MEMORY RETURNS AFTER LAPSE OF 25 YEARS.

Terre Haute, Ind. Aug. 11—Alexander Bell's memory has been restored to him after a lapse of 25 years. The man formerly lived in Tell City, Ind. A slight operation restored his memory.

Out in Haskell, Okla., the quiet routine of Mrs. A. R. Barr's life has been interrupted. She finds herself the wife of two men.

Twenty-five years ago Alexander Bell left Tell City, Ind., to visit his brother Ben Bell at Chattanooga, Tenn. Reaching Chattanooga, he found his brother had moved to his country home, so the visitor set out through the woods to seek him. Nothing was heard from that time until he returned here recently.

After Mr. Bell's disappearance his wife went on with their general merchandise business. Detectives in many states and the man's two sons searched the country for him. Mrs. Bell followed a daughter to Oklahoma, met Mr. Barr and married him.

Mr. Bell can remember nothing of his life for the past 25 years. Following a spinal adjustment, his memory returned and he began a search for his family which resulted in the finding of a son, Andrew Bell. Because of poor health, Mr. Bell has not been told of his wife's second marriage.

NEW RUMORS AFLOAT IN EDWIN WHITE MURDER CASE

Mullins Enterprise.

Ever since the confession of Archie Turner, two weeks ago, that he accidentally shot and killed Edwin White, various rumors have been floating around, but they fail to throw any true light on the perpetrator of the deed, as almost from the beginning Archie's statement has been discredited. Various circumstances make it clear to those who have watched the case that Archie was not the one who killed Edwin White but that others of his connection either killed the aged man or had him put out of the way.

The latest rumor heard on the streets yesterday in connection with the case, is that Tom Turner, the father of Archie has confessed to the officers that he assisted in making away with the body after the killing. Sheriff Rowell and Deputy Edwards are leaving no stone unturned in the matter and are said to be giving the prisoners some trying grillings in their effort to get at the truth.

FAIRMONT POSTOFFICE ROBBED

Yeggmen Blew Open Safe and Secured \$20,000 In Insured Mail to Bank of Fairmont.

Lumberton Robesonian.

Yeggmen robbed the postoffice at Fairmont Tuesday night and escaped with \$20,000 in currency and several hundred dollars worth of postage stamps. The money had been sent by insured mail to the Bank of Fairmont, reaching Fairmont on a late train. The money was in the postoffice safe. The robbers entered the building by prying the door open and the safe was blown open. The safe door was blown across the room and it is supposed nitro-glycerine was used by the yeggmen. The work looked like that of professionals.

The explosion caused several people to rush to the streets and when they started towards the postoffice building one of the robbers fired a pistol several times and ordered them to retreat. It is thought that there were at least three men connected with the robbery, which took place between 2 and 3 o'clock Wednesday morning.

The robbers drove a new Studebaker auto belonging to Mr. A. L. Jones about a mile out of town and abandoned it. It is thought they had another car. Mr. Jones' car was taken from his garage. Sheriff R. E. Lewis and Deputy Sheriff A. H. Prevatt went to Fairmont yesterday morning but found no clue as to the guilty parties.

SINGING CAUSE OF MAN'S DEATH

Young Boy Testifies Regarding Mike Corbett, a Farmer.

Springfield, Aug. 16—A coroner's jury returned a verdict holding that Mike Corbett, whose body was carried to Salley in an automobile yesterday by four men, came to his death by a wound on the back of his neck inflicted by Joe Huggins.

The dead body of Mike Corbett, a farmer 45 years old, who lives about six miles from here, was carried to the town of Salley yesterday afternoon in an automobile by Thos. Herron, Joe Huggins, and Rubin Schofield. The occupants of the car stated it is said, that they had found the body in the public road a few miles from Salley. Upon close questioning, it is stated, their stories conflicted and these three with a son of Thomas Herron, who was also in the automobile were placed in custody and separately questioned at an inquest held over the body by the coroner of Aiken County today.

The young Herron boy testified that they were all out riding in the car and that Huggins asked Corbett to stop singing, which he refused to do. Thereupon Huggins, it is said struck him on the back of the neck with a revolver and caused Corbett to fall over in the foot of the car. When he made no effort to resuscitate himself they examined him and found that he was dead. An examination revealed that Corbett's neck was broken and his skull fractured.

According to the testimony all the occupants of the car were under the influence of intoxicants. The jury found that Corbett came to his death by a wound on the back of the neck inflicted at the hands of Joe Huggins. Huggins, Herron and Schofield have been lodged in the Aiken jail. Mike Corbett leaves a widow and three children.

Cull the Early Molting Hen.

(Prepared by County Home Demonstration Agent.)

It is safe to say that fully 25 to 50 per cent of the hens which make up the farm flock of poultry do not lay enough eggs to pay for the feed they consume. Many hens are kept from 3 to 5 years on the farm, and such individuals are always a loss to their owner. By keeping the best layers and culling out the poor producers or boarding hens a greater profit will be derived from the flock. Feed bills can thus be reduced and the best layers kept for another season. Again, sufficient space will be provided for this year's young stock.

The hen that lays only a few eggs in the spring and early summer is usually a very early molter. That is she sheds her feathers anywhere from July to the middle of September. This is caused by the fact that she is a poor layer. She lays her clutch of eggs and then starts molting her feathers. The hen that is a good layer will start laying in the early spring and continue producing eggs during the hot summer months. She is so busy manufacturing eggs that she does not have time to shed her feathers and put on a new coat until late in the fall.

A hen that molts before the middle of September is a poor producer. She has probably laid from 60 to 80 eggs or hardly enough to pay for the food she has consumed. The hen that molts after the middle of September is usually a heavy layer and has doubtless produced 100 or more eggs before she has had time to begin molting. Late molters will also shed their feathers in a much shorter space of time than early molters.

So in order to save money and feed bills and make the poultry flocks one of the best paying branches of the farm, kill or market the early molting hen.

TO LIMIT COAL PRICES CHARGED CONSUMERS.

Washington, Aug. 17—Active steps to limit the prices charged consumers for coal in various parts of the country will be begun shortly by the Department of Justice, it was said tonight by officials of the department.

No attempt will be made to fix a price on coal, it was said, as the Attorney General can only act under the Lever act, but it was pointed out that by prosecution for violations of the law the price of coal can be kept within reasonable bounds.

LIGHTNING KILLS TWO AT RELIGIOUS MEETING.

La Porte, Ind., Aug. 11—If a bolt of lightning should come from heaven it would not find many in this congregation prepared, the Rev. Jno. Timber charged in a camp meeting sermon near here last night.

Hardly had he finished speaking when there was a flash. The tent was struck by lightning and Henry Lenz of Belvidere, Ill., and L. S. Huston of Wisconsin, his brother evangelists were instantly killed. Many of the congregation were stunned.
