Mr. J. L. Bridges went down to Wilmington to make arrangements with the railroad people to run an excursion to Wrightsville Beach under the auspices of the Methodist Sunday School. The date fixed for the excursion is June 9th.

Mr. H. K. Cottingham is making preparations to erect a neat brick building next to The Herald Office which will be used for a barber shop. It is Mr. Cottingham's purpose to equip his new shop with every modern convenience, including hot and cold baths.

Don't fail to read The Herald's great offer on another page. In addition to a valuable and useful present you get three leading papers for little more than the price of one. This offer is limited to a few days only. It is the opportunity of a life time to get more than your money's worth in good reading matter. Don't delay, but send in your remittance now.

As Mr. Davis was formerly connected with the Peoples Bank and has many friends in Dillon, by whom he is kindly remembered, the following from the Lamar correspondence of the Darlington Press will be of interest to Herald readers:

We are glad to announce that Mr. W. W. Davis, our efficient cashier, has decided to make Lamar his permanent home and will soon commence the erection of a handsome residence on Darlington street.

Dillon experienced one of its heaviest rainfalls of the present year Monday afternoon. The rain came down in torrents and in a short while ditches and drains were overflowing. The rain was accompanied by heavy thunder, lightning striking one of the electric light wires in front of The Herald office and then descending to the pavement in balls of fire which danced around for several moments like a jack of lantern on a jag and then disappeared into the gutter. The phenomenon was witnessed by several bystanders who hastily sought shelter in nearby buildings.

The newly elected trustees of the Dillon High School met at Mr. A. J. C. Cottingham's office Monday afternoon and went into permanent organization by electing A. B. Jordan chairman and A. J. C. Cottingham secretary and treasurer. The most important matter to come before the board was the election of teachers for the next scholastic year. There were a number of applications from out of town, but the school seems to have greatly prospered under the present administration and the entire faculty was unanimously re-elected. The financial condition of the school is excellent and the present term will close with a balance to the credit of the general fund.

The children of the Baptist Sunday school and a few invited guests from other denominations greatly enjoyed the picnic at Lake Waccamaw last Friday. The trip down to the Lake and back was delightful, the train leaving here about 8 o'clock and returning that night at the same hour. At Latta the excursionists were joined by quite a number of children and a few older ones who contributed no little to the pleasures of the day. There were no accidents of a serious nature to mar the pleasures of the day, although a young lady sprained her ankle severely while alighting from the train at the Lake and during the afternoon another young lady had the misfortune to fall from one of the piers projecting out over the water and involuntarily became a Baptist in so far as immersion is concerned, anyway. Fortunately the water was not very deep and she was quickly rescued without suffering any injury although she was badly frightened. Lake Waccamaw is an ideal place for a day's outing and the children al-

ready are looking forward with pleasure to the time when they can spend another day at this delightful resort. Everybody who went is indebted to Mr. W. A. Blizzard who looked after the excursionists and exhausted every effort to make the occasion such a grand success.

**"1892" Pure Aluminum Ware**

Will not Crack, Peel, Scale or Break

Cheapest because Best

Will last a Lifetime

ENR is the ideal kitchen and cooking utensil. "THE WARE THAT WEARS" - from Pure Aluminum and guaranteed by the makers to last 25 years with every use. "Spun" Aluminum, made from cast Aluminum, which will sometimes crack and scale. Spun Aluminum Ware will never crack, peel, scale or break.

Costs more than ordinary enamel ware, but many times cheaper in the long run, because of its wonderful durability and fuel saving. Enamel ware is iron coated with colored glass. Iron expands with heat. Colored glass does not, but chips off into the food with dangerous results to those who eat it.

That the use of enamel kitchen ware causes cancer is a view held by some eminent medical authorities. Dr. William H. Dickson, of New York, in a paper entitled "Observations on the Etiology of Cancer," read before the Bureau of Sanitary Science and Public Health during the session of the International Homeopathic Congress at Atlantic City, discussed this subject.

According to a special dispatch to the Philadelphia North American, Dr. Dickson's argument that cheap

of the hard dishes used in preparation of food is not only dangerous but dangerous to the stomach, where the cancerous growth is caused by abrasions which they make on the walls of the organ.

"1892" Pure Aluminum Ware saves doctors' bills. It enables you to bake bread, pies, pan cakes, etc., without grease, which is the great cause of dyspepsia and indigestion. Aluminum griddles require no grease; hence are smokeless and odorless.

"1892" Pure Aluminum Ware will not scorch or burn, is easily cleaned, will not rust or corrode. Handsome in appearance. Looks like silver, but weighs only about one-fourth as much, and is light and convenient to handle.

The original and only genuine Spun Aluminum Ware is made by the Illinois Pure Aluminum Co. at Lemont, Ill. Every piece bearing their trademark, the Maltese Cross, and marked "1892" Pure Aluminum Ware is absolutely pure, wholesome and hygienic, and guaranteed for 25 years.

See that you get the right goods and accept no substitute.

**Only a few of the "1892" Pure Aluminum Cooking Utensils are shown here. Complete line will be found at The Dillon Hardware Company.**
