In Memoriam.

The following respect is paid Miss Maggie May by the Orange Mills Chapel Sunday school:

"Why should we start and fear to die, What timorous worms we mortals are; Death is the gate of endless joys, And yet we dread to enter there."

Another vacant seat in the school, and an absence from the home and friends. No more will Miss Maggie May be seen in our midst, nor in the walks of life. But how encouraging the evidence we have of her basking in the sunlight of God's presence.

Truly we can say she is at rest. What were her sufferings here, while battling with the disease, which had fastened itself on her, we do not know.

We can only guess from what was seen of her during the struggle. But it is known how she met the dread monster, death, for whose coming she was prepared, by a consecration of herself to Him, enabling her to meet the last enemy calmly and triumphantly, and to show to those around her how the Christian can die. Let her life and her trust in God be emulated by us, and as she did, whilst life and opportunity is given us, let us prepare for the end that awaits each one of us, and pass out of this world prepared to meet God in peace.

Let her name be sacred in the records of the school and a copy of this tribute be handed to the family of the deceased.

Should Be Taught Better.

Jake Middleton was arrested and lodged in jail Tuesday on a warrant sworn out by Mr. H. J. Zeigler. Middleton is charged with being drunk, carrying concealed weapons and firing his pistol on the public highway on Sunday afternoon. It seems that he acted in a most boisterous and threatening manner and should be taught better.

Middleton, who is a negro, did not seem to respect white or black passers by, some of whom he might have seriously injured.

BRANCHVILLE NEWS.

Negro Stole a Bicycle But Was Later Captured.

Branchville, Oct. 26.—Special: Last Saturday night a colored man named Bryant, who was in Branchville and wanted to go to Rowesville, decided that, although he did not have the price to pay his railroad fare, that he would go and that he would not walk, either; so he decided that he would accompany a bicycle that belonged to W. C. Steedly up there, and that in the event that Mr. Steedly did not miss his wheel or seem to care for it being out of place, that he would just keep it and use it himself as if it was his own property.

Mr. Steedly, however, decided later that some one had stolen his bicycle and he at once telephoned to the Chief of Police at Rowesville, and in a short time the active Chief, with there located a suspicious negro in his town that had a bicycle and he arrested him and captured the bicycle, and after investigating the matter it was found that it was certainly the property of Mr. Steedly, and a warrant was thereupon sworn out for the negro Bryant and after he gets through with this bicycle experience he will, no doubt, be willing to walk next time when he is without the price to pay his way on the train.

TELEPHONE DIRECTORY.

The New One Has Been Delivered to Subscribers.

The new directory of the Southern Bell Telephone Company has been delivered to the subscribers in Orangeburg by Manager M. E. Matthews. The new directory is attractive in appearance and contains all the changes and corrections in listings that have been made since the last directory was printed.

The number of new names appearing in the list would indicate that there are constant additions to the number of subscribers in Orangeburg and vicinity and the telephone development is continuous.

The Southern Bell Company has evolved a plan whereby it furnishes telephone service to farmers and the rural residents on an economical basis. As a result the telephone is now the rule, rather than the exception on the farm, and farmers in all sections of the State are installing telephones in their homes.

Can't Enter White Homes.

"Our graduates cannot enter the homes of whites as servants or house girls. There is not sufficient protection in the houses for them. When they finish their work at night they are allowed to roam the streets and are subjected to temptation and are lost. They may return to their families less pure and a disgrace to their families." This was the report of Ellen Young, colored matron, of the Palmetto Annex Home for negro girls at Augusta, Ga., to the Women's Board of Home Missions of the Methodist Church, South.

This institution, we believe, is supported by the Southern Methodist Church which is composed entirely of white people. It is in order for Ellen Young to explain what she meant by her reflection on the people who support Paine Institute.

Stand by Your Town.

We owe it to the community in which we live to do everything we can in every way possible that will be to its advantage. Our neighbor's prosperity means a great deal more to us than someone's who lives elsewhere. We should bear this in mind in buying our goods. We can afford to pay our home man a firm price for his wares rather than send our money away, knowing as we do that every dollar our own citizen makes will help in sustaining our schools, churches and public institutions. It pays richly to patronize home industry.

MAN FATALLY HURT

WAS THROWN FROM LEVER CAR NEAR EUTAW SPRINGS.

R. L. Smith, Bridge Foreman, Victim of Accident Near Eutawville. Leaves Young Wife.

A dispatch to The State from Ferguson tells of a sad accident that occurred Saturday night on the Atlantic Coast Line railroad track near Eutaw Springs. R. L. Smith of Tennessee was thrown from a hand car and injured internally and died in Eutawville the same night.

Mr. Smith was going from Ferguson to Eutawville on a hand car worked by four negroes, and when the party came to a very sharp curve in the track near Eutaw Springs, they struck a heavy piece of timber, which had evidently been placed there by some very heartless person with evil intent. The speed at which the car was going, combined with the sharp curve, caused the car to be thrown from the track. Mr. Smith was thrown from his seat against the ties, causing his shoulder to be broken. The negroes were also thrown off, but their injuries were very slight. After a delay of a few minutes the car was again placed on the track and the party started for Eutawville.

Smith went around to his boarding place and told of his accident but insisted that no physician should be called as his injuries were very slight. In a very short time he seemed to be in so much pain that his wife summoned Dr. E. O. Horgan to his bedside and upon his examination he found that there were internal injuries. The patient rallied upon the use of hypodermic injections but soon became unconscious and died during the night.

It seems that there are several motor cars used on the branch of the Coast Line railroad between Eutawville and Ferguson with the permission of the railroad authorities, and it is supposed that some cruel person, desiring to derail one of these cars, had placed a heavy piece of timber on the track.

Mr. Smith was a bright young man in the employ of the Cypress Lumber Company in constructing the steel bridge across the Santee river. He held the position of assistant foreman. He leaves a very young bride.

The remains were carried across the country to St. George on account of there being no Sunday train from Eutawville.

Allen May Die.

Sheriff Salley arrested and lodged in jail Isaac Haigler on Tuesday for beating Adolphus Allen over the head on Saturday afternoon with a shot gun. Allen is said to be in a critical condition and may die from the severe beating Haigler gave him. Haigler alleges that Allen and William Johnson attempted to kill him and he has sworn out a warrant for their arrest. All the parties to this row are colored.

HOW'S GREAT LONDON SHOWS

A Revelation to All Circus Lovers. In Orangeburg Friday.

The performance is exceptionally fine and full of interest to all lovers of the ring. Nearly everything is entirely new, and what is not is managed and brought out under such new methods and systems that every act is refreshing and pleasing. Howe's Shows seem not willing to simply pursue a business on antique methods, but to advance the show business to more genteel and refined lines. All vulgarities and ancient impoliteness, in and out of the ring, have been eliminated, and the show will meet with unbounded favor wherever it goes this year. We say this in all sincerity. Great improvements are noticeable, especially to us old fellows who have attended every circus for more than fifty years that has come along. No gentleman or lady, no matter how moral or religious the calling they pursue, nor what refined circle they move in, need hesitate to attend the show, nor be certain of anything but refined pleasure, free from anything that disgusts or casts a shadow of contempt. This is as it should be, and we predict a greater future for the Howe's Shows on these lines than has ever been enjoyed by any competitor.

The new menagerie is a vast collection of the earth's most interesting and marvelous wonders. New cages, rolling stock, equipment, all bright in gold and silver, will be seen for the first time after a full winter's embellishment by scores of expert artisans.

The show date here is tomorrow, Friday, October 29.

BITTEN BY A MAD DOG.

Four Children of Farmer Attacked by a Rabid Pet Dog.

Four children of Mr. E. W. Kerr, who live in the Prospect neighborhood, near Mooresville, N. C., were bitten by a pet dog Saturday. Nothing was thought of the incident until a few days later, when the animal exhibited symptoms of rabies. He was immediately killed and the head sent to Raleigh for examination. A long distance telephone message from the Pasteur Institute stated that the animal was undoubtedly mad, and Mr. Kerr left for Raleigh to place his four children in an institution for treatment.

It is stated that a mule, cow, pig and a number of chickens were also bitten by the canine and much concern is felt in the neighborhood over this fact. Mr. Kerr was advised by the State chemist to kill all the animals bitten by the dog.

WILL LAY HEAVIER RAILS.

Some Improvements to be Made in Southern Road.

The Augusta Herald says that Superintendent H. L. Hungerford, of the Southern railway, who is in charge of the Charleston division, which includes the line from Charleston to Augusta, Branchville and Columbia and the Camden branch, spent Monday in Augusta for the purpose of visiting the freight yards in Hamburg.

The Herald says further that according to Mr. Hungerford, the tracks on his division will be much improved during the next few months, as it has been planned to relay the line between Charleston and Augusta and also portions of the Columbia branch with new 75 and 80-pound rails, and the roadway is to be improved in many other ways.

Recently the Charleston divisions received five large locomotives from the shops, which are practically as good as new, and when these are placed in service it will be possible to handle the trains on that section of the Southern with greater dispatch.

WAITING TO BE HANGED.

Interesting News of Man Who "Rocked a Train."

Sheriff J. P. Hunter, of Lancaster, has been diligently trying to find the whereabouts of one Joe Williams, alias Bub Williams, who escaped from the chaingang in July, 1902, where he was serving a three years' sentence for rocking a train and for assault and battery with intent to kill, and the vigilant officer's efforts have at last been rewarded with success. On Friday the sheriff received the following letter from Warden, T. H. B. Jones of Ohio penitentiary at Columbus:

"I have your letter of recent date in regard to one Joe Williams and beg to advise that this man is now confined here under the name of Charles Davis, awaiting execution for murder in the first degree. I thank you for your letter as he claims never to have been arrested before."

Satisfied that the ends of justice will be meted out to Williams in Columbus, Sheriff Hunter will of course make no effort to have him brought back here.

The Tillman Volunteers will attend the State Fair at Columbia on Saturday and take part in the Taft parade. The Company will then go to Augusta where they will participate in another Taft parade. It goes without saying that the boys will have a good time.

CENSUS PRELIMINARY WORK.

Enumerators Will Get Busy on November First.

With the coming of November, the preliminary work for the taking of the thirteenth census will be gotten under way, though the work of enumeration will not begin until later. Considerable work of a preliminary kind is required before the real work of the census can begin, and this is the part of the work that will be taken up on November 1.

One of the most important things to be done is to name the enumerators who are to be the first hand work of the census-taking. There are large numbers of applicants on file for these places in this district and it will require some time to complete this work alone. This will be done as early as possible in order that the enumerators may have an opportunity to become acquainted with the details of the work.

The next census will be taken on April, instead of June 1, as the custom has been hitherto. The official for the census will be greatly enlarged for the coming census enumeration. It is estimated that the total number of employees, including both enumerators and supervisors, will approximate 60,000. The total cost of taking the census will likely reach as high as \$14,000,000.

The Constitution of the United States requires that a census be taken every ten years. The first census was taken in 1790 under the supervision of the president; subsequent censuses to and including that of 1840, were taken under the supervision of the Secretary of State. In 1849 the supervisor of the census was transferred to the supervision of the newly organized department of the interior, and continued under the control of that department until the passage of the act of 1903 creating the Department of Commerce and Labor. By this act the census office was transferred to the supervision of the new department. Congress, by act approved March 6, 1902, made the census office a permanent bureau of the government.

The work of census taking is not confined to the enumeration of persons but has reference also to the taking of vital statistics such as reports on manufactures, agriculture, the insane and feeble-minded, deaf, dumb and blind, crime, pauperism, benevolence, deaths and births in registration areas, social statistics of cities, wealth, debt and taxation, religious bodies, electric light and power, telephones and telegraphs, transportation by water, street railways, express companies, and mines and mining. From this it may be seen what a colossal task the census-taking is.

The new census law makes it the duty of citizens to answer to the best of their knowledge all legitimate questions asked by the census officials concerning any phase of the census work. This point is more clearly dealt with in the new law than it has ever been before. The same thing is true of corporations and the officials who are at the head of these organizations.

Young man, remember that it is the person rather than the occupation that adds dignity to labor. There are those who can beautify the most menial occupation or service and there are others who can degrade the most honorable calling.

Let a man of woman start on the downward road to ruin and we are all prone to step aside and cry out, "slide on, slide on to destruction," instead of stretching out the hand of brotherly love and staying their progress, we stand by and let them slide.

A slandering tongue is more to be dreaded than the most loathsome reptile that crawls upon the face of the earth for he will give warning before he strikes you—but a slanderer—never. We are thankful that we have no slanderers in Orangeburg.

Every school boy knows that a kite would not fly unless it had a string tying it down. It is just so in life. The man who is tied down by half a dozen blooming responsibilities and their mother, will make a higher and stronger flight than the bachelor, who having nothing to keep him steady is always floundering in the mud.
