

A NEW ARRIVAL IN Late Fall and Winter Coats and Suits for Women

We just got them in and they are real beauties--every one of them.

The Coats

Are in the late winter styles, and have some pretty dainty touches, not seen on the earlier models. They come in Pebble Chevoit, Burella or Well Velour, Broadcloth, Bolivia, etc., and are handsomely trimmed in Coney Muskrat, Natural Racoon, Plush Seal, or Self Fabric, half or full lined and interlined. The colors are Black, Blue, Brown, Green, Toupe Grey, Plum, Burgandy. Priced \$12.50, \$15.00, \$17.50, \$19.50, \$23.50 and up to \$40.00.

The Ladies' Suits

Are Unusually Beautiful Models, tailored with care, characteristic only of highest custom-tailored suits.

Fancy tailored, plain tailored, etc., all beautifully lined and interlined, trimmed in Furs, Plushes, Velvets and Self Fabric. All the wanted colors, all sizes. Priced \$12.98, \$15.00, \$19.50, \$22.50, \$25.00 and up to \$40.00.

The Dresses

That have just arrived are simply beautiful. They come in French and Imperial Serges, in very nifty draped and pleated effects, some with beautiful Broadcloth and Messaline Collars, and all with pretty touches of Hand Embroidery, that tends to bring out the beautiful style of the Dress. Price \$10.00 to \$23.50.

You must come now and look them over. We'll be proud to show you.

WOMAN SICK TWO YEARS

Could Do No Work
Now Strong as a
Man.

Chicago, Ill.—“For about two years I suffered from a female trouble so I was unable to walk or do any of my own work. I read about Lydia E. Pinkham's Vegetable Compound in the newspapers and determined to try it. It brought almost immediate relief. My weakness has entirely disappeared and I never had better health. I weigh 165 pounds and am as strong as a man. I think money is well spent which purchases Lydia E. Pinkham's Vegetable Compound.”—Mrs. JOS. O'BRYAN, 1755 Newport Ave., Chicago, Ill.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, and nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

NEW WAYS TO REMOVE SPOTS FROM CLOTH

Chemicals as Stain Removers—Some of Uncle Sam's Economy Suggestions.

In removing stains from clothing and other household textiles too much emphasis can not be laid on the importance of applying the stain removers while the stain is still fresh. Changes in the character of the stain brought about by drying, exposure to air, washing, ironing, or in other ways often make it necessary to use chemicals, whereas in many cases much simpler methods are successfully used if the stains are treated when fresh. It is very important to know the kind of fabric which is spotted, and if possible the nature of the stain. Some stain removers which will give admirable results on cotton and linen will prove harmful if applied to woolen and silk goods. The method of treatment adopted de-

pends as much upon the nature, color, weave, finish, and weight of the fabric as upon the kind of stain. The use of very hot water on wool and silk must be avoided since it turns these goods yellow, shrinks wool and weakens silk. Stains from meat juice, blood, egg, milk, and other materials containing protein, are set by hot water.

Cold or lukewarm water should be given a trial first if the nature of the stain is not known, and if the fabric is not injured by water. Use water on cotton and linen (white and wash colors) and the so-called wash silks and washable wools. Use a neutral soap and always rinse the fabric in clean water.

If stains are of such a nature that they will not yield to laundering or sponging with water or with water and soap, it is necessary to use one or more of a number of chemicals. Of these the most useful in removing stains are Javelle water, potassium permanganate solution, oxalic acid solution, ammonia water, carbon tetrachlorid, French chalk, and cream of tartar, each of which may be used successfully, provided the right one is used on the right fabric. As some of these are poisonous, care should be taken in using them. Detailed instructions for treating various stains are contained in Farmers' Bulletin 861. Copies may be had free, so long as the supply lasts, on application to the U. S. Department of Agriculture, Washington, D. C.

YOU NEED VEGETABLES

Plenty of vegetables are needed in winter as well as in summer. They furnish valuable mineral that your body needs for its growth and development and to keep it in good working order. Besides they furnish other substances important for normal development and health. They help to prevent constipation, which is detrimental to health. Vegetables are a

BACKING UP PROOF

The Kind That Manning People Cannot Deny.

Many an earnest Manning man or woman has publicly endorsed Doan's Kidney Pills.

Wee after week, month after month you've read their statements. Would these Manning people recommend any medicine if it were not good?

Would they confirm and repeat their statements after years had passed?

Local proof is good evidence. Testimony confirmed years after is better evidence.

The following Manning woman's statement leaves no room for doubt. It must convince every kidney sufferer who reads it.

If your back aches—if your kidneys are weak, profit by what Mrs. R. L. Logan says: “For a long time, I had been troubled with my kidneys. I suffered from a lame and aching back and didn't rest well nights. I used a box of Doan's Kidney Pills and they relieved me wonderfully. I am feeling much better now.”

Keeps Doan's On Hand.

Over three years later, Mrs. Logan said: “I have used Doan's Kidney Pills and they have done me a world of good. I keep them on hand and couldn't get along without them.”

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Logan has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.—adv.

safeguard to health—see that you have a variety of them (whether fresh or canned) the whole year round.

Hunting Notice.

No person will be allowed to hunt on any of the lands belonging to Mr. or Mrs. D. M. Rogers. These lands are generally known as the Nixon lands. Any violation of this notice will be prosecuted to the extent of the law.

S. J. Smith, Agent.

To Cure a Cold in One Day.

Take LAXATIVE BROMO Quinine. It stops the Cough and Headache and works off the Cold. Druggists refund money if it fails to cure. E. W. GROVE'S signature on each box. 3c.

SUMMERTON STRONG ON Y. M. C. A. CONTRIBUTIONS

(Continued from Page 1.)

who has measured several knots beyond the fifty year mark and, from present indications, is scheduled to hit up several more years in life's arena. One of the interesting features of the occasion was the fact that just 31 years ago this date Mr. Lanham enjoyed his last birthday dinner with Mr. Gayle prior to this occasion. During the conversation of the evening Mr. Gayle reminded his guest of the fact.

Horse and Mule Market.

The horse and mule market continues one of the large business enterprises in Summerton, many of the beasts being disposed of at each sale. Last Saturday B. Newsome, of Columbia, South Carolina, disposed of a number of horses and a few mules, the sale of which ran up in the aggregate into the big figures. One noticeable feature of the sale was the large amount of buying indulged in by the colored people which was quite sure evidence that this portion of the people of the community also have the dough this year.

Prominent People at Manning Fair.

Among the exhibitors at the Fair in Manning last week Summerton was quite largely represented and naturally a number of the prominent people of the place were among the visitors at the big show. Included in the list were Mayor and Mrs. W. H. Anderson, Capt. J. A. James, wife and children; T. H. Gentry and family, J. E. Rowe, Asbury Felter, E. A. Brock, wife and children; H. A. Plowden, wife and child; Bennie Broadway and wife.

Was Pioneer Teacher.

In 1883 J. C. Lanham located in Summerton and for four years taught school in the pioneer settlement. He

was quite instrumental in providing the seat of learning which preceded the present large, substantial structure. In company with Asbury Gail-yard, (colored) he hauled the lumber from John Ingram's mill and assisted in the construction of the building and applied a coat of paint to the structure after completion of the woodwork. Later Mr. Ingram was killed in a boiler explosion at his sawmill.

Governor John P. Richardson, of the State of South Carolina, was present at the commencement exercises of the school and made an address to the pupils and parents upon this occasion. In Mr. Lanham's days of pedagogy no stated salary was set apart for the teacher's services, but he figured his remuneration by the percentage of tuition received by the district. Mr. Lanham came to Summerton from Spartanburg and many of his pupils were enrolled from that and other places in the State, which attested to his popularity and his ability in imparting successfully the vital features in erudition.

Among the pupils of that day who cast their lot with Mr. Lanham the former teacher points with pride to T. H. Gentry, as one of the boys who had the stuff in him to make good and who today occupies a prominent place in the business and financial circles and whose sound judgment carries much weight in the activities of this community. Mr. Lanham was school trustee in Summerton until a year ago when his duties as traveling salesman made too urgent demands on his time to devote his attention to the duties on the school board. For the past 25 years Mr. Lanham has sold groceries to the trade and, it is said that he disposes of more of the necessities of life in this line than all the others engaged in the same line in his field.

Some Are Holding Cotton.

While the ginneries have nearly finished the product for the season there are still some of the late pickers hauling in small amounts and consequently there are some market transactions. About 75 per cent of the product has been sold. Some are holding their cotton in anticipation of a higher market.

Patriotism is on tap every hour in the twenty-four in Summerton and no community responds more loyally to duty's call in this time of supreme test for everyone to do his bit. When the government allotted \$23,400 as the amount of Second Liberty bonds to be sold here the citizens raised the bid of Uncle Sam by making the limit

\$26,800. At this time when the Y. M. C. A., will make special effort to collect funds to carry on its commendable work among the soldiers at the front and in the various camps Summerton can be depended to get there with a whirl. At the meeting held at the residence of J. Q. Mathis last Friday evening for the purpose of taking the preliminary steps towards organizing for next week's campaign Mayor W. H. Anderson, C. R. Touchberry, Prof. Cranford, Capt. J. A. James, Postmaster Ellison Capers, W. D. McClary, J. M. Plowden, J. E. Rowe, all of Summerton and Rev. E. M. Lightfoot, Charlton DuRant, J. K. Breedin and C. R. Sprout of Manning responded. The following committee was appointed to superintend the work and secure other workers in prosecuting the work throughout the county: J. M. Plowden, W. D. McClary, J. E. Rowe, and C. R. Touchberry.

Raised \$1,360 Sunday.

At the meeting held in the interest of the Y. M. C. A. war work in the High school auditorium Sunday afternoon there was a generous response from the large audience who displayed their loyalty to the cause by contributing \$1,360 in less than ten minutes. Charlton DuRant, of Manning, was made chairman of the meeting and interesting remarks relative to the Y. M. C. A. and the scope of the wide field of its labors and the vast amount of good accomplished towards preserving the morale of the army were made by War Secretaries of the Y. M. C. A., B. Rankin, of Camp Jackson; A. B. Coe, of Camp Green; Sergeant H. A. Query, Battery A., 317 Field Artillery, Camp Jackson, and Seaman Smith and Dillon. At this meeting W. D. McClary, R. C. Touchberry, Dr. Ellison Capers and Capt. J. A. James were appointed a committee in charge of J. M. Plowden to prosecute the work in all its details in this section.

In the evening Bert A. Powell, of Camp Jackson, addressed the colored people in the interests of the work, when \$225.00 was soon contributed to the cause.

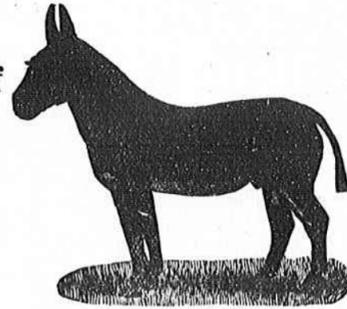

Oyster Supper for Visitors.

At the conclusion of the business session Friday evening, of those interested in the preliminary work for the Y. M. C. A. war fund, the visiting members were regaled by J. Q. Mathis with an oyster supper at his home. His guests were entertained in a most hospitable manner by Mine host Query which served a pleasant finale to the important business meeting of the evening.
