

**The Owners of
"Swift & Company"
(Now Over 22,000)**

Perhaps it has not occurred to you that you can participate in Swift & Company's profits,—and also share its risks,—by becoming a co-partner in the business? It is not a close corporation.

You can do this by buying Swift & Company shares, which are bought and sold on the Chicago and Boston stock exchanges.

There are now over 22,000 shareholders of Swift & Company, 3,500 of whom are employes of the Company. These 22,000 shareholders include 7,800 women.

Cash dividends have been paid regularly for thirty years. The rate at present is 8 per cent.

The capital stock is all of one kind, namely, common stock—there is no preferred stock, and this common stock represents actual values. There is no "water," nor have good will, trade marks, or patents been capitalized.

This statement is made solely for your information and not for the purpose of booming Swift & Company stock.

We welcome, however, live stock producers, retailers, and consumers as co-partners.

We particularly like to have for shareholders the people with whom we do business.

This leads to a better mutual understanding.

**CASLESS SUNDAYS SAVES
MUCH VALUABLE FUEL**

Sends Many Barrels to France
New York, Sept. 28.—Since the first "gasless Sunday," ten cargo boats carrying 500,000 barrels of gasoline, which otherwise could not have been shipped, have been sent to France from the United States, declared Mark L. Requa director of the oil division of the federal fuel administration, in an address here tonight before hundreds of manufacturers and engineers pledged to conserve coal and fuel oil to help win the war.

"Not less than 25,000,000 barrels of crude oil more than the United States consumed last year must be produced this year, a total of 365,000,000 barrels, or approximately 70 per cent of the world's entire output," Mr. Requa said.

"Every new destroyer will add to this amount; every airplane will use 30 gallons of gasoline per hour; every tank, motor truck and ambulance must have the products of petroleum and you must help in making these products available."

Government inspectors, it was said, will visit all plants at intervals to ascertain how efficiently coal and oil are being used. Plants will be classified as follows:

"Excellent, 90 to 100 per cent.; good, 80 to 90; fair, 70 to 80; poor, 60 to 70. Where inefficiency and waste of fuel is observed, negligent plants, it was announced, will be penalized by the priorities board by being permitted to obtain only as much fuel as they demonstrate they use scientifically."

LOTS PRISONERS AND GUNS

Taken by Gen. Allenby's Army in Palestine

London, Sept. 29.—Prisoners to the number of 50,000 and 325 guns had been counted by the British in Palestine Friday night according to an official communication issued tonight. Notwithstanding Turkish resistance in the region of Tiberias, the British forced further passages of the Jordan. To the south the British cavalry drove the enemy northward through Mezzeib and joined hands with the forces of the king of the Dedjes.

**FLORIDA STORM
CAUSES DAMAGE**

Hundreds of Thousands of Dollars Lost

Tampa, Fla., Sept. 28.—A storm which blew in from the Gulf about 2 o'clock this morning swept over the western coast of Florida for a distance of about 60 miles from St. Petersburg northward, doing damage that will reach into the hundreds of thousands of dollars. It is estimated the wind attained a velocity of 100 miles an hour.

At one point on the coast a good sized tramp steamer was swept into shallow water, but it was not damaged

to any great extent and probably will be refloated.

Reports from the various fruit ranches are that there is great damage to citrus fruits. One large concern reports 15,000 boxes of oranges and grape fruit blown from the trees in their groves alone. In some cases the high winds literally stripped the leaves from the fruit trees. The storm is the worst this section has experienced in 50 years.

At Tampa no damage was done, the each wind being 30 miles.

At Sutherland, considerable damage was done to the buildings of Southern College, a Methodist institution. No one was injured. Ed Anderson, whose cottage was blown from its foundation, tied his two children to the body of a large tree to keep the wind from blowing them away.

**DIXMUDE FALLS
TO THE BELGIANS**

King Albert's Troops Take Other Towns and Advance

London, Sept. 29.—Dixmude has been captured by the Belgian troops, it was officially announced tonight. The Belgians have also taken Errem (arren), Stratenburg, Passchendael, Moorsledge, and part of Westroosbeke. This means an advance of several miles.

"After breaking up a violent enemy counter attack the Belgians captured Terreest height and at the close of the day had advanced to within less than two miles of Roulers."

**AMERICAN GOT TEN
HUNS BEFORE HE DIED**

With the American Army Northwest of Verdun, Sept. 29.—American staff officers visiting a battlefield on this sector Saturday found a dead American soldier surrounded by ten Germans, whom he apparently had killed before being slain himself.

PLAN TO DESTROY MOSCOW

London, Sept. 29.—If the Bolsheviki are compelled to leave Moscow they will attempt to destroy the city and slaughter the bourgeoisie wholesale, declared Hans Vorst, in a letter to the Berlin Tageblatt. The German writer says he learns from authentic sources that the Bolsheviki have placed in the upper stories of high buildings every conceivable agency of destruction.

Innocent bourgeoisie hostages the letter adds, are being shot by the thousands.

**We Don't Have to Beg
For Customers!**

Some merchants are always pleading with the people to "give them a share of their patronage."

We never beg. We don't have to beg.

The people know that we have the goods, and they know that we make the price on those goods, and that is all they care a rap about.

They want goods, they want service, they want the right price, and they know that they get all of them here. That's why they keep on trading here year after year

That's the truth, and when the truth won't bear inspection in an ad it is time to quit advertising.

The right goods, at the right price, will always sell themselves. We have such goods.
