IN SIBERIA UNDER PACT WITH JAPAN

President Tells Senate Necessary to
Have Troops There

TO PROTECT THE RAILROAD

Promised Japan Forces Remain Till
Experts Operating the Road Are
Withdrawn.

Washington, July 25.—President Wilson informed the Senate today, in response to a resolution by Senator Johnson, Republican, of California, that the presence of American troops in Siberia was "a vital element" in the restoration and maintenance of traffic on the Siberian Railroad and that under the agreement with Japan they could be withdrawn only when the American railway experts operating the road were withdrawn.

The President said Siberia could be protected from a further period of chaos and anarchy only by keeping the railroad open, and that, lacking the prime essentials of life, the people were looking to the United States and the Allies for economic assistance. This already is being extended and additional supplies are to be sent forward.

Roving bands, having no connection

with any organized government in Russia, are menacing the railroad, the President said, and consequently its protection by the military is necessary. Americans troops, he said, are now engaged in guard duty at Vladivostok and around Verkhne, Udnisk; a small body is also at Harbin.

The original purposes of the American military expedition, Mr. Wilson wrote, are two-fold:

The saving of the Czecho-Slovak forces and the steadying of the efforts of the Russians at self-defense or the establishment of law and order, in which they might be willing to accept assistance.

Major Gen. Graves, commanding the expedition of 8,000 men, was specifically directed not to interfere in Russian affairs, the President said, but to support, wherever necessary, John H. Stevens, the American railway engineer, who is carrying out the work of rehabilitating the Siberian Railroad under the direction of the inter-Allied committee.

NOTED MEAT PACKER DEAD

Milwaukee, Wis., July 25.—Patrick Cudahy, president of the Cudahy Packing Company, of Cudahy, Wis., died suddenly this afternoon from an apoplectic stroke.

Mr. Cudahy rated a millionaire retired from active business in 1915, making his son, Michael, the executive head of his packing business. Later when his sons, Michael and John entered the war he again became the chief executive.

Mr. Cudahy was born in Ireland, in 1849. He came to this country when a lad and at the age of twelve embarked as an employee of a packing concern. In 1876 he became a partner of Plankinton and Armour, and in 1888 with his brother, John, bought the Plankinton interest and later established the Cudahy Packing Company. The death of Mr. Cudahy, brother of Edward A. Cudahy, president of the Cudahy Packing Company, one of the four great packing firms, of Chicago removed the third of the Cudahy brothers whose rise to great wealth and influence made one

of the real chapters of history of western business.

PLENTY OF SUGAR; NO NEED TO HOARD

Head of Board Declares No Reason
for it to Sell Over Eleven Cents
Pound.

New York, July 25.—The War Department has sold to the United States sugar equalization board 37,000,000 pounds of sugar, it was announced here today by George A. Zabriskie, president of the board, who declared there is "abundance" of raw sugar in the country, that retail prices should not exceed eleven cents a pound and that there is no need of hoarding.

The head of the Sugar Equalizing Board said profiteering dealers if reported may suffer revocation of their licenses for they are still under the control of the Federal Food Administration, who will not cease to function until the Senate signs the peace treaty. He charged the apparent shortage to speculative "exporters" and belated orders from canners and candy makers. Housewives were "hoarding" sugar unnecessarily, he said. New England having refined sugar stocks sufficient to last six months.

Sugar Abundant.

Sugar is abundant in the United States and if it were not for profiteers and nervous housewives encouraged to hoard it there would be enough for every legitimate demand and a thirty days reserve supply in addition, declared Mr. Zabriskie. "The chief factor in this apparent shortage which is temporary," he said, "has been the belated orders of big fruit canneries and confectionery factories which failed to anticipate their normal demands and held off ordering their sugar in the expectation that prices would be lower. They knew the refiners could not sell above the fixed price of nine cents."

"Another element that, as yet has not affected the situation, is the marine workers strike which we hope will be settled before the entire fleet of sugar ships is tied up in Atlantic and gulf ports. Meanwhile, we are reaching by radio at sea all the vessels possible and diverting them at Cuba to bring back raw sugar."
