AFTER RAILROAD THIEVES

U. S. Courts to Punish Those Who Steal From Cars.

Washington, D. C., March 31.—One of the measures passed at this session of Congress makes it a felony to break the seal of a railroad car containing interstate or foreign shipments of freight, express or baggage, or to enter such a car with intent to steal, or to steal, conceal or by fraud or deception obtain from any railroad car, station-house, depot or platform any goods or chattels which are part of an interstate or foreign shipment of freight, express or baggage. Breaking into or stealing any part of the contents of a piece of baggage also comes under the provisions of the act, which applies with equal force to any person who shall buy, receive or have in his possession any freight, express, baggage or other goods or chattels so stolen knowing the same to be stolen. The punishment for any of these offenses is a fine up to five thousand dollars or imprisonment up to ten years, or both, and prosecutions may be instituted in any district into which the goods or chattels may have been removed or into which they may have been brought.

The making of these acts federal offenses, together with the severity of the punishment provided, is expected to prevent much crime of this character, as all offenders have a wholesome fear of United States courts and the promptness and certainty with which they meet out punishment.

Children Cry FOR FLETCHER'S CASTORIA

Mr. and Mrs. E. M. Taubman went to Fulton Wednesday for a few days' visit.

Chas. Rex went to Kansas City Wednesday to spend the day on business.

A lot for sale in Southside Addition. Apply of **HENRY SINAUER.**

To Extract a Splinter.

None of the small accidents to which everyone is liable is more annoying than to have a splinter of wood stuck into the hand. Moreover, it is very painful if not promptly removed. If the wood of the splinter is soft, its removal is not easy, if attempted with a needle or other sharp instrument.

Steam may, however, be employed without inconvenience or pain and is very effective. A wide mouthed bottle, such as a milk bottle, should be filled nearly full of water as hot as the glass will stand and the injured part placed over the mouth of the bottle, pressing down slightly and preventing any steam from escaping. This will cause the flesh to be drawn down, and in a minute or so the steam will extract the splinter, at the same time relieving all inflammation. —Ex.

RECORD OF THE PAST

No Stronger Evidence Can Be Had in Lexington.

Look well to their record. What they have done many times in years gone by is the best guarantee of future results. Anyone with a bad back; any reader suffering from urinary troubles, from kidney ills, should find comforting words in the following statement.

Henry H. Moreland, retired farmer, Broadway St., Plattsburg, Mo., says: "For several years I had lumbago. My back got so lame that I could hardly get out of bed in the morning. My kidneys were too free in action and give me great annoyance. Finally I used Doan's Kidney Pills and the lameness and pain in my back was removed. The kidney action was also regulated. Another of my family has also used Doan's Kidney Pills for kidney trouble and backache and they have done her a world of good."

PERMANENT BENEFIT.

Mr. Moreland gave the above statement in December, 1908, and when interviewed on October 12, 1912, he said: "You may continue using my endorsement of Doan's Kidney Pills. The benefit they brought in our family has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

For Sale.

Use P. P. P. Mixed Feed for your chickens. Telephone 179.

SHOWS POWER OF LIQUID AIR

Remarkable Demonstration Made by Scientist in a Lecture Before Great Britain's Royal Institute.

A frozen soap bubble, broken in two and floating like an iridescent, transparent eggshell on the surface of a vessel of liquid air, was one of the marvels exhibited by Professor Dewar in a lecture before the Royal Institute of Great Britain.

The lecture was upon the subject of atmosphere and the curious effects of intense cold, the liquid air and soap bubble being adjuncts introduced to facilitate some explanations.

A few spoonfuls of liquid air were poured into a vessel, and the intense cold caused by evaporation immediately brought on a miniature snow-storm in the atmosphere directly above the vessel. A soap bubble was then placed into the freezing stratum. Almost instantly there was a change in the color of the transparent globe, the bubble becoming much darker; the movements of the rainbow film grew slower; it contracted somewhat in size, and a little later it froze.

A slight but dextrous movement of the rod upon which the bubble was suspended broke the latter into two pieces, which fell upon the liquid air and there floated for an hour, gradually accumulating a tiny snowdrift from the almost imperceptible precipitation constantly going on in the freezing atmosphere above.

THE REASON

Miss Asked—Why do you poets always speak of the moon as silver? Mr. Scribber—It's because of the quarters and halves, I suppose.

RED HAIR AND IRON.

Conquest and iron go together. And red hair is caused by a superabundance of iron in the blood. The color of hair is due to a pigment called melanin, which is secreted in the roots of the hairs. Absence of this coloring matter makes white hair. Melanin is formed by oxidation. A variety of organic compounds may undergo oxidation into melanin pigments ranging in intensity from yellow to black; the greater the oxidation the darker the product. And iron, when oxidized, inside the body as well as out of it, produces red. This explains the freckles that so often mar a red-haired woman's beauty.

DOGS BEFRIEND RUNAWAY FOX.

Residents of the village of Queens, N. Y., had a fox chase when the animal escaped from the home of John C. Cole, a Brooklyn city marshal, who captured the animal in last April.

The fox was kept chained in the yard at the rear of the home, where he made friends with two dogs and several children. By slipping out of his collar the fox escaped to a chicken coop, causing a commotion.

Mr. Cole started out with his two dogs to run down the fox, but the animals refused to take up the scent of their bushy tailed friend. He was joined by neighbors, and after a long chase the fox was cornered and shot.

INGRATITUDE.

"I hate to hear a man talk about human ingratitude," said Mr. Chugins.

"Still, it does seem hard to find friends unappreciative."

"Of course. But if a man can waste years of care and affection and income on an utterly irresponsible automobile, he ought to be willing to do the same for a human being."

AT LEAST A PENNY MORE.

"The papers say that Chicago women have to be guarded on their way home from church."

"I would think they would have more money with them on their way to church."

GET THESE Money-making Secrets WITH THE Farm Journal

FARM JOURNAL ("cream, not skim milk") is the great little paper published for 36 years in Philadelphia by Wilmer Atkinson. It is taken and read by more families than any other farm paper in the WORLD. Its four million readers (known as "Our Folks") are the most intelligent and prosperous country people that grow, and they always say the Farm Journal helped to make them so. Their potatoes are larger, their milk tests higher, their hogs weigh more, their fruit brings higher prices, because they read the Farm Journal.

Do you know Peter Tumbledown, the old fellow who won't take the Farm Journal? By showing how NOT to run a farm, Peter makes many prosperous. Nobody can go on reading the Farm Journal and being a Tumbledown too. Many have tried, but all have to quit one or the other.

The Farm Journal is bright, brief, "boiled down," practical, full of gumption, cheer and sunshine. It is strong on housekeeping and home-making, a favorite with busy women, full of life and fun for boys and girls. It sparkles with wit, and a happy, sunny spirit. Practical as a plow, readable as a novel. Clean and pure, not a line of fraudulent or nasty advertising. All its advertisers are guaranteed trustworthy.

The Farm Journal gives more for the money and puts it in fewer words than any other farm paper. 32 to 80 pages monthly, illustrated. FIVE years (60 issues) for \$1.00 only. Less than 2 cents a month. No one-year, two-year or three-year subscriptions taken at any price.

The Farm Journal Booklets

have sold by hundreds of thousands, and have made a sensation by revealing the **SECRETS OF MONEY-MAKING** in home industry. People all over the country are making money by their methods.

POULTRY SECRETS is a collection of discoveries and methods of successful poultrymen. It gives Felch's famous mating chart, the Curtis method of getting one-half more pullets than cockerels, Boyer's method of insuring fertility, and priceless secrets of breeding, feeding, how to produce winter eggs, etc.

HORSE SECRETS exposes all the methods of "hishopping," "plugging" cocaine and gasoline doping, and other tricks of "gyps" and swindlers, and enables any one to tell an unsound horse. Gives many valuable training secrets.

CORN SECRETS, the great NEW hand-book of Prof. Holden, the "Corn King," shows how to get ten to twenty bushels more per acre of corn, rich in protein and the best stock-feeding elements. Pictures make every process plain.

EGG SECRETS tells how a family of six can make hens turn its table scraps into a daily supply of fresh eggs. If you have a backyard, get this booklet, learn how to use up every scrap of the kitchen waste, and live better at less cost.

THE "BUTTER BOOK" tells how seven cows were made to produce half a ton of butter each year. (100 pounds is the average). An eye-opener. Get it, weed out your poor cows, and turn the good ones into record-breakers.

STRAWBERRY SECRETS is a revelation of the discoveries and methods of L. J. Farmer, the famous expert, in growing luscious fall strawberries almost until snow flies. How and when to plant, how to fertilize, how to remove the blossoms, how to get three crops in two years, etc.

GARDEN GOLD shows how to make your backyard supply fresh vegetables and fruit, how to cut down your grocery bills, keep a better table, and get cash for your surplus. How to plant, cultivate, harvest and market.

DUCK DOLLARS tells how the great Weber duck-farm near Boston makes every year 50 cents each on 40,000 ducklings. Tells why ducks pay them better than chickens, and just HOW they do everything.

TURKEY SECRETS discloses fully the methods of Horace Vose, the famous Rhode Island "turkey-man," who supplies the White House Thanksgiving turkeys. It tells how to mate, set eggs, to hatch, to feed and care for the young, to prevent sickness, to fatten, and how to make a turkey-ranch PAY.

THE MILLION EGG-FARM gives the methods by which J. M. Foster made over \$18,000 a year, mainly from eggs. All chicken-raisers should learn about the "Ramosca Unit," and how Foster FEEDS hens to produce such quantities of eggs, especially in winter.

DRESSMAKING SELF-TAUGHT shows how any intelligent woman can design and make her own clothes, in the height of fashion. The author has done it since she was a girl. She now has a successful dressmaking establishment and a school of dressmaking. Illustrated with diagrams.

SHALL I FARM? is a clear, impartial statement of both advantages and drawbacks of farming, to help those who have to decide this important question. It warns you of dangers, swindles, and mistakes, tells how to start, equipment needed, its cost, chances of success, how to get government aid, etc.

These booklets are 6 x 9 inches, and profusely illustrated.

Farm Journal FOUR full years . . . both for \$1.00

The booklets are NOT sold separately—only with Farm Journal.

Be sure to say WHICH booklet you want.
