**1916 Class Donation Used On Steps at Main Entrance.**

The 1916 Class gift to the Academy has been used in the construction of the new cement steps at the main entrance to the barracks. Two marble slabs which have "Class 1916" carved in them are located in each buttress. As long as the Academy stands this class will be remembered by this monument and the members are to be congratulated on being the first class to erect such a monument to their memory.

The spirit which inspired this class to make this gift to the Academy is the kind of spirit which builds strong schools. For after all is it not the spirit and personel of the student body and the Alumni which makes a school rather than anything else?

**Trading Stamps Discontinued.**
