The surveyors on the proposed line of the B. & S. W. Railroad failed to make a survey through Richmond as proposed, but Mr. Hughes thinks they will survey this route when they come back to make a more particular survey. This looks favorable to the line through the north part of the county as they certainly would have made us a survey if they proposed to consider this route.

Fine Sheep.

The sale of five Cotswold Bucks, by Mr. Thos. H. Redd, in this place on Saturday last, was not so well attended as it should have been, but the interest in the sheep in Ray county has not yet been fully awakened. A sale of fine hogs or cattle would have attracted more attention. The sheep were sold to the following persons at prices named:

1 Buck to Josiah Van Trump, of Polk township, for \$8.75.

1 Buck to Callaway & Coes for \$7.00.

1 Buck to Jeptha Ogg for \$7.00.

1 Buck to John Joy for \$4.75.

In this connection we will remark that Mr. Redd commenced raising his sheep a few years ago, from a limited number of ewes, and that the business has proven a very profitable one to him, having paid in cash very largely. He has promised to give us the figures of the profits in the business, that we may lay them before our farmers and let them see what can be done with good sheep in a short time at a small outlay.

The farmers of Ray county are neglecting one important element of wealth when they neglect to keep good stock of sheep and give them proper attention.

Five Stock.

It was our good fortune on Monday last, in company with Mr. W. D. Rice of this city, to visit the stock farm of Mr. Itham P. Settle, 5 miles north of town, to see his son, Ed. Settle's fine cattle. The farm is large, thoroughly improved and well supplied with excellent Blue Grass and Clover Pastures, in fact everything is conveniently arranged, showing its managers to be wide awake, thrifty men.

Of fine cattle, Mr. Settle has quite a herd; his aged Bull "Abe" Benick" being a full blooded "Rose of Sharon" while he has several cows of the "Fisher" breed that are of the best blood of the country. He has 8 or 10 very fine cows, and three young bulls that are hard to beat, one about 5 months old attracted our attention particularly. You might take an ordinary scrub bull of the same age that had received the same treatment, and it would not have been half so large, thus clearly showing the advantage of good stock over scrub.

At some future time we hope to visit Mr. Settle, and give a more minute description of his stock. We noticed his hogs were of good stock and showed care in both breeding and keeping. He also has some good sheep, but Ed. said they only kept them for mutton. Mr. Settle has a splendid farm, but the road to get to it needs a little work just now.

CITY AUCTIONEER.—The card of Capt. J. T. Quirk, City Auctioneer, appears in this issue. He has taken out license and will attend to the selling of articles of any kind. If you have any stock to sell, or a sale to make he will cry it for you.

Mr. James A. Davis, our efficient and affable county collector, is still making his regular rounds. He says collections are better so far than they have been in the regular rounds for many years. The people seem to have money, and are anxious to get the job of paying their taxes off their hands. This denotes a returning prosperity, and if our people will only restrain themselves from running into extravagant ways we will soon be all right. Let farmers lay by their surplus for a rainy day, rather than spend it for something they can get along without.

Edison will not be satisfied until he has discovered a better remedy for Cough and Croup than Dr. Bull's Cough Syrup. We say he will never succeed.

WILLIAM A. HOLMAN, County Treasurer.

Business.

Business was lively here on Thursday last, the day of the show. The city had about a dozen special deputy marshals appointed for that day, and they nearly all had plenty of business. It is a lamentable fact that many of the young men who occasionally come to Richmond, think that it is necessary to fill up with "bug juice" in order to enjoy themselves. Such men should be taught the value of their brains, and to feel and know that the coils of the serpent is tightening about them, and they do not change sooner or later, they will fill a drunkards grave. A major portion of these young men bought their liquor by the bottle full, for just young, and what appetite they have overcome for strong drink, can be easily overcome. In fact many of them have no the for it, but only drink because it is fashionable with the boys. We need a temperance work that will make this a disgrace instead of a reason to be proudly indulged in and then laughed off as a good joke. Let the young ladies of the land refuse to recognize or keep company with young men who indulge too freely in the use of ardent spirits, and you will soon see a change, but the girls must also be educated up to this point. Mothers should instill dislike for intemperance in their youthful minds. As far as the old smokers are concerned, occasionally one of them may reform and make a useful man, but it is the exception rather than the rule. We have no suggestions to offer to suit their case.

"BLACK-DRAUGHT" and you will never be bilious. For sale by Garner & Jacobs'.

HORSE THIEF.—Last week Sheriff McGinnis went down to Butler, in Bates county, for a horse thief named Wm. Robison, who is charged with stealing two horses from Mr. William Lawson, near Swanwick, in this county, about 6 weeks ago. Robison had relations living down in Bates county, where he was arrested, and McGinnis wrote down there to find if he was with them. The thief was there and McGinnis sent a warrant for him, thus easily securing the game, as the sheriff of that county had no trouble in laying hands on him. He had traveled off the horses, but Mr. Lawson was fortunate enough to find and recover them, though it cost him a neat sum of money to do so. Robison will find next month that the way of the transgressor is hard.
