

PAINT
SOME paint manufacturers play fast and loose with the word guarantee. The ordinary paint guarantee is not a guarantee of wear or purity or anything else, except something nice to hear.

The best guarantee we know about in paint is to have the formula plainly printed on each can. This protects you against cheap adulterations, made to sell instead of to wear.

For 77 years MASURY Paints have held their own in all climates and conditions. The formula is on every can for your inspection and protection. No fish oil or cheap pigment in MASURY Paints. Nothing but the best and purest pigment and linseed oil.

MASURY Paints are guaranteed to be absolutely pure and exactly according to the plainly printed statement of contents on the label. This protects you.

We recommend and guarantee MASURY paints to be pure and honest and right.

WHEN SEEKING A NEW HOME

Advisable Always to Ascertain the "Health History" of One's Prospective Abode.

This being moving time with a good many families, the following good advice is taken from the better babies' department of the Woman's Home Companion:

"Guard your family from contagious disease germs in the new house. It has been proved that thousands of tuberculosis and scarlet fever cases annually are the result of moving into houses which have not been disinfected.

"Secure the 'health history' of the house you expect to buy or rent. It will be supplied by your board of health, your health officer or any physician who practices in your town. If it has housed a tuberculosis patient, don't take that house; find another.

"No matter what the 'health history' of the house, have the plumbing examined, the drains flushed and the entire house disinfected.

"If the walls are to be repapered, have the old paper removed.

"Do not move into any house where the cellar has been flooded and is moldy.

"In towns where there is neither city water nor sewerage system make sure that the well and the cesspool are widely separated."

FATAL KNOCK

"Say, we've got to do something right away to save our city."
"What's threatening it?"
"Why, the story's got around that we don't support our ball club."

WINDOW CLEANER.

A reader of the Christian Science Monitor says she has found that a bag filled with powdered pumice stone is an excellent window cleaner. She makes the bag of unbleached cotton cloth of a soft quality, not too firm. When finished, the bag is six inches wide and twelve inches long. Into this she puts about one-eighth of a pound of the pumice stone. To prevent soiling this bag, it is slipped into a cheesecloth case that can be removed and washed. No water is used on the window, but it is rubbed first with a piece of tissue paper, then polished with the bag.

A FLOURISHING BUSINESS.

"This must be a prosperous community. Every farmer hereabouts seems to own an automobile."
"Yes. There are some wealthy farmers in this part of the country, but our richest man is not a farmer."
"No? what does he do?"
"He owns a garage and automobile repair shop."

IMPROVING OPPORTUNITY.

Henn—Did you have a breach of the peace at home?
Peck—Yes, and I crawled out the first opening.—Judge.

A MODERN TREND.

"Then she doesn't think that two can live as cheaply as one."
"No; her idea is that two ought to live as expensively as five or six."

DIETING.

"What's the trouble, colonel? You look kinda peaked, huh?"
"Yes, huh; mah doctor has put me on a food diet, huh."—Judge.

UNPARLIAMENTARY.

Mrs. Tiff—You say your husband is unparliamentary?
Mrs. Huff—Yes; he's always out of order.—Judge.

DEFINED.

William—Pop, what's a paradox?
Father—A paradox, my son, is a woman who wears silk stockings and tries to keep it a secret.—Puck.

PERSONALS

James Kinkead spent Sunday in Kansas City.

Lee Rice of Kansas City spent Sunday here with his parents, Mr. and Mrs. J. L. Rice.

Miss Ella Toetman left Sunday morning for a few weeks visit in Battle Creek, Michigan.

F. B. Claybrook of Higginsville spent Sunday here with friends.

Miss Martha McFadin returned Sunday evening from a visit in Kansas City.

Miss Verna Clark of Lexington College spent Sunday in Kansas City.

Miss Sarah Stewart and Mrs. Warren Davis of Kansas City spent Sunday here with Mrs. T. B. Grimes.

Miss Mary Wallace returned Sunday evening from a visit in Kansas City.

John Sturgis went to Kansas City Monday morning to spend the day.

Cyrus Campbell of Kansas City spent Sunday here with home-folks.

J. P. Hall and sister, Mrs. J. J. Greer spent Sunday in Waterloo. They were called there by the serious illness of their sister, Mrs. Lucy Dennis.

Children Cry FOR FLETCHER'S CASTORIA

Miss Nadine Keith went to Springfield, Mo., Saturday evening for a visit.

Mrs. J. P. Chinn and daughter, Miss Pinkie, went to Freeman, Mo., Monday for a visit with Mrs. George Colburn.

Why not give home a trial? Why not build home industry? Why not give the home tailor a chance?

We have pleased others, why not you?

What To Do For Scours in Calves.

A farmer in Southern Missouri recently wrote to the College of Agriculture saying, "I am having trouble with my calves. I am raising them by hand. They scour all the time and I am afraid I am going to lose some of them. What can I do for scours?"

J. G. Watson, Extension Assistant Professor of Dairy Husbandry made the following reply:

"This disease is the result of a deranged digestive system. Keep animals only in warm, clean, well ventilated pens. Feed calves regularly, giving the milk in clean pails. Always remove the foam from the separated milk. Grain rations should be fed dry and immediately after the milk. This will prevent ear sucking, a custom among calves which often results in bloat and scours, caused by taking air into the stomach.

The following remedies may be used. Eggs alone or mixed with flour; or a teaspoonful to a tablespoonful of dried blood to a feed of milk; or one-half ounce of formalin in 15 1/2 ounces of water as a stock solution and feeding a teaspoonful of the solution to each pint of milk fed. A mixture of equal parts salol and bismuth subnitrate may be given in connection with and preceding the formalin treatment by placing one-fourth of a teaspoonful of this powder well back on the calf's tongue previous to feeding the milk containing the formalin. Complete directions for raising calves on skim milk are given in Missouri Agricultural Experiment Station Circular No. 47 which I am sending to you.

The Ox-Blood Royal Red Strain of S. C. R. I. Reds and the Golden Buff Orpington eggs. \$1.00 setting—none better. Come and see for yourself. Fine blooming plants and cut flowers. Design work a speciality.

Eggleston's Green House.
