#### SHOT DOWN IN THE CITY HALL.

Policeman In Savannah Shot and Fatally Wounded in the Presence of the Mayor and Other City Officials.

Savannah, Ga., October 24.—Policeman Charles A. Collins was shot down in the mayor's office in the City Hall yesterday afternoon by Henry G. Green, an art dealer. The shooting occurred in the presence of Mayor Myers, the superintendent of police, the recorder, the chairman of council, several alder-

men and a number of citizens. Collins was shot through the breast and will probably die.

Policeman Collins was under investigation by the mayor on charges brought by Green. A week or ten days ago Collins arrested Green on the streets as a suspicious character. As a matter of fact, Green is well known in the city, having been connected with the postoffice for a number of years. There had been several robberies and burglaries reported to the police. Collins saw a

man standing or "loitering" on the sidewalk in the neighborhood of where the burglaries had occurred about 2 o'clock in the morning, and arrested him. The man proved to be Green, who explained that he was only waiting for a friend. The policeman refused to accept the explanation and locked Green up without giving him an opportunity to see his friends or arrange for bail. The next morning, the recorder imposed a fine on Green, who appealed to the mayor and lodged complaint

against Collins. This complaint was under investigation this afternoon. Green had testified and Collins was cross-questioning him. Collins asked a question which reflected on Green's morality. Quick as a flash Green pulled a pistol and fired. Collins arose and attempted to get his pistol out of the holster, but was caught by the chief of police and restrained. Collins was taken to a hospital and Green was locked up at the county jail.

#### Cause of Lockjaw.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by W. E. Pelham & Son, Newberry, S. C., and Prosperity Drug Co., Prosperity, S. C.
