

THE WAY TO FIND OUT...

ABOUT our clothes is to examine them thoroughly, comparing them either mentally or actually with any clothes that you can find at any other store in town at the same price. There's no test that we are not willing to submit to; there's no test that can be imagined for bringing out the merit of clothing that won't result to our benefit. Take the suit even at \$5; it's all wool, well made and of material that will give good service and unbounded satisfaction—price considered. The one at \$10 is a revelation of clothing possibilities at that price and has no equal for the money. At \$15 the dress suits begin and at that price and \$18, \$20, \$22 and \$25, there's nothing left to be desired that the highest-priced tailor could give you. And, whatever you get, no matter how low the price, satisfaction is guaranteed you or you get your money back without a question.

At the regular meeting of the city council last night much business was transacted. Councilman Hoffman made an inquiry regarding the beginning of work under the Myers franchise. The company was to begin the construction of the plant on or before December 1, and there exists among many people a doubt as to whether work has actually been begun.

As the company has \$1,000 in the hands of the city, which is to be forfeited in case the franchise is not completed with, there is much interest manifested. As none of the members is certain about whether work had been begun, the city clerk was ordered to communicate with the managers and ascertain if the work had been begun.
