**The Lash of a Fiend**  
would have been about as welcome to A. Cooper of Oswego, N. Y., as a merciless lung-racking cough that defied all remedies for years. Millions know its matchless merit for stubborn cold, obstinate, hemorrhage-croup, whooping cough, or hay fever. It relieves quickly and never fails to satisfy. A trial convinces. 50 cents and \$1.00. "Wages in cotton mills, \$7 to \$8 a week; 80 per cent of operatives foreign born."  
"Wages in rubber factories, \$8 to \$9 a week; 10 per cent of employees foreign born."  
Where does the American laborer come in at in Rhode Island? Princely (?) salary paid, and largely to "foreign born pauper labor," too. The bold, naked truth about a high protective tariff is that it protects nobody but the millionaire manufacturer and trust magnates. All this talk about its keeping the American laborer from coming into competition with European pauper labor is a sham, a deceit, a delusion. Almost every day in the year a coach load of "daggers" crosses the Mississippi into Missouri. Who sent for them? Corporation. Who is paying their way over here? Corporation. What do the corporations want with them? To take the places of American laborers at one-half the salary. And yet these same corporations, the beneficiaries of the high tariff laws, prate about protecting the American laborer! Don't let any Republican, with his feet under the pie counter, make that argument to you and get away without hearing from Rhode Island.

**THE ROBBER TARIFF AND EUROPEAN PAUPER LABOR.**

When a Republican tells you that the robber tariff protects the American laborer from competition with European pauper labor, call him on the spot. Take him to Rhode Island, the home of Senator Aldrich, the high priest of protection. Show him by the 22nd annual report of the Rhode Island bureau of industrial statistics these facts:  
"Wages of operatives in woolen and worsted mills, \$7 to \$9 a week; 80 per cent of operatives foreign born."  
"Wages in silk mills, \$7 to \$8 a week; 93 per cent of employees foreign born."  
"Wages in cotton mills, \$7 to \$8 a week; 80 per cent of operatives foreign born."  
"Wages in rubber factories, \$8 to \$9 a week; 10 per cent of employees foreign born."
