## THE PARK PLAN.

## A Simple Method of Building the Park in Which Every Citizen May Have a Part.

The following is the plan which will be submitted to the people of Newberry for the establishment of the park, about which a great deal has been said in The Herald and News. It is desirable for many reasons that the park association should be chartered by the State, and controlled by the white people of Newberry.

It was thought best to have the subscriptions in small figures so that every citizen who has a spark of civic pride, may be given the opportunity and the privilege of having a part in this work which means so much for the community.

There ought, at least, to be 1,000 persons in Newberry who would desire at least one share of the stock which is to be raised for this work. The payments will be small, and spread over several months, and there is no citizen in Newberry who could not subscribe for at least one share.

We have in mind a number of citizens whom we expect to take as many as fifty shares of stock, but we want to give an opportunity to every citizen to take one share, at least, who wants to have a part in this work, before they will be permitted to subscribe 50 shares.

The whole amount of this money will not be needed for the land that we now have options on, but it is hoped that in the near future this park may be extended along this creek from the railroad to Glenn street.

These subscription blanks are at the office of The Herald and News and may be seen by any persons who are interested, and those who desire to subscribe may do so by calling at the office.

It should be remembered that Mr. Burton has agreed to take 60 shares of the stock and by putting in his land, of course, will give us a good start.

## The Plan.

It is desired that the white citizens of the town of Newberry, S. C., should have the advantage of a park situated near the center of the town.

The land necessary for such a park can be obtained at a reasonable price by the purchase of a strip of land on both sides of Scott's creek, between Calhoun and College streets.

It is deemed best and advisable to have said park owned and controlled by an organization duly chartered under the laws of the State of South Carolina.

It is proposed to make the capital stock of said corporation \$10,000, divided into one thousand shares of the par value of \$10 each.

The land purchased for said park shall be and remain in the absolute possession and under the management and control of the proposed corporation, so long as the said land shall be used for a park, but in case it should cease to be used for that purpose, then and in that event the stockholders of the proposed corporation shall each have an interest therein according to the number of shares of stock held at that time.

For the purposes above mentioned we, the undersigned, hereby subscribe the number of shares set opposite our respective names to the capital stock of the proposed corporation, payable twenty per cent. when the commission is issued to the incorporators, and 10 per cent. thereof every thirty days until paid in full.

## Result of Terrible Accident Which He Suffered on Last Wednesday Afternoon.

Mr. N. Pink Abrams died at his home on Mr. L. W. Floyd's place, above Longshore, in No. 6 township, on Friday afternoon as a result of the terrible accident which he suffered on Wednesday afternoon while grinding a plow on an emery wheel, the plow being caught in the belt and thrown to the pulley overhead, knocking a piece out of the pulley and being hurled down upon Mr. Abrams' head, crushing the skull and penetrating the brain.

Mr. Abrams was buried in Rosemont cemetery on Saturday afternoon at 2 o'clock. His remains were laid to rest with the ceremonies of the Woodmen of the World, conducted by Longshore camp, of which he was a member, and with the services of the Baptist church, the Rev. Geo. A. ## SUMMER &amp; HIPPI GROWING.

## A Well Known and Popular Furniture Firm's Rapid Rise.

It does not take a discriminating public long to find out who is who and what is what, in the commercial as well as in the social world. When the public sees that a firm is handling the best of goods at the most reasonable prices, they are going to get a most liberal patronage. And when it becomes known that such a firm is also liberal in its dealings with others and is possessed of broad-minded and generous spirit, then the customers will take greater delight in buying what they need for living and comfort and make strenuous effort to purchase what they want for luxury and effect. Friends and neighbors will follow suit—when it comes to parlor suit, etc.—for they will follow the crowd, as nothing succeeds like success and money makes money. Summer and Hipp get the right goods at right prices, believe in advertising and public spirit, and their fair and square dealing, accommodation and push is the slogan of their success. Since they have inaugurated a grand piano contest their trade has had a wonderful increase and they are reaping the harvest of their sowing the seed of food for thought at the proper time. Watch Summer & Hipp and help some one get the piano.
