**Pay Before Stopping Paper**

The right of a publisher to collect for newspapers taken from the post office has been upheld by the circuit court in the suit brought by H. F. Staple, publisher of the Atchison County Mail against Charles Traub. When a bill was sent Traub for sixteen years subscription to the Mail he refused to pay it, asserting that he refused to take the paper from the post office and mail box a number of times. The plaintiff proved by postmasters and others that Traub did take the paper during all of the sixteen years.

It was shown that even if a subscriber does occasionally order a newspaper discontinued or refuse to accept it, he cannot get out of paying for what he owes the paper, and must pay the arrearage before stopping the paper.

The jury was out only a short time and brought in a verdict for the entire account—sixteen years of subscription at \$1.50 a year, or \$24. The costs in the justice's court amounted to about \$100 besides the attorney fees.

A similar case has been decided by the court of appeals, where it was held that anyone taking a newspaper must pay for it as long as he takes it from the post office.

**CAN GREEN APPLE SAUCE FOR WINTER**

Do you ever hanker in the winter for the nice fresh green apple sauce which we connect with summer days? And doesn't the thought of green apple pie fairly make your mouth water? Then just think of the green apples that are allowed to go to waste in the summer! Miss Louise Stanley of the home economics department of Missouri University tells how to save this waste:

If it is "apple sass" that you want, make it just as if you were going to serve it immediately as you probably shall some of it, but any that is left over put away in a jar and sterilize for twenty minutes; you will be glad that you did. It will fill an empty corner in many a meal and furnish a flavor that all will appreciate.

The apples for pie are easier to put up. The apples which fall off green are usually specked. Peel them, remove the cores and slice into a jar instead of into a pie. Add one-fourth cup of sugar to each quart, or leave out the sugar entirely until the pie is to be made. Fill the jars as full as possible, adjust the covers loosely and sterilize for twenty minutes. The fruit will probably shrink during this process, so open the cans and use the contents of some to fill up the others. Close, adjust the rubbers and sterilize again for ten minutes. Seal while boiling hot.

Remember now, after the windy nights, to go out and clear up the apples and save at least some of them for a dish of sauce or a green apple pie in the winter time when the fresh flavor will add zest to the diet.

French and British Make Wide Breach in the Fortified German Lines.

**TAKE 10 VILLAGES FIRST DAY**

First Objectives Captured Without Serious Loss to Attacking Forces—Penetrated Two Miles.

Washington, August 1.—The great assault of the entente allies for which the big guns have been preparing for three weeks has begun in Flanders along a front of about twenty miles, from Dixmude to south of Ypres around Warneton. Starting with the first peep of day the attack, carried out jointly by French and British troops—the Frenchmen holding the line north of Boesinghe and the British between that town and Warneton—gained all that the entente plans had sought. The Frenchmen were holding two lines of captured German trenches and Field Marshal Haig's men three lines, in addition to ten or more towns and villages and more than 3,500 prisoners.

Notwithstanding that the Teutons had massed almost countless numbers of guns and numerous fresh divisions to hold back the foreseen onslaught, the British and French carried out their operations with dash and determination. Indeed, at some points, so determined were the attacking forces that frequently they passed the assigned objectives and pressed on into territory that had not been figured on for attainment. The casualties of the allies were relatively slight while the Germans suffered heavily.

Although the latest reports are that the Germans are launching a heavy counter-attack against the allied line at the point where the British and French forces meet, statements from the front say that the morale of the allies is splendid while that of the Germans is far below their normal.

A majority of the positions taken by the allies had been in the possession of the Teutons since they invaded Belgium. The French attack, which resulted in the capture of Steenstrate, was pushed on beyond that town and penetrated the German lines to a depth of nearly two and a half miles. The British placed their deepest wedge into the line to a depth of two miles.

Again the French troops operating along the Aisne front have been enabled to put down strong attacks by the army of the German crown prince at Hurtebise and Cerny and to assume the offensive themselves and advance their line along the entire front.

**Russians Turn on Teutons.**

Washington, July 31.—Official dispatches received here today indicate that a turn in the tide of retreat by the Russians in East Galicia is beginning. On several sectors the loyal troops have halted and now are facing the Austro-Germans, offering resistance as best they can with their badly depleted forces.

Although the stands they have made have as yet been unsuccessful to any great extent they serve to show that the spirit of loyalty is still alive in many of the men of General Korniloff's contingents and that it is not their purpose to surrender further ground without a contest.

**Numbers Overwhelm Russ.**

One of the main attempts of the Russians to hold back the enemy has been on the heights east of the River Zbrocz which flows along the border between Galicia and Russia, but they have been compelled by overwhelming numbers to retire before the Austro-Germans, who crossed the stream.

The Teutons also have crossed the Gallician frontier and now are invading Bukowina by way of the Suchawa valley, their immediate objective being the town of Seletyn, while the force that recently was successful in its operations against the Russians in the region of Kiribaba has reached the territory lying to the east of the upper Moldavia valley.

**German Spies Shot.**

Notwithstanding the activity of German spies, who are trying to create disaffection in the Rumanian army, the Rumanians and Russians fighting near the northwestern border of Rumania continue to press forward in the Casin and Putna valleys, having captured six additional villages and added materially to the number of men prisoner and guns captured.

Gen. Crowder Warns Boards That Marriage Alone is Not Exemption Ground.

**DEPENDENCY MUST BE PROVED**

War Department Officials Expect Mobilization of First Increment of National Army by September 1.

Washington, August 1.—Hasty marriages since July 20, the date of the army draft drawing, in an effort to escape conscription through the claim of a dependent wife, will not be considered ground for discharge unless the wife is actually dependent on the husband's daily labor.

Prompted by reports from many cities of marriage license bureaus besieged by men included in the first draft call, Provost Marshal General Crowder today ruled that "marriage is not of itself a valid ground for making claim for discharge."

Cases of Dependency. Dependency is a matter of fact, not a law, General Crowder pointed out. "A man whose wife is mainly dependent on his daily labor for support," he said, "may claim exemption on that ground. Only the exemption boards can determine this fact. Where dependency is claimed and circumstances show a marriage hastily consummated since July 20 by a man whose number is high on the available list, the actual fact of dependency must be closely scrutinized."

Moreover, General Crowder declared, women who marry men merely to aid them to be slackers are liable to prosecution under the draft act. In his ruling, General Crowder adhered strictly to President Wilson's draft regulations, which draw no distinction between a dependent wife acquired before or after the drawing. Secretary Baker, however, advocated refusing exemption to any man married after the drawing, saying the draft should be considered a prior claim, but this course will not be followed.

Mobilization September 1. Fears of some officials that delay in obtaining materials and sufficient labor for national army cantonnements would postpone the mobilization long past September 1, were dissipated today by an announcement by Secretary Baker, that 78 per cent of the cantonnement materials are now on the ground, and that reports indicate everything will be in readiness, or nearly so, in another month. No definite date for mobilization has been fixed, but Secretary Baker has indicated that every effort will be made to effect it about September 1.

**I. W. W. THREATENS A STRIKE**

Return of Deported Members in Arizona Demanded of President Wilson by Their Leader.

Chicago August 1.—Miners, harvest hands and lumbermen of the Middle West threaten to go on a sympathetic strike unless the deported I. W. W.s are returned to their homes in the Warren District of Arizona.

A telegram voicing the intention of a walkout of more than a quarter of a million men was sent from Chicago to President Wilson late yesterday by W. D. Haywood, head of the Industrial Workers of the World.

The message to President Wilson said that miners in Michigan had begun a general strike; that Minnesota miners would follow and that harvest hands in North and South Dakota would fall into line unless the men deported from their homes were returned.
