Mrs. Burns' Letter.

Here is a letter that is certain to prove of interest to people in this vicinity, as cases of this sort occur in almost every neighborhood, and people should know what to do in like circumstances:

Savannah, Mo., Oct. 12, 1918. "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint some three or four years ago and a few doses of this remedy cured me. I have recommended Chamberlain's Colic and Diarrhoea Remedy to dozens of people since I first used Chamberlain.

Miss Katherine Connell, who has been the guest of Mr. and Mrs. M. C. McFadin for the past week, returned Sunday evening to her home in Kansas City. Miss Marice Barron returned Sunday evening from a week's visit with her sister, Mrs. Logsdon, at Blackburn.

The Joy of Living.

To enjoy life we must have good health. No one can reasonably hope to get much real pleasure out of life when his bowels are clogged a good share of the time and the poisons that should be expelled are absorbed into the system, producing headaches and indigestion. A few doses of Chamberlain's Tablets will move the bowels, strengthen the digestion and give you a chance to realize the real joy of living. Try it.

Mr. and Mrs. Z. W. Wright and Miss Hazel Dierking went to St. Joseph Sunday morning for a few days' visit.

Mrs. W. B. Hamlett went to Kansas City Sunday morning for a visit.

Mrs. Laura Mitchell, who has been spending her vacation with homefolks in this city, returned to Kansas City Sunday evening.

Lame Shoulder.

This ailment is usually caused by rheumatism of the muscles. All that is needed is absolute rest and a few applications of Chamberlain's Liniment. Try it.

Mrs. L. E. Mahan and two children went to Kansas City Sunday evening for a visit with Mr. Mahan's mother, Mrs. Thomas Mahan.

Chamberlain's Tablets.

These tablets are intended especially for stomach troubles, biliousness and constipation. If you have any troubles of this sort, give them a trial and realize for yourself what a first class medicine will do for you. They only cost a quarter.

TO USE FOOD CARDS AS A LAST RESORT

VOLUNTARY CONSERVATION WILL BE FOLLOWED AS LONG AS POSSIBLE, SAYS OFFICIAL.

HOOVER IS AGAINST FORCE

Only When Other Methods Fail Will Tickets Be Used in This Country.

The question frequently has been asked of the Missouri division of the Food Administration why sugar cards and bread cards have never been used in this country. In a talk to the county food administrators of Missouri in Columbia recently, J. W. Hollowell, an official of the United States Food Administration, declared that when Herbert Hoover was appointed food administrator for this country he set his heart on having a voluntary system of food conservation. He believed in the American people, and was confident they would do what was necessary in war times without having the "big stick" used.

"Mr. Hoover did not want to use force," said Mr. Hollowell. "He knew conditions in Germany, where a food dictator and not a food administrator had been appointed. One worked through coercion; the other through co-operation. An autocratic system of bread cards and sugar cards, Mr. Hoover believed, would take from the American people a splendid opportunity to build up their character, and opportunity of knowing what should be done at home, in view of the situation abroad, to help win the war. And Mr. Hoover believed the people of this country deserved to have the opportunity to try a system of voluntary conservation."

A system of card rationing, Mr. Hollowell declared, would cost \$50,000,000 a year and would require the services of 100,000 persons. Instead of this \$50,000,000, which would have been required for a card system, the voluntary system has cost \$2,000,000.

Mr. Hoover knew, too, that the card rationing system was not successful in Germany, Mr. Hollowell said. The rich get all the food they want, while the poor can obtain only what their cards allow them. The large hotels in Berlin and other German cities are selling choice articles of food at prices which only the wealthiest can pay. Hams can be obtained at \$70 apiece and butter for \$100 a pound. The poor are becoming resentful at this state of affairs and it is something Germany will have to reckon with after the war.

The voluntary system will be followed in this country as long as possible," said Mr. Hollowell. "Where it fails another system will be tried. But until we see that the voluntary system is going to fail, that conservation will have to be forced by a card system, such a system will not be used."

"The way in which the Allies were fed from our last year's wheat crop is one of the most remarkable things the American people have accomplished through voluntary conservation. Our last year's crop was approximately 650 million bushels. This would have allowed a normal export of only 20 million bushels, but due to the splendid spirit of co-operation on the part of the American people and the rigid conservation of wheat, 140 million bushels of that crop already have been sent and 10 or 12 million more will be shipped across. The Food Administration is now taking 60 per cent of the wheat flour output of the mills and sending it in jute sacks direct to the Allies.

"This could never have been accomplished without the co-operation of the American people, especially the women," Mr. Hollowell declared.

MAY KEEP 3 MONTHS' SUPPLY

Regulations Made Regarding Farmers Who Have Own Wheat Ground.

The question has been asked of the Missouri division of the Food Administration as to how much of his own wheat a farmer may have ground into flour or how much he may exchange for flour.

The Food Administration announced recently that farmers in Missouri may have milled or may receive by exchange a supply of flour sufficient to last until October 1 on the basis of eight pounds a month for each person in his household.

This applies only to farmers exchanging or milling their own wheat. By October 1 the Food Administration hopes to know definitely the size of the crop and also the foreign requirements.

AT A COMMON TABLE.

Throughout the war we shall be sitting at a common table with the Allies. Good manners say that when there is not enough food to go around each one must take a smaller portion. The Food Administration intends to see that the Allies get the food they need and that there will be sufficient for our own needs.—U. S. Food Administration, Missouri Division.

WANTED: 25,000 Women to Enroll IN THE UNITED STATES STUDENT NURSE RESERVE

The Government is calling for 25,000 young women to join the United States Student Nurse Reserve and hold themselves in readiness to train for service as nurses.

The war is creating an unprecedented demand for trained nurses. Only those who have taken the full training course are eligible for service with our forces overseas. These nurses are being drawn largely from our hospitals at home. Their places must be filled by student nurses enrolled for the full training course of from two to three years. Every young woman who enrolls in the United States Student Nurse Reserve is releasing a nurse for service at the front and swelling the home army which we must rely on to act as our second line of hospital defense. Upon the health of the American people will depend the spirit of their fighting forces.

Age.—The call is for women between the ages of nineteen and thirty-five.

Qualifications.—Intelligent, responsible women of good education and sound health are wanted—the pick of the country. A college education is a valuable asset, and many hospitals will give credit for it. Credit will also be given for a special scientific equipment or for preliminary training in nursing, such as that given in special courses now being conducted by various colleges and schools. Some schools, on the other hand, do not even require a full high-school education.

Enrollment.—Women will be given an opportunity to enroll in the United States Students Nurse Reserve in any one of three ways:

(1) As engaging to hold themselves in readiness until April 1, 1919, to accept assignments to nurses' training schools. These women will be sent to the schools as fast as vacancies occur. Those of superior qualifications will be given preference, and it is, of course, possible that not everyone who enrolls will be accepted.

(2) As desiring to become candidates for the Army Nursing School recently established by authority of the War Department, with branch schools in selected military hospitals.

(3) As engaging to hold themselves in readiness until April 1, 1919, to accept assignments to either a civilian training school or the Army Nursing School. Those who so enroll will be called where the first need arises. The Government hopes that a majority of those who enroll will thus put down their names for both.

The Nurses' Training Schools.

There are 1,579 nurses' training schools in this country. Their need is as great and imperative as that of the Army School of Nursing. Those who enroll for these schools will be assigned as vacancies occur.

The enrollment card will indicate two classes of registrants—Preferred and Deferred. The Preferred class will be those who are ready to accept assignment to whatever hospital the Government directs them, although they may state what training school they prefer to be sent to. Those who register in the Preferred class will be assigned first, and all possible consideration will be given to their preference as stated. The Deferred class is composed of those who limit their pledge of service—that is, who will not engage to go to certain hospitals. This class is intended largely for those who, for family reasons, can not accept training at a distance from their homes. Those who

register in the Deferred class will be assigned only after the Preferred class is exhausted.

Enroll at the nearest recruiting station established by the woman's committee of the Council of National Defense.

Makes Record Meat Purchase.

The largest single order for bacon and canned meats in the history of the world—99,560,000 pounds of bacon and 134,000,000 pounds of canned meat—has just been placed by the Quartermaster's Department, U. S. A., for the American Army overseas.

Louis F. Swift, commenting on the order, said the order will take the bacon from approximately 1,900,000 hogs and if other work were dropped to produce it would be equivalent to the total bacon production of the five largest Chicago packers for nearly five weeks, however, six months will elapse before delivery is to be completed.

Mr. Swift further said: "At the current prices on the day, last week, when the purchase was made, the packers would pay the live stock producers about \$80,000,000, for the necessary hogs and over 50,000,000, for about 900,000 cattle required.

"The cattle will cost us twice as much, and the hogs two and one-half times as much as in the per-war period.

"The whole order will be made up before the first of the year, despite the fact that, even before this purchase, one-fourth of the packers' facilities have been devoted to filling military demands.

"In order to get out the canned goods the packers will find it necessary to employ night and day shifts of canners. Notwithstanding the fact that the products are being rushed forward thus hurriedly, not a single complaint has been received on meat delivered to the armies abroad.

"The five packers are now killing about 360,000 hogs weekly to keep abreast of martial and domestic needs.
