelers. An instance of this is given in "Recollections of a Varied Career," by Gen. W. F. Draper, formerly American ambassador to Italy. Gen. and Mrs. Draper were traveling in Russia, when they had the following amusing experience in the sleeping car.

Mrs. Draper's maid, Marie, speaks German as well as French, but Russian is beyond her. After Mrs. Draper's bed was made she desired another pillow, and Marie rushed into the corridor to get one. Seeing a man in uniform—the railway porters wear uniforms—she demanded a pillow, in German.

"I have no pillows," said he. "A bolster, then," said Marie. "I have no bolster."

"Then give me a couple of towels to wrap up one of these dirty cushions."

"I have no towels, either," said the uniform. "I am a colonel in his majesty's Imperial guard."

Poor Marie nearly went into hysterics, and I was called in to explain that no offense was meant.—Youth's Companion.

"HAVANA" CIGARS.

What is a Havana cigar? George Augustus Sala, who had studied Cuban cigarmaking on the spot, once set forth that three kinds of cigars come from Havana itself. First, genuine Havanas, made of tobacco grown, cured and rolled in the island of Cuba; secondly, cigars composed inside of United States or European tobacco imported into Cuba, with an outside wrapper of Havana leaf; thirdly, cigars brought ready-made from Europe, mostly from Bremen and Switzerland, and re-exported from Havana to Europe, where they pay duty and are sold to the unwary as "Havanas."

POISON LABEL IN RUSSIA.

Since the Russian government enacted the law requiring the poison label to be attached to all containers of vodka (a strong alcoholic beverage) numerous cases of accidental poisoning have been reported from various parts of the empire. There is a large population of illiterates in Russia, and with them the poison label appearing on vodka bottles has come to stand for vodka. As a result many bottles of really poisonous mixtures are being drunk by these people under the impression that any bottle bearing the poison label contains vodka.

NO CLOSE SEASON.

A new way of expressing that spirit of ease that is found so rarely in American cities, but so abundantly in certain rural sections, is quoted from the Louisville Courier-Journal.

A visitor in Plunkville, after a few days in the town, sized it up as follows:

"Judging from the quantity killed in this settlement, I presume there must be a bounty on time round here."—Youth's Companion.

AT HOME ESPECIALLY.

Society Reporter—Instead of saying, Mr. Cashit, that your wife is being received everywhere, don't you think it will sound better to word it that your wife is going into the best society?

Society Aspirant's Husband (sighing)—Perhaps it would. She prefers the active verb itself.

THAT DEPRESSING PREMIUM.

"I'd like to take you to an expensive place to dine," said he, "but I've just paid the premium on my mother's insurance, \$28."

"I wish," she said, plaintively, "that you wouldn't offer to take me out to dinner any more when you've just paid the premium on your mother's insurance. It has happened every time."

ANNOYING.

"Why does your excellency look so annoyed?"

"News of a revolution has just reached the palace," replied the president of Colombia.

"Pooh, that will be over by noon."

"I suppose so," snapped the president, petulantly, "but there's a bull fight scheduled for this morning."

ONE EXCEPTION TO THE RULE

And Dr. Wiley's Ability to Name It Got Him Out of Tight Situation.

When the National Biscuit Bakers' association met in annual convention at Atlantic City last summer, Dr. Wiley, head of the pure food commission, came on from Washington to address one of the principal sessions. His attitude toward violators of the food laws was well known to the delegates, who, however, pressed him with questions as to the quality of goods that could legally be offered for sale to the public. The commissioner parried the thrusts of the biscuit bakers with his ready wit.

The discussion ran into stale cakes and biscuits. In the south, it was stated, it is practically impossible to keep bakery products for any length of time free from weevils, and such stuff is said to be disposed of by selling it to the negroes at cheap prices. Was this right? Dr. Wiley was in a quandary. The commission could not interfere when the goods were not shipped from one state to another and to express his own views on the matter might get him into a needless tangle. He thought rapidly; he would be diplomatic.

"Honestly now, doctor, did you ever see anything good with worms in it?" urged one of the delegates from the north.

"Yes," was the quick reply, "a fishing box."—Circle Magazine.

FOOD AND HEALTH.

"If the average mother spent half as much time learning the common-sense method of feeding her children as she does in worrying about their ailments she would be happier and her children would be in better health," an eminent physician said recently.

"Plenty of fresh air, plenty of fruit and vegetables, soup, cooked oatmeal and the like should form the staples in every child's diet. Good fresh eggs and milk are always desirable, but meat, greasily cooked foods and heavy desserts should never be allowed. In the effort to digest these things in youth the stomach is often ruined for all time. Mothers should encourage their children to talk and laugh during meal times. This consumes time and proves a valuable aid to digestion."

LIVED FAR PAST CENTURY.

Mrs. Fannie Friedman, who died the other day in New York, was said to have just passed her one hundred and twelfth birthday. She was born in Hungary, married before she was 21 and had 13 children. At the time of her death she had five children, 59 grandchildren and 18 great-grandchildren. Up to the day of her death she was active both in body and mind and took pride in the fact that she had never had a doctor in her life. Her rule for good health was: "Don't worry, take things easy, sleep ten hours a day and eat five meals."

UNKIND.

"I'm going down to the mill pond an' fish for suckers. Do you think I'll have any luck?"

"If that's any truth in that saying about 'like liking like,' you ought to."

AWAY UP.

"Are they people of any standing in the community?"

"Oh, yes. One of the girls is engaged to a titled foreigner and their only son has been in three automobile accidents involving ladies of the chorus."

NATURAL RESULTS.

"Is Mrs. De Style doing well with her society model dairy?"

"Yes, indeed. She is getting the cream of the trade."
