## A DOSE OF THE LAW.

IS BEING PREPARED FOR TWO IN-COMING GAS OFFICIALS.

ARRANGING TO PROSECUTE.

THEY WILL BE CHARGED WITH PROMISING APPOINTMENTS.

This is a Violation of the Corrupt Practices Act and They May Be Kept Out of Office and Fined and Sentenced to Prison.

Another row has broken out in the Democratic family that threatens to produce dire results for at least two of the men returned as elected to office in November, and may prevent both from taking those offices. The two men are Robert L. Stone, sheriff-elect, and Samuel H. Chiles, the incoming county marshal. If the fight now being made on them is successful, it means that William H. Sloan will serve Jackson county as marshal and Ed Taylor will perform the duties of sheriff for the next two years.

Men who were promised positions during the campaign and not given them have made revelations of the ante-election promises, and attorneys who mean business are said to have collected numerous affidavits proving the promises conclusively and are now completing preparations for proceedings against both Stone and Chiles under the corrupt practices act of 1882 to prevent them from taking the offices on the opening of the new year. Stone knows of the fight that is to be made on him, and to some of his friends he has expressed fear that the enemies who are after him may make him plenty of trouble if they really push the fight. That he is deeply worried over the matter is known to his friends, and was freely talked of yesterday.

There are many who believe that the facts substantially appears in the movement against Sam Chiles, and his friends in the city are alarmed at the prospect of having their game campaign preparation preparation inquired into in a court of justice, where an honest effort would be made to sift out the truth.

Nearly all of the party workers were discussing the matter yesterday and it was stated that the affidavits that had been secured and were to be used as the basis for the actions were in the hands of Attorney J. M. Callahan of Independence, and from the best information obtainable by the gang managers the statement was made that they appeared to be very complete and that certain deputys and deputy positions had been promised during the campaign for the purpose of cementing a certain alliance of elements through which Stone secured the election of the sheriff, and carried Chiles through safely. It was told openly during the campaign that promises were being made freely and that official record was being kept of the same. These votes and it is a fact generally accepted by those who know of the "practical" methods of gang politics that the reports were wholly untrue, direct or understood of proof without much trouble.

It is also a fact that after the election the newly elected Democrats were called together for a conference and certain deputys plan the gang boss had arranged for the distribution of deputyships. There were deputies appointed for certain offices that were never thought of by the officers during the campaign and were not wanted either, but were taken because the bosses had promised positions and the promises had to be fulfilled. The only man who fought the gang division was Charles J. Bower, the assessor, who told the gang he owed it nothing and had nothing to pay, and proposed to appoint such deputies as he chose. He said he would not allow the gang to name a single man for his office. He even went farther, and told the gang to go to Halifax, or any other place, and work and let the room in a rage. It left the gang in a tangle, as it had promises out that could not be fulfilled, and the understanding is the trouble grew out of that time.

The gang had more promises than it had positions, and the trouble has been brewing since that time, and finally when the positions were apportioned and certain officers of long standing were thrust aside to make places for representatives of a faction of recent conversion there arose a mighty howl and the fight was on from that moment.

No matter whether the promise made is fulfilled or not, the law makes the promise the offense, and every promise is a separate offense and is punishable as such. If any man made a promise for himself or allowed any man who represented him to make any promises or use any other hope of reward or profit, direct or understood, he violated the act and cannot hold the office to which he was elected. The law was framed to stop that sort of work and it is direct and plain in its provisions and sweeping in its scope. The penalties are severe and if the proof of the charges be made plain there would be a hard case for the gang lawyers to crack to keep their men from serious trouble.

It is said that both men mentioned, as well as other members of the gang during the campaign that was legal, and that phase of the trouble may also be added to the other and make a double dose for them. The penalty for promising to give an office, forfeiture of the office and anti-election offenses are listed as bribery and punished accordingly with fine and imprisonment.

Whether or not the proof of the charges can be brought forth remains to be seen, but the fact that the alleged affidavits were in the possession of a well known fighting Democrat from Independence caused much trouble among the gangsters of the city yesterday and they held many secret causes to hunt for a way out.

The law provides that if a man charged with either of these offenses be prevented by legal proceedings from taking the office it goes to the man who received the next highest vote, which, in the two cases, would mean that Ed Taylor would succeed John P. O'Neill as sheriff and William H. Sloan would take the office of marshal. Sloan was once fairly elected to this office, but fraud and forgery of returns prevented him possessing it.

"Pretty as Girls and Stately as Young Mothers."  
"The women are often very pretty as girls, and some of them make stately young mothers. They work generally in groups of three or four, cooking, white-washing, weaving or painting pottery. They seem to have a good deal to chatter about, and their smiles are very agreeable. They have most excellent white teeth. Their ceremonial dress is very picturesque, especially the costume of the Azona and Toluca girls. So says Hamlin Garland in the October number of the Ladies' Home Journal, of the Pueblo Indians. Samples of their pottery and of the Navajo Indian weaving can be seen in the collection of pottery, Navajo blankets, Indian relics, etc., now on exhibition over the Kansas City Gas office, Tenth and Walnut, the most unique exhibit ever brought to Kansas City.
