SENATE PASSES BILL FOR BUDGET

Action Taken Without Record Vote—Only Brief Debate—Measure Now Goes to House With Prompt Action There Indicated.

Washington, April 26.—Without a record vote, the senate late today passed the budget bill.

Brief debate preceded the final vote on the measure, which was introduced originally by Senator McCormick, Republican, Illinois, passed by both the senate and house during the 66th congress, vetoed by President Wilson and then repassed by the house with the sections found objectionable by the executive stricken out. The senate, however, failed to act on the measure after the president's veto. The measure as passed today now goes to the house, where prompt action has been promised.

The bill provides for a bureau of the budget in the treasury department to prepare the estimates of appropriations needed by the various departments. The bureau would have as its head a director of the budget, appointed by the president with the consent of the senate for a term of seven years with an annual salary of \$10,000.

The offices of the comptroller and assistant comptroller of the treasury would be abolished under the revised bill and in their stead offices of comptroller general and assistant comptroller general would be created. The measure approved today by the senate would permit their removal by joint congressional resolution, which requires the president's signature.

Efforts of democrats were directed toward scaling down the salaries of offices provided for in the bill. Senator Harrison, Democrat, Mississippi, objecting to the fixing of the salary of the assistant director of the budget at \$9,000 offered an amendment to reduce it to \$7,500, saying he was sure "some long, lean, lanky, hungry Republican would accept the office at that salary." Senator McCormick accepted the amendment and it was agreed to.

NOT LIABLE AT LAW

Washington, April 26.—Neither the government nor any individual office of the government could be liable at law for the erroneous inclusion of the name in the slacker draft lists prepared by the war department for publication, Attorney General Daugherty holds in an opinion today to Secretary Weeks.

Mr. Daugherty said the opinion did not pass on the question of the liability of newspapers for publishing names, but that he did not believe they could be held liable since the lists would be official ones previously published by the government.

The draft slacker lists have been prepared for some weeks, but their publication has been held up pending receipt of Mr. Daugherty's opinion by Secretary Weeks.

SOUR STOMACH INDIGESTION

Theodor's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.—The efficiency of Theodor's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver in its normal functions, and in cleansing the bowels of impurities.

Theodor's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Theodor's. R. H.
