SELF-RELIANCE GOES BANKRUPT. Thin Blood Saps Energy Gude's Pepto-Mangan Rebuilds the Blood. Wrestling with a weakened condition of the blood is a desperate struggle. Thin, watery blood deprives the body of energy and causes a played-out feeling not unlike utter exhaustion. A man with weak blood has not the full use of his powers. He lacks decision, and vacillates until he loses self-confidence. Some men, and women too, go faltering along for months scarcely realizing that they need Gude's Pepto-Mangan, the blood-builder. But when they have taken it for a while, what a difference there is in the feelings! The old-timer vigor and the red-blooded hue of good health return. The new rich blood gets to work, building, fortifying, lifting the spirit up to its normal standard. Physicians have prescribed Gude's Pepto-Mangan for years as a blood-builder. Druggists sell it in liquid and tablet form. Look for the name "Gude's Pepto-Mangan" on the package. - Adv. It.

# Making Extraordinary Mileage a Certainty

Car Owners want more rubber on the tread where the wear is hardest; more gum between cord plies to perfect a resilient and powerful carcass. And they want a scientifically constructed Non Skid tread with all angles and contacts to resist skidding and give sure traction. Firestone Cord Tires have met these demands of the car owners.

Read Letters Below—  
Records from 22,000 to 57,000 Miles

Cord Tires built the Firestone way could not fail to produce mileage. Every day, from all over the country, comes the word that 10,000, 20,000 or 30,000 miles are frequent and consistent records.

Now and then they are emphasized by unusual instances such as quoted below. Performances like these demonstrate the ultimate possibilities of Firestone Cords under careful driving.

Sept. 10, 1921  
Firestone Tire & Rubber Co., Jacksonville Branch, Jacksonville, Florida. Gentlemen:— I submit herewith the history of a 1924 Firestone Cord tire. This tire has run 27,000 miles. I have retreaded it seven times. The average mileage to each retread, including the original, was about 7,000. I think you will agree this is a remarkable record. It is especially unusual as I know the owner to be a severe driver. However, he gives his tire proper inflation. The tire in question is not yet out of service and has every indication of being sufficiently strong for another retread. I am mailing photographs under separate cover. C. L. Penney, Plant City, Fla.

Sept. 2, 1921  
The Harvey E. Mack Co., Thirteenth & Harrison Placen, Minneapolis. Gentlemen:— It occurs to me that you might be interested in the mileage that I obtained from the set of Firestone Cord tires on my Packard sedan. The first tire went over 22,000 miles. The second tire rolled up a mileage of 24,000 and 25,000. These were both car tires and had been cut considerably by curbs. The two front tires were better than 25,000 miles and are still in excellent condition. I traveled 19,000 at least 10,000 miles from each of them. I don't scarcely say that the Firestone Cord was my tire choice for the future. Archie H. Beard, 512 LaSalle Bldg., Minneapolis.
