

WE WANT NEW BUSINESS

WE feel that we are better prepared now to supply our trade with just what they want than ever before. We have left nothing unturned to get a full line of each stock we handle.

We have spent years in this line of business. We have stuck to the job. We have not taken on more than we can properly care for. We study the markets, and we are more fortunate for our customers and fortunate for ourselves when we purchased last winter and spring all the goods we can hope to sell this season.

We have a full supply of Harness which we bought ten to twenty per cent lower than the same goods can be bought today for. We have any style to suit your requirements, and all we are asking is a reasonable, legitimate profit.

BUGGIES

We have our ware rooms full of buggies—we have any style you want and such lines as we have sold our customers for the past several years.

We guarantee every buggy we sell and satisfy you with every purchase. We do not feel that our responsibility ceases when the goods are delivered to you but we go with it and stand between you and the manufacturer until you think and we think that you have gotten your money's worth.

WAGONS

There is one word that tells you now about the wagon business than we could write you in words. There is one word that is as much guarantee to you as a gold bond deposit.

There is one word that satisfies hundreds of wagon users today. There is one word that causes you to load your team and disregard the capacity of your wagon. There is one word that guarantees satisfaction in every particular. That one word is "Thornhill" on the rear bolster of your wagon.

HORSES and MULES

Here is where we have spent years of work and study—we do not profess to know all about horses and mules but we do know more than the average man who goes into a mule pen and our years of experience is at your service. One of the chief pleasures in our business is giving a customer his money's worth in a horse or mule and sell him some thing that fills his particular needs. We have just unloaded into our pens as nice a bunch as ever shipped here. We have some nice size mules out of which we can fit you up with a single individual or a mated pair.

In our bunch of horses we have some of every kind. We have some nice fat horses and mares that will fill any place on the farm or road—then and there is where we will shine—we have five or six of that nice smooth Southern kind that delight you more and more each day you use him. These horses were properly handled when they were broke and it will be a pleasure to have such a one in your lot.

We are no strangers to the people of Clarendon. We run a business which has satisfied its customers for nearly half a century. We hope to continue such a policy for the next half a century. At our place you will find a lot of hitching room free, and two salesmen who will delight in showing you through what we have. We will always have our prices consistent with the quality of stock we offer you, and our terms reasonable.
