NO WORD FROM TAYLOR.

Our Minister at Madrid Has Communicated Nothing to Mr. Gresham.

Washington, March 18.—Sceretary Gresham was at the state department to-day for a short time, but Mr. Uhl, the first assistant secretary, is still acting as secretary. In answer to an inquiry he said that no response had yet been received from United States Minis T Taylor at Madrid concerning the demand, made by the state department for reparation for the first as upon the Allianca.

The Alabama claims decision upon which this demand was based is coming in for a good deal of discussion here, and the his demand was based is coming in for a good deal of discussion here, and the his demand was based is coming in for a good deal of discussion here, and the his demand was based is coming in for a good deal of discussion here, and the his demand was based is coming in for a good deal of discussion here, and the his demand was based is coming in for a good deal of discussion here. Signor Muragus, the Spanish minister, is calmly awalfing developments, but up to noon to-day he had not heard from the state department or from Spain concerning the Allianca affair. It was reparted that the minister had been at the state department during the morning, but this was not the case, and as Secretary Gresham is dealing directly with the Spanish officials at Madrid, Signor Muragua feels that he will have no occasion to communicate with the department unless Mr. Gresham sends for him. The minister said to-day that he hoped the excitement over the affair would not prevent temperate and goodnatured consideration of the case. He has been frank and outspoken concerning it but does not want this to be mistaken for irritation or lack of every diplomatic courtesy to the authorities here. "At the very outset," said the minister, "I sought Mr. Uhl, the acting secretary, and assured him that if the facts disclosed that the Spanish boat was in the wrong then an apology would be made, and my only desire has been to have official action based on established fact."

Dockery Speaks His Mind.

Bockery Speaks His Mind.

Pittsburg, Pa., March 16.—Congressman Dockery, of Missouri, was in the city today en route from Washington to his home. Concerning the Allianca affair he said: "Spain will have to make a complete and ample apology for the firing of one of her men-of-war upon an American merchant ship. Although only one side of the matter has been heard, yet there can be no excuse for the deed. Nothing that the captain of the warsnip could offer would place him in the light of being justing the headquarters, where she was attended by Police Surgeon luen, who succeeded in saving her life.

Keep your feet dry, and if you catho cold take Seventy-seven.

Grip usually attacks a person whose system is weakened by some other disease, and accelerates that disease. Everybody appears to be troubled with a cold or caterhal affection at this season of the year, and the only thing to do is to take "It" at the first appearance of the malady and avoid exposure.

The atmospheric conditions and the wet sidewalks and streets are conducive to such affections, and you cannot be too careful about keeping your feet dry.

Terrible Experience of Henry Tyson, Senteneed to Be Hanged for Murder.

Denver, Col. March 16. — The district court is hearing arguments to-day on a motion for the discharge from custody of Henry Tyson, convicted of murder and sen-tenced to be hanged, but whose sentence Henry Tyson, convicted of murder and sentenced to be hanged, but whose sentence was suspended on account of insanity.

For three years the miserable man was confined in a cell, allowed to see or talk with no one. He lost both sight and bearing and the power of motion. But when Warden McAlister took charge of the penientiary in 1892, two convicts were detailed each day to exercise Tyson. Gradually the tortured man regained his senses, his evesically returned and family he could distinguish sounds. A fury has now declared him sane, and he may be re-sentenced to be hanged. His attorneys hope to secure his release on the ground that he was convicted under an ex-post facto law.

The necessary machinery was procured. It was tested yesterday and found to be in excellent working order, and on Tuesday the company will begin killing hoss with a force of 169 men. This force will be increased should the demands of the market justify it. A Good Concert Programme.

The concert given at Mason & Hamlin's hall last evening for the benefit of L. H. Hubbard, a young Kansas City violinist, was a success from an artistic point of viow, although it was not so largely attended as the merits of the beneficiary and the other entertainers deserved. Mr. Hubbard played a De Beriot air, with variations, showing a good deal of musical instinct and not a small degree of technical skill. There was abundant evidence that the young man should pursue the study of the violin.

The other numbers were contributed by members of the Rubinstein Club and by Minnie Long, who substituted for Mrs. Mayo-Ikhodes, the lilness of whose husband prevented her from being present. Alies Jennie Rose and Mr. Macielinski, blayed a Folish dance by Scharwenka, and Mr. Macielinski, Miss Hazel Grean and Mrs. Macielinski, Miss Hazel Grean and Mrs. Macielinski, Miss Hazel Grean and Mrs. Theorems of the Rubinstein Club and prevented numbers were well chosen and a serenade—by Carl Busch. These concerted numbers were well chosen and well given. Miss Rose's solo was Liezt's Hungarian rhapsody No. I?, which was given with quite remarkable tone power and with superior taste. This young planist works hard and conscientiously and is making constant progress. For encore she gave a Scharwenka valse caprice.

Miss Long sang Strelenki's "Day Dream," a number well shited to her rich and musical voice, which blended well with an obiligato played by Mr. Macielinski'. She also gave two pretty somes by Miss Theo Frain "Hubbard and "My Dove." Mr. Macielinski's numbers were a vieux tempo reverle and a wileniaki's "Chanson Polosalse."

Naval Officers Interested.

Brooklyn, N. Y. March 16.—The utmost interest was expressed by officers of the Brooklyn navy yard to-day in Secretary Gresham's demand upon Spain to explain the firing on the Allianca.

Preparations are being made to respond to any orders that may come from Washington to have the ships now at the navy yard ready for sea in case they are wanted. It is the general opinion, however, among the officers in Brooklyn, that if any vessels are called upon to patrol the Cuban coast they will be taken from Admiral Meade's squadron, now in the West Indies. REPORT WAS NOT TRUE. Pennsylvania Road Has Not Been Demoralizing the Rates New Road Building in Colorado.

ising the Rates New Road Building
in Colorado.

Chicago, Ill., March 15.—The passenger committee of the Central Traft. Association, which has for some time been investigating the charges of demoralization made against the Pennsylvania and other ines, has concluded its work and found that there was no demoralization to speak of, and whatever irregularity there was could in no way be charged against the Pennsylvania. The charge against the latter line was found to be a putup job, several of its mileage books which were bought at tariff rates having been mutilated and put into the hands of brokers. This was done, the committee believed, to give pretext to other lines for manipulation of rates, or to, in a way, support cut rates already made. It was announced after the adjournment that the Buffalo surfement was being practically maintained, and that there were no existing cut rates, and no present prospect of any demoralization.

Notice was to-day given by the Omaha road that it intended to open another city licket office in Minneapolis. The reason given for the action is that other roads have ticket offices in West's hotel. It is expected that hotel offices will soon be started in all the large cities in the territory of the Western Trunk line passenger committee.

The board of arbitrators which listened to the arguments of the Central Traffe Association lines on the application of differential rates to party and theatrical business, reached a decision late this afternoon, They held that the differentials may be applied in one way only to parties of ten or more. There was a warm dispute between the lines as to the matter, the weaker lines tealing the application of differentials to all party business, the stronger lines taking the opposite view. The arbitrators were Chairman J. C. Caldwell, General Passenger Agent Fee, of the Verthern Pacific, and D. W. Shattuck.

had been robbed of \$500. She said she had left Chattanooga for Carlinville, Ill., where she was to meet and marry Roland Buel, also of Chattanooga.

On the train she met a stranger who came aboard at Evansville, Ind. She became infatuated with the stranger, who said he was John Lynch, of St. Louis, and claimed to be a lawyer. After a necessarilly short courtship en route she agreed to marry him instead of Buel. Lynch conducted her to the Lambert house when they reached St. Louis yesterday, and she remained there with him last night. This morning she started for Carlinville to tell Buel about her change of mind, and Lynch bought her a ticket. While crossing the bridge she discovered that \$500 in cash and checks had been taken from her recticule, which Lynch had carried for her.

Lynch was arrested at the Union station and admitted practically all of Mrs. Dwyer's story, except the theft of \$500. This he strenuously denied. Lynch is an attorney at Evansville, Ind. Mrs. Dwyer says she owns two business blocks and other property in Chattanooga valued at \$100,000.

Coffeyville, Kas, March 16.—(Special.)
The Republicans of this city last night nominated the following ticket: Mayor,
C. L. Long: police judge, J. M. Gillam: city treasurer, W. H. Shepard: treasurer of the board of education, F. D. Benson; justices of the peace. T. C. Harbourt and J. H. Matthew; constables, Ed Jackson and J. C. Crouen. This is the first time in the history of Coffeyville that a straight Republican ticket has been placed in the noid. The so-called "non-partisan" plan of running the city has not proved a success. The ticket nominated by the Republicans both for the ward and city offices, is an exceptionally strong one and will, no doubt, be elected by a large majority.

Excelsior Springs, Mo., March 16.—(Special.) The Republicans met in mass convention this afternoon and nominated the following city ticket: Adermen, ex-Mayor J. W. Snapp and W. L. Pattison, for members of the city school board, C. C. Carter and A. P. Benson.

This is the first time in the city's history that both parties will have a ticking the field and much interest is manifest over the outcome. The city has heretofore elected Republicans, local issues deciding the contest.

Wives expecting to become mothers, should know that Dr. Pierce's Favorite Prescription robs childbirth of its torture and terrors, as well as of its dangers, to both mother and child, by aiding Nature in preparing the system for parturition. Thereby "labor" and also the period of confinement are greatly shortened. It also promotes an abundant secretion of nourishment for the child, and strengthens the mother if taken after confinement.

As a powerful, invigorating, restorative tonic, "Favorite Prescription" improves digestion and nutrition thereby building up solid, wholesome flesh, and increasing the strength of the whole system. As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervons prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and telieves mental anxiety and despondency.

Dr. Fierce's Favorite Prescription is a scientific medicine, carefully compounded by the Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., who for thirty years has made diseases of women a specialty. It is carefully adapted to woman's delicate organization, is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, due to pregnancy, weak stomach, indigestion, dyspepsia and kindred symptoms, its use will prove very beneficial. Taken in moderate doses during pregnancy it prevents miscarriage.

Dr. Pierce's Book (168 pages, illustrated), on "Woman and Her Diseases," giving successful means of Home treatment, will be mailed in plain envelope, securely scaled from observation, on receipt of ten cents to pay postage.

A Dog's Response to a Taunt.

A Dog's Response to a Taunt.

Boston Transcript: A dog story has come to the writer's ears, which, though not within his personal knowledge, is vouched for to him in an entirely trustworthy way. A certain dog, which was growing old, was in the barn one day with his master. The two were up on a haymow from which a sloping indoer led down to the barn floor. The master walked down to the barn floor. The master walked down the ladder, but the dog went around by another way. When the dog reached the floor his master began to say to him somewhat tauntingly: "Poor old fellow! Daren't walk down the ladder!" Wherespon the dog, with a quick glance at his master, walked clear up the ladder to the top and then turned around and walked down it again. The proceeding looked very much like a deliberate demonstration on the dog's part, to his master, that he was still capable of walking up and down a slanting ladder. Did the dog understand the taunt, or did he merely catch the words "down the ladder," and take the utterance for a command, which he duttingly proceeded to obey? No one will ever know, probably, since the dog himself can give to deciding Panicky in a Tight Place.

Getting Panicky in a Tight Place.

Lewiston (Me.) Journal: The saliors on the Ammen ram are very wary about going into the manholes that lead to the water tight compartments between the outer and inner shells. The space between the outer and inner shells. The space between the two hulls is barely two feet high, and the manholes admit only one small man. "But if a fellow gots away in there and becomes scared," said a werkman the other day, as he screwed on the manhole caver, "ne will swell up, and he can't crawl back through the hole to save his neck. I was in that compartment the other day and when a thought how awful it would be to have the outer cover screwed on while I was there I not patiety and tried to crawl back. I couldn't get through anyway, although I had gone in casely enourn. The harder I tried the bigget I swelled, and the men tinally had to pull me out. When they got me through the clothes were torn off my back, so tightly had I been squeezed."

The Biggest Goose.

Pall Mall Ganette I heard the other day an amusing law of a certain well known English noble, un, who had imported two cmus with the hope of breeding from them, and on aving his cetate for town, left also strict injunctions that the greatest care should taken of the lady eng. The egg arrived in due course, but, as arties have found before now, the lady declined to 'si.' The steward however, was an ingenious man, and thought of a substitute, but his powers of composition were by no means on a par with his inventiveness, and he announced the interesting event to his master in the following terms:

"The einu has laid an esg, but we were in a great difficulty, as she would not sit on it. I did what I thought was best, and in your lordship's absence I have placed the egg under the biggest goose on the estate.
