could hold these goods over until next season, and cash in on the rise in the prices, but we won't do it. Our plan is to let every season take care of itself, and because we need the room for the enormous stock of winter goods, that our buyer is shipping in from New York every day, we are going to sell every Summer and Early Fall piece of Merchandise in our store at a Reduction in order to start clean when fall sets in.

Here is a partial list of the many Bargains we have for you, and remember the earlier you come, the better chance you have
