**SPANISH INFLUENZA**

**Precautions**

1. Keep in mind that like most contagious diseases influenza is spread by contact, that is, by the transfer of the poison from one person to another. It is spread by sneezing, coughing and spitting at which times the discharges from the nose and throat are scattered in the air.
2. Avoid crowds as much as possible, including moving picture places, theatres and other assembly halls. When feasible avoid crowded street cars.
3. When sneezing or coughing, place your handkerchief before your nose and mouth.
4. Make sure that you are properly clothed, in accordance with varying changes in temperature, prevalent at this time of the year.
5. Fresh air is always good. Keep your bed room windows wide open, and secure as much sleep as possible.
6. Keep the digestive organs in good condition.
7. Drink water freely.
8. Avoid common drinking cups, common towels and similar utensils.
9. Wash your hands frequently.
10. Use a mild antiseptic as a nose spray or as a mouth gargle, especially if your throat is sore or there is tendency to sneezing.
11. If you have a "cold" use utensils for your personal use exclusively, or if you are in contact with one so affected be careful not to handle utensils used by them.
12. Consult family physician at first onset of symptoms suggestive of influenza.
13. Spread this information as much as possible in newspapers, moving picture shows, school houses, churches, etc.

**PLENTY OF PROOF**

**From People You Know—From Lexington Citizens.**

The greatest skeptic can hardly fail to be convinced by evidence like this. It is impossible to produce better proof of merit than the testimony of residents of Lexington, of people who can be seen at any time. Read the following case of it:

Henry Kroeck, Sr., retired farmer, 2009 Main St., says: "An attack of grip left my kidneys awfully weak and they acted much too frequently, day and night. The passages of the kidney secretions gave me much annoyance; I had to get up many times during the night. Doan's Kidney Pills gave me great relief. I keep them on hand now to use as a preventative."

**Want to Feel Just Right?**

Take an NR Tonight

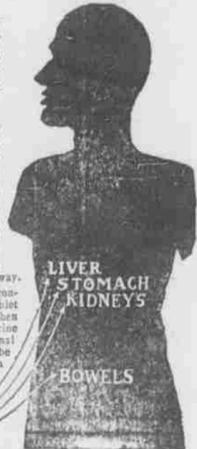

JUST TRY IT AND SEE how much better you feel in the morning. That "foggy," headache, tired, don't-know-what's-the-matter feeling will be gone—you'll feel fine.

**TROUBLE IS,** your system is clogged with a lot of impurities that your over-worked digestive and eliminative organs can't get rid of. Pills, oil, salts, calomel and ordinary laxatives, cathartics and purges only force the bowels and prod the liver.

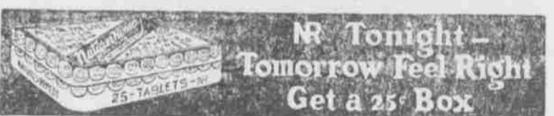

**Nature's Remedy (NR Tablets)** acts on the stomach, liver, bowels and even kidneys, not forcing, but toning and strengthening these organs. The result is prompt relief and real, lasting benefit. Make the test. Nature's Remedy will act promptly, thoroughly, yet so mildly, so gently, that you will think nature herself has come to the rescue and is doing the work.

And oh, what a relief! You'll be surprised to find how much better you feel—brighter, better every way. If habitually or stubbornly constipated, take one NR Tablet each night for a week. Then you'll not have to take medicine every day. Just an occasional NR Tablet after that will be sufficient to keep your system in good condition—keep you feeling your best.

Crenshaw & Young, Lexington, Mo.

**The man with money keeps it in the Bank where it is safe from fire or burglars or his own extravagance.**

When you carry your money in your pocket the temptation and chances to spend it are very great. Greater than you think, for a few dollars here and there to borrowers and for things you don't actually need, soon melt your pile away.

Put your money in the Bank. It is safe there. Add to your balance every cent you can spare. Soon you'll be "a man with money."
