

Lameness

Sloan's Liniment is a speedy, reliable remedy for lameness in horses and farm stock. Here's proof.

"I had a horse sprain his shoulder by pulling up on a harness. I could not carry him at all. I got a bottle of Sloan's Liniment and put on four times a day for three days. The horse was lame all at all, and made a thing of it. He is now as good as new."—W. J. Adams, Adams, Ala.

"I have used Sloan's Liniment on a fine mare for splint and cured her. This makes the third horse I've cured. I have recommended it to my neighbors for thrush and they say it is fine. I find it the best Liniment I ever used. I keep on hand two bottles of Sloan's Liniment for my self and neighbors, and I can certainly recommend it for Colic."—W. J. Adams, Adams, Ala.

"Always an Active Enemy. Against all things, be on your guard against your temper. It is an enemy that will accompany you everywhere to the last hour of your life. If you listen to it, it will frustrate all your designs. It will make you lose the most important opportunities, and will inspire you with the inclinations and aversions of a child, to the prejudice of your greatest interests. Temper causes the greatest affairs to be decided by the most paltry reasons; it obscures talent, paralyzes every energy, and renders its victims unequal, weak, vile and insupportable.—Pencilon.

Sometimes Well to Go Slow. A good many people will feel a sentiment of sympathy for the hapless person who having hired an expert to work up his pedigree, found himself obliged to pay his money to prevent the expert from telling what he had found. It is a wise child that knows its own father, according to the proverb; and apparently a still wiser one that doesn't.

Who Makes Up the Suicide. According to Dr. Jacques Bertillon, the French statistician, suicide is common among liquor sellers, chimney sweeps, butchers, fruiterers and musicians. It is frequent among "camelets," shop assistants, cutlers, hairdressers, servants, cesters, lawyers, doctors and druggists. It is rare among the clergy, government officials and men leading an active, open-air life.

Injuring Children's Eyes. "We are destroying the eyes of a large number of school children by the burden of continuous near work to which they are subjected," says a leading physician. He suggests as a remedy, in addition to the use of eye-glasses, reduction in the amount of work demanded directly upon the printed page. "Let us have more thinking and fewer books," he declared.

Electric Bitters

Succeed when everything else fails. In nervous prostration and female weaknesses they are the supreme remedy, as thousands have testified. FOR KIDNEY, LIVER AND STOMACH TROUBLE. It is the best medicine ever sold over a druggist's counter.

Alabama Advice.

If you have no section harrow, then sell your shotgun and buy one. We are fond of hunting ourselves, but a farmer who is too poor to own a harrow, or a lawyer who is too poor to buy a book, is certainly not in a financial condition to possess the implements of a sportsman. Feel yourself for your fight with fortune, and get a harrow.

Unequal Natural Division.

The Cordilleras, which form the backbone of both the northern and southern continents, are relatively near the Pacific Ocean in Guatemala, and thus divide the country into two unequal drainage areas, of which the Arctic is much the greater. The Pacific slope, though comparatively narrow, is exceptionally well watered and fertile between the altitudes of 1,000 and 5,000 feet, and is the most densely settled part of the republic.

Nothing Really Seems New.

Discovery of a prehistoric Turkish bath in Ireland suggests again the thought that most of the things about which modern civilization boasts are ancient. An automatic machine was in use to supply sacrificial water in an ancient Greek temple. Queen Marie Theresa had an elevator in her house at Luxembourg as early as 1777, and an omnibus was running in Paris in 1862. In 1867 Robert Hooke conveyed sounds to a distance by distended wire—telephoned, in fact.

BRAINS DULLED BY CONSTIPATION.

Some People Only Half Alive; DeSoan's Liver Tonic Cleanses You Out and Wakes You Up.

When constipation is having its evil effects on your body and brain, Nature is doing her best to offset them and overcome the cause. Use DeSoan's Natural Liver Tonic. In the past, many sufferers at such a time used to turn to dangerous calomel in hope of relief. For some people calomel does appear to give a temporary benefit, but as a matter of fact it is a poison that proves to be injurious and even dangerous to many. If you have ever taken calomel you probably have suffered from evil conditions following its use.

But nowadays great numbers of people have learned how to feel better, brighter and healthier by taking DeSoan's Natural Liver Tonic instead of calomel. Indeed, this harmless vegetable liquid is recommended and guaranteed by Dickson Drug Store who will refund the purchase price to you without question if you are not completely satisfied with it.

Get a bottle of DeSoan's Liver Tonic for only 50c. and learn for yourself how easily and naturally it assists Nature in getting rid of and correcting constipation and biliousness, how it clears away the sick headache and coated tongue and sets you right without ache or gripe, without regular habits, fine for children. They like to take it.—Adv.

Denizens of the Underworld.

A gentleman who visited one of the rock-cut tombs of the Lydian Desert found it tenanted by bats. They were so numerous that they swarmed over his person while he hovered flustered around him. Explorers of the pyramids of Egypt have had similar experiences; indeed, wherever there are caves, or crypts, or subterranean tunnels, or church towers they are haunted by bats.—Scientific American.

Flemings Built Up English Town.

Rochdale, England, laid the foundation of its prosperity in the reign of Edward III, "when a body of Flemish emigrants took up their abode there and introduced their craft as clothiers. Rochdale, in the time of Queen Elizabeth, had become so famous for its woollen manufacturers that the "tauinger," the official appointed by the queen to measure all woollen cloth made for sale, had to appoint a special deputy there to keep pace with its manufacture and see that the crown was not robbed of its dues.

Plain Truth That's Worth Money.

Using Foley's Honey and Tar for a cough or cold may save you both sickness and money. F. F. Monahan, Menomonee, Wis., says: "I am exposed to all kinds of weather and I find Foley's Honey and Tar Compound always fixes me up in good shape when I catch cold or get a bad cough. I recommend it gladly." Refuse substitutes. For sale everywhere.—Adv.

Postage Stamps.

The postage stamp first made its appearance in 1839. Its inventor was James Chalmers, a printer of Dundee, who died in 1853. England adopted the adhesive stamp in 1839, and issued the first stamps for the use of the public in 1840. A year later stamps were introduced into the United States and Switzerland, and soon afterward made their appearance in France, Belgium and Bavaria.

Disordered Kidneys Cause Much Misery.

Avoid Stuffy Wheezy Breathing.

Take Foley's Honey and Tar Compound for an inflamed and congested condition of the air passages and lung tubes. A cold develops quickly if not checked and bronchitis, la grippe and pneumonia are dangerous possibilities. Harsh racking coughs weaken the system, but Foley's Honey and Tar is safe, pure and certain in results. Contains no opiates. For sale everywhere.—Adv.
