

FEBRUARY.

DEPARTMENT REPORTS.

A Large Amount of Street Paving Done During the Quarter Ending December 31.

The reports of the various departments under the board of public works were filed with the city clerk yesterday. The report of the city engineer shows that during the last quarter ending December 31, two and three-quarter miles of asphalt paving were laid, at a cost of \$107,712.91; one and three-eighth miles of brick paving, costing \$22,308.42; one-quarter mile of macadam paving, costing \$1,600.75; alley paving, costing \$62,214; a total of 13 1/2 miles of paving, costing \$193,836.80.

At the end of the quarter there were under contract 2 1/2 miles of asphalt paving, to cost \$33,376.87; alley paving, to cost \$96.37; and curbing to cost \$1,220.54; a total of \$34,693.78.

Secretary Langworthy, of the board of public works, reported collections of \$126,000.99; expenses of the board of public works during the quarter, \$138.25; building department, \$4,147.67; engineering department, \$1,674.42; street department, \$1,088.29. The total amount of permits was \$26,239 for the quarter. The superintendent ordered 25 buildings torn down and destroyed.

Superintendent of Streets Dadds reported \$17,820.52 expended on streets and miscellaneous work; \$7,193.55 miscellaneous expenses; the contracts for sprinkling streets, overseen by the superintendent, amounted to \$17,577.42; cleaning and sprinkling, \$15,175.78. During the quarter 1,201 permits for excavations were issued.

Superintendent of Buildings Love reported 10 brick business structures built, costing \$19,291.14; brick residences, \$11,790; brick warehouses, \$38,200; brick church, \$10,000; 5 frame business buildings, \$2,400; 14 frame residences, \$21,900; miscellaneous permits, \$1,000. The total amount of permits was \$26,239 for the quarter. The superintendent ordered 25 buildings torn down and destroyed.

At its meeting yesterday morning the board of trade distinguished itself by going into politics, and, as might have been expected, the departure was not attended with complete harmony. Ever since the publication of President Cleveland's last message certain members of the board of trade have been anxious to endorse the president's recommendations on finance, but the action was thwarted by those who thought it would not be expedient for the board to commit itself on a matter so essentially political at this or any other time.

Yesterday, however, a resolution which had been prepared by several officers of the board was read by Secretary Charde at the morning meeting in the main hall. The resolution was as follows: "Resolved, That the board of trade of Kansas City, Mo., approves the essential features of the president's message to congress on the financial question and deems immediate action by congress in the adoption of the same essential to the removal of existing uncertainties which cripple the business of the country."

"Resolved, That we request our senators and representatives in congress to support the same earnestly." "Almost as soon as it was read there was a motion to lay it on the table, which was promptly seconded. President Davidson put the motion and declared it lost, and refused to grant a division vote called for. The original question was put and was declared carried, the president again paying no heed to calls for a division vote.

There was a long and interesting discussion over what some termed the arbitrary ruling of the president, and H. M. Kirkpatrick jumped on a table, calling the meeting to order. The board was adjourned and made a speech against what he termed first ward bulldozing methods. Mr. Kirkpatrick had come in with a resolution and resolution and he took occasion to present it to the members and it was passed by a good majority.

Copies of the first resolution were sent to Senators Vest and Cockerill and Congressman Tarsney, signed by President Davidson and Secretary Charde. A copy of the resolution was also sent to Senator Vest and was signed by Vice President Miller. The Kirkpatrick resolution is as follows: "Resolved, That we look upon the financial condition of our country as exceedingly unsatisfactory, and upon the condition of our treasury and national obligations as construed by the administration, with serious apprehension."

"Resolved, That we urge upon our representatives in congress to lay aside party aggrandizement and promptly adopt measures of relief tending to the establishment of a sound and conservative monetary system, the maintenance of our national credit and the development of the almost unlimited resources of this great country."

All government official experts pronounce Price's Cream Baking Powder absolutely pure. Closing Meeting Held. Yesterday morning an opening session of the meeting of the Baptist Missionary and Sunday School Association, which is held at the Baptist Church, the subject of organizing a Baptist orphan home was discussed by Hon. N. M. Givens. After a general discussion, the subject was referred to a committee for further action.

In the afternoon Rev. J. S. Smith and Dr. Moserip discussed the subject, "How to Talk to Children." Dr. Moserip, Dr. R. B. R. J. Elliot and Rev. W. S. Peace discussed the subject "How to Talk to Children." Rev. J. S. Smith, M. J. Breaker, Rev. A. P. Cantrell and Rev. S. M. Brown each gave a brief talk on the subject.

At the mass meeting last night N. J. Smith preached an able discourse on the subject, "Parties and the Christ's Love for Us," which closed the annual meeting of the Blue River Association.

A Colorado Editor in Kansas City. Colonel John A. Moore, editor of the Pueblo, Colo. Press, is the guest of General Shelby and will remain here a week. He was in the city in 1868 and for several years after doing active newspaper work. He was born in 1831 and located at Pueblo, Colo. He has not been in the city before for sixteen years and is very well acquainted with the growth and prosperity of the city. He is one of the founders of the Times.

SUICIDE OF F. X. MULHAUPT

AN OLD RESIDENT OF KANSAS CITY PUTS AN END TO HIS LIFE.

An Order From the Coroner Precipitates Trouble and the Body is Locked in a Room and Guarded by the Family.

Francis X. Mulhaupt, collector for the Kansas City Krankenschutz, a German benevolent society, committed suicide yesterday afternoon at 3 o'clock by shooting himself through the brain, while in a despondent mood.

Coroner Bedford directed that the body of the dead man be secured the services of another undertaker, while J. W. Wagner and some of the dead man's undertakers, who had been engaged by the family, guarded the body in a locked and barred room.

After a late dinner, Mrs. Mulhaupt decided to call in the coroner in person and permit the family of the dead man to make an appeal to him to allow the body to remain undisturbed by men not acting in an official capacity. The entire proceedings were intensely exciting and dramatic.

The suicide occurred in the kitchen of the Mulhaupt home, No. 126 Oak street. Mulhaupt was a man about 50 years of age. He had been troubled with insomnia and yesterday morning took a small amount of morphine to induce sleep, but it did not help, and he decided to take a walk in the park and try to obtain some sleep.

He remarked that it was useless. He took a brief walk on the street, and when he returned he found the door of the kitchen ajar. He went in with tobacco and walked back into the kitchen. Appearances afterward went to show that he had seated himself in a chair, and when he awoke he found the door of the kitchen ajar.

He had been troubled with insomnia and yesterday morning took a small amount of morphine to induce sleep, but it did not help, and he decided to take a walk in the park and try to obtain some sleep.

What Do You Know ABOUT PIANOS?

Take the FISCHER Piano, for instance. This piano has been sold since 1840, and 100,000 have been made. The quality is unsurpassed. Every part of the piano is as good as it should be, and the price is not 'out of sight.' There are a very large number of them in town. Don't ask dealers who 'used to handle them' about them. Ask your neighbors, who own them. There you get honest opinions and you will only find one opinion, and that is 'The Fischer is all right.'

GRATEFUL—COMFORTING. EPPS'S COCOA

BREAKFAST—SUPPER. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided for our breakfasts and suppers a delicate and nourishing food, which is the only one that is so easily assimilated. It is by the judicious use of such articles of diet that a constitution may be gradually built up and strength acquired to resist every tendency to disease. Hundreds of subtle malaises, arising from indigestion and from the use of inferior articles of food, are cured by Epps's Cocoa. It is a most valuable and economical household article, and is well adapted to all climates. Sold in half-pound tins by grocers, labeled thus:—'Epps's Cocoa.'—Epps's Cocoa is the only one that is so easily assimilated. It is a most valuable and economical household article, and is well adapted to all climates. Sold in half-pound tins by grocers, labeled thus:—'Epps's Cocoa.'—Epps's Cocoa is the only one that is so easily assimilated. It is by the judicious use of such articles of diet that a constitution may be gradually built up and strength acquired to resist every tendency to disease. Hundreds of subtle malaises, arising from indigestion and from the use of inferior articles of food, are cured by Epps's Cocoa. It is a most valuable and economical household article, and is well adapted to all climates.
