

The Bamberg Herald.

ESTABLISHED MAY 1st, 1891.

A. W. KNIGHT, Editor.

RATES—\$1.00 per year; 50 cents for six months. Payable in advance. ADVERTISEMENTS—\$1.00 per inch for first insertion; 50c. for each subsequent insertion. Liberal contracts made for three, six, or twelve months. Want Notices one cent a word each insertion. Local Notices 5c. per line first week, 5c. afterwards. Tributes of Respect, 1c. must be paid for as regular advertising. COMMUNICATIONS—News letters or on subjects of general interest will be gladly welcomed. Those of a personal nature will not be published unless paid for.

THURSDAY, February 5, 1903.

Along the line of the fitness of a name might be mentioned the "Roosevelt Club," a social organization of negroes in Macon, Ga. Who will dare say hereafter that there's nothing in a name?

We are giving the legislature considerable advice these days. It doesn't cost anything, and the members are entirely welcome. They will find that some of it is good, too, when they go before the people for re-election two years hence.

Believing as we do that the creation of two more judicial circuits is a useless expense, we trust that the bill now before the legislature will not pass. We do not think the present judges are over worked, and to increase expenses at this time, when the finances of the State are in such a depleted condition, is not warranted by circumstances.

The ways and means committee of the house of representatives acted wisely in making an unfavorable report on the bill to appropriate \$30,000 for a State exhibit at the St. Louis Exposition. South Carolina has no money to spend on Expositions just now. It is likely that taxes will have to be increased to meet the current expenses of the State government.

A serious mistake will be made by the general assembly if the bill increasing scholarships in Winthrop College from \$44 to \$100 a year finally becomes law. As a general thing the parties getting these scholarships are able to pay their way, and putting the provision that they must be unable to attend college will amount to naught. One good feature of the bill is that preventing more than one scholarship going to one family. This should stand, and the scholarships paid back to the original amount, \$44.

We trust if the opportunity again presents itself that our representatives in the general assembly will vote for the bill giving magistrates jurisdiction in cases of larceny from the field, for we believe the farmers of this section want the law changed. As it now stands, these cases must be tried in the Circuit Court and it is often inconvenient to drive many miles to attend court, as well as getting together the witnesses. Then, too, it is often the case that a farmer has to stay in town several days waiting on the case to be called. If magistrates are given the power to try these cases the business of Circuit Courts will be lessened and much money saved.

Misleading Statements.

A writer in last week's Dorchester Eagle has the following to say in reference to a recent homicide in Bamberg:

"Mr. Editor, do you know that our governor has offered a big round hundred dollars reward for the apprehension of Tom Pearlstone? It is certainly a good inducement to effect his capture. It is a lamentable fact that Bamberg has added more to the list of murderers than any little town in the State, and not one of the murderers has been convicted. If Creech had gone to Pearlstone's home and shot him down the probability is that Creech would have been lynched or put in a prison. Because Pearlstone is rich and Creech is poor no one seems to care anything about it, and if Pearlstone is ever tried in the courts he will be acquitted, because human life is cheap and of little value, when compared with dollars and cents. The trend of events in the progressive march of the twentieth century fully demonstrates the fact that poverty is the worst of crimes. The rich man of to-day is crushing the poor man to death because he is poor."

We would not notice the above, for we do not desire a controversy, but there are some misstatements in the article, which, in justice to the good name of this county and its people, should be corrected.

The statement that "Bamberg has added more to the list of murderers than any little town in the State, and not one of the murderers has been convicted," is a serious error, and a statement so reaching in effect that the correspondent should have, in justice to our people, informed himself about before publishing it. It is lamentably true that murders have been committed in Bamberg county, as well as in other parts of the State, but the proportion is not greater than in other sections, and our court records show that some have been convicted. Some have escaped justice, more's the pity, but that not one has been convicted is decidedly wrong.

Neither would Creech have been lynched if the case had been reversed, as the correspondent would insinuate. Pearlstone is not a rich man, either, nor is his family here very well off financially.

This newspaper does not condone crime, and Bamberg's record is black enough without being added to. But it is no worse than that of other parts of South Carolina.

We trust that the Eagle's correspondent will hereafter take the trouble to inform himself as to the facts when writing about Bamberg.

DeWitt's Witch Hazel Salve.

The only positive cure for blind, bleeding, itching and protruding piles, cuts, sores, bruises, eczema and all abrasions of the skin. DeWitt's is the only Witch Hazel Salve that is made from the pure, unadulterated witch hazel—all others are counterfeit. DeWitt's Witch Hazel Salve is made to cure—counterfeits are made to sell. Bamberg Pharmacy.

"I understand the old phrase about 'marring and giving in marriage' is now considered obsolete in Gotham's swell set. How have they changed it?" "Why, they speak of 'marring and buying in marriage'—Brooklyn Eagle.

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time moistens and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of coughs, colds and croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. Bamberg Pharmacy.

Ehrhardt Etchings.

ENRHARDT, February 2.—"Jumbo Jam," the play to be given for the benefit of our Methodist church, has been postponed to Friday evening, March 13th. This play is a comic one, and always fetches continuous outbursts of laughter. Admission for adults will be 25c; children, 15c.

The Methodist church committee met last week, and what money was needed to finish paying Contractor L. A. Braham was raised by them. And the church has been turned over to the pastor, Rev. E. M. McKissick.

Matthew Stewart, our barber, has decided to return to Bamberg to work for Arthur Nimmons and be where his wife is. Prof. L. A. Bickle is on the sick list.

Ehrhardt Etchings, who held a public installation and banquet on last Wednesday evening. A large concourse of friends and relatives of the Ehrhardt Knights assembled in the spacious hall of Mr. J. Copeland. Our judge felt highly honored to have with them as installing officer Col. J. M. Knight, of Sumter, who is Grand Vice Chancellor of the State. After prayer by Rev. S. P. Chisolm, the following officers were installed: John J. Jany, president; A. C. Reynolds, vice-chancellor; L. L. Wilson, prelate; H. A. Kearse, master of work; G. L. Kinard, keeper of records and seal; and master of finance, W. P. Fats, master of excelsior. Our judge presided at arms; J. D. Padgett, inner guard; E. W. Burnett, outer guard. After the installation the audience was delightfully entertained by a speech on Pythianism by Col. J. M. Knight. At his conclusion the emblem moved in a body to the large empty store of Mr. G. L. Kinard, where the good lady friends were kept busy for a while opening baskets and spreading supper on the long counters. The emblem moved in a body to the large empty store of Mr. G. L. Kinard, where the good lady friends were kept busy for a while opening baskets and spreading supper on the long counters.

After supper Mr. A. C. Reynolds called upon Col. Knight to give a toast on "woman," and in his response he invoked much laughter, after which the Knights returned to the hall for the conferring of degrees. Mr. H. M. Van received the degree of Page, and the degree of Esquire was conferred on Messrs. G. B. Kearse, J. F. and E. P. Chassereau. At a late hour each returned to his respective home, but the partying had been well spent. Ehrhardt string band rendered music for the occasion.

Mr. F. M. Young, who has been conducting a general merchandise business here for several years past, has decided to move his store to Fairfax, where he already has his main store. Mr. Brook Ulmer and Mr. James Law, of Fairfax, have been here for several days taking stock and making preparations to move. Mr. S. W. Copeland, who has been manager of the Ehrhardt store, has accepted a position as book-keeper for J. M. Dannelly & Son.

Ehrhardt literary society met last Friday evening with Mr. and Mrs. H. C. Copeland. A large crowd was present, and after several recitations and readings: "Resolved, That the lien law should be done away with," was discussed on the affirmative by Mr. J. M. Dannelly and Prof. Francis Folk; on the negative by Mr. E. P. Chassereau and Mr. A. C. Reynolds. The judges, Mr. Ben Loadholt, Mr. Dave Dannelly, and Dr. J. L. Copeland, rendered their decision in favor of the negative. The next program will be rendered at the home of Misses Ruby and Marie Murchaugh on Friday evening, February 13th. The question for discussion is "Resolved, That the works of art are more pleasing to the eye than the works of art." GEORGE COLE.

Legislative Doings.

C. A. Woods, of Marion, was elected Associate Justice of the State Supreme Court Wednesday last week. The final ballot stood Woods 87; Robert Aldrich 67.

Wm. Elliott, Jr., of Columbia, was elected to the position to fill the vacancy caused by the resignation of W. H. Townsend, of Barnwell, who is now assistant attorney general.

The Marshall child labor bill has passed the Senate by a vote of 13 to 10. A bill has been introduced providing for two more judicial circuits. The bill changing the circuits makes the first circuit consist of the counties of Orangeburg, Bamberg, Colleton, and Dorchester. An unfavorable report has been made on the bill to appropriate \$30,000 for a State exhibit at the St. Louis Exposition. No doubt the bill will be killed.

In the election for Associate Justice of the State Supreme Court, Senator Mayfield voted for Robert Aldrich, of Barnwell. Representatives Black and Dowling voted for W. B. Gruber, of Colleton, on Tuesday, and after his name was withdrawn on Wednesday Dr. Black, of Richland, Mr. Dowling is not recorded in the papers as voting on Wednesday. Senator Mayfield voted for the Marshall child labor bill in the Senate.

A compulsory education bill, offered by Senator Mayfield, Bamberg, was passed the Senate. His bill provides for biennial sessions of the general assembly has also been passed by the Senate.

A bill against toy pistols has passed the Senate by a vote of 13 to 10.

The house has passed a commutation tax law, which provides that the county commissioners may fix an age for road duty, to fix the number of days, to be not less than three nor more than eight, and to also fix the tax, which shall not be less than one cent more than three dollars.

Dr. Black's bill providing for an additional magistrate in Bamberg county has passed the house.

The bill to take the dispensary profits away from the counties and give them to the schools has been killed by the house.

A bill providing for the repeal of the lien law was killed.

A bill to increase the scholarships in Winthrop college from \$44 to \$100 has passed the house. The bill provides that no member of any family shall complete and apply for a scholarship financially unable to attend the college.

The house has postponed a bill giving magistrates jurisdiction in cases of larceny from the field. These cases must now be tried in the courts, and some members of Bamberg's delegation were opposed to a change. The matter will no doubt come up again before the session is over.

A bill has passed the senate adding five per cent to taxes if not paid by December 31st, and after March 31st, executions shall be issued. This is much simpler than the present law.

The bill authorizing an election on the question of issuing bonds of \$14,000 for the purpose of erecting a new graded school building at Bamberg has passed the house. It was introduced by Representative Dowling. In order to make the issue a legal one, another election will have to be held.

A bill authorizing the sale of the State farms, so that the convicts could be put on the public highways, has been reported unfavorable.

Senator Mayfield has introduced a bill amending an act relating to road work in Bamberg county.

Points on Lawn Making.

A rich soil is one of the essentials to success. No matter what the extent of lawn, it should be evenly moist and well drained. The general slope should be away from the residence on all sides. Seeding the lawn yields better results than sodding. Kentucky blue grass is the most satisfactory known seed for the majority of locations, but in the South, Bermuda grass, St. Lucia and Texas blue grass are extensively employed. April is a good time in the North, to sow, because the ground is usually light showers. The ground should be raked as nearly perfect as possible before sowing. Best results are obtained by sowing thickly. Four bushels to the acre is the usual allowance, but in a small plot double the proportion may be used to advantage. After sowing work should be done till the grass is above three inches in height, and should be cut about once a week during the first Summer. Avoid clipping at all soon before frost is expected.—From The Delinquent for March.

Wofford College Notes.

WOFFORD COLLEGE, SPRIETANBURG, Feb. 2.—Dr. DeMotte has delivered his lecture on "The History of the Eye" and gone from among us. On last Thursday evening at the Converse auditorium many people gathered to hear, for the second time, Mr. DeMotte on this same subject. The impressive manner in which he made each one desire to hear more of the things about which he talked. His lecture was finely illustrated. On the morning preceding the night of the lecture, the Wofford boys had the pleasure of hearing Dr. DeMotte speak for about a half hour in the college chapel.

The first session has ended. We have passed the first milestone of the collegiate year of 1902-1903. It is not without pleasure that we look upon the happenings of the past term. It certainly marks the beginning of a new era in the history of Wofford College. Events in several phases of college life have happened and all for the advancement of our institution. With the opening of college in September last began the administration of a new president. With that, the putting on of new things was begun. Let us now look at some of the things that have happened.

Instead of the old chapel with its dim gas lights, with its old hard benches, with its very poor heating apparatus, we have one of the finest and most up-to-date auditoriums in the State. The new building, with its handsome new pews, and a steam heating apparatus. The two society halls are being improved in many ways. New chandeliers and opera chairs, together with new ceiling and carpet, will make these two halls well worth noticing when one visits the college. The library, with nearly twelve thousand volumes, is being added to quite often by gifts from friends and alumni. Perhaps the chief event which will render the past session so memorable in the history of the college is the giving of the new science hall to the institution by Mr. John B. Cleveland. The fine knoll, just in front of the college building, will be the site of the new building, which will be a suitable place as it faces the street which runs in front of the gymnasium, thus making quite an attractive appearance as one approaches the campus.

Another phase of college life was far from lacking behind in the Athletic Association. With one thousand dollars in hand, given by enthusiastic men of the town, the whole athletic field is being made new. So not only will Wofford have one of the finest tracks in the State, but also one of the very best fields in this section of the country. Our fast team on our fast diamond will go to show to any team coming here that the old gold and black is still a tough proposition, even though she has never been beaten.

Mr. W. W. Boyd was elected assistant manager of the base ball team and Mr. W. L. Glaze captain of the tennis tournament at a meeting of the athletic association on last Saturday.

There will be several events of interest here during the next few weeks. On February 13th Mr. Ernest Ston Thompson will lecture in the chapel; this will be the first public affair to be held in the college building since the improvements have been made. On the 16th the annual oratorical contest will take place. The following young men will contest for the medal: S. M. Davison, C. L. Smith, J. I. Crum, E. K. Hardin, W. E. Green, D. E. Carmack. The orator who wins in this contest will represent the college in the State oratorical contest to be held later in the year. No doubt, as a result of the contest, the boys will put forth their best efforts and we are all looking forward to something good. The 23rd will witness the anniversary exercises held by the two societies. The two speakers will be Mr. T. C. Ross of the Culpeper section and Mr. T. D. Thompson, of the Preston society.

The following speakers have been elected to serve on the Junior debate which takes place during commencement week: Messrs. W. J. P. Lane, Calhoun, Messrs. E. K. Hardin and C. T. Smith, Prestons.

Revival services are being held in the Y. M. C. A. hall every evening. Revs. J. G. Orr, pastor of the First Baptist Church, and M. L. Banks, pastor Duncan Methodist church in this city, are conducting the services.

Vaccination is the fad these days. There is no immunizing agent on the market that is more effective than the vaccination being taken as a safeguard against small pox.

Mr. J. S. Calhoun, '02, who is working in the insurance business in this city, was on the campus several days ago. He has a square of land on the campus, and he is practicing in the gymnasium on account of the work being done on the ball field. The field will be in such a condition in a few weeks that the team will be able to take their practice there instead of in the gymnasium.

Jonathan Brown's Latest Experience.

ENTOR THE BAMBERG HERALD—[I saw a woman in this predicament in the world. I had a site of trouble since I write you concerning that Kerival. Last Wednesday nite I came in from her lot with a seminating man in one of her dresses. I was in a hurry and that it was the rummicks' what give me the misery 'long side o' my shoulder blade. I never took no notice of what she said or what she was setting up to do. After awhile she cum in and says she: "Jonathan hurry and get the peddle in your hand that misery in yo' back in a half minute." Well sir, I has played her fool a few times in my life and that was one of them times I got to bed and arter I was in bed I was thinking of her comfortable fix with my face thro'ed agin her wall I got kinder easy and Fredonia she cum a tripping in and sed she: "Now honey you will soon be well." "Pears to me I drapped out in the dose of medicine I was taking." I was turning a double summerset over the foot of her bed and ayelling fire! fire! My back bone was a drawing I'tself clean through my body and a tying I'tself in a bow around my neck. "Fredonia what is the name of Jonah's whale is this er blame machine hung to my back?" And the more I pull ther wusser growed the tyer progress. "Oh Jonathan wate, I will take it off." and with that she cum up to me and reached round and give a jerk what made me yell a leetle louder. But sir she tuck it off and that was notin' but one o' them drinking and smoking Cockran gin us for a while in present.

"Fredonia" sed I in a solemn voice, "splain this er devilment you fixed up on me." "Why Jonathan I just cupped yo' back to cure that er rummicks in yo' hand and I tuck off her lie poltice I will cum up to Bamberg."

I was well pleased with the News and Courier you sent me with ther Herald. No news of intrust.

Punkin Ridge. JONATHAN BROWN.

A good story is told of one of the campaigns of Charles W. Thompson, a new congressman from Alabama, on a train one day toward a town where he was to speak that evening, and met his Populist rival, who was also on a stopping tour. They had such an animated discussion that the Populist, moving the bowels gently, yet effectively, and giving such tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These facts are well illustrated by a decided tonic effect upon the organs involved, and if their use is continued for a few days there will be no return of the trouble. Bamberg Pharmacy.

"Brooks," said Rivers, "second time you've used the term 'aching void.' How can a void ache?" "Well," said Brooks reflectively, "not to speak of a hollow tooth, don't you sometimes have a headache?"

You Know What You Are Taking. When you take Grove's Tasteless Chill Tonic because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure, no pay. Price 50c.

When you feel blue and that everything goes wrong, take a dose of Chamberlain's Stomach and Liver Tablets. They will cleanse and invigorate your stomach, purify your bowels, give you a relish for your food and make you feel that in this old world is a good place to live. For sale by Bamberg Pharmacy.

The Cotton Market. Cotton is worth 84 cents the pound in Bamberg to-day. Receipts very light.

The Little Easy Pill. DeWitt's Little Easy Risers do not gripe nor weaken the system. They cure biliousness, jaundice, constipation and are relieved by when the secretions are moving the bowels gently, yet effectively, and giving such tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These facts are well illustrated by a decided tonic effect upon the organs involved, and if their use is continued for a few days there will be no return of the trouble. Bamberg Pharmacy.

The best physic. "Once tried and you will always use Chamberlain's Stomach and Liver Tablets," says William A. Girard, Pease, Vt. These Tablets are the most prompt, most pleasant and most reliable medicine in use. For sale by Bamberg Pharmacy.

A Weak Stomach

causes a weak body and invites disease. Kodol Dyspepsia Cure cures and strengthens the stomach. "The history of my own disease, J. B. Taylor, a prominent merchant of Christman, Tex., says: 'I could not eat because of a weak stomach. I lost all strength and run down in weight. The physician made me feel that all hope of recovery vanished. Hearing of some wonderful cures effected by use of Kodol, I concluded to try it. The first bottle benefited me, and after taking four bottles, I was fully restored to my usual strength, weight and health.' Bamberg Pharmacy.

Plain Speaking.

The Gaffney Ledger, edited by E. H. DeCamp, certainly uses plain language in discussing the killing of N. G. Gonzales by J. H. Tillman. In his last issue he says:

"The coroner's inquest over the body of the late N. G. Gonzales disclosed the fact that he was in the arduous passing of Tillman. If ever a man was guilty of murder, surely Jim Tillman is guilty. It's a lamentable state of affairs when such a crime can be committed by a criminal who has broken almost every law of his State and yet go unpunished. If Jim Tillman had been where he belonged for past misdeeds he would not have had the opportunity to take this life. The fact that he escaped punishment gave him the means to commit crime. Instead of presiding over the South Carolina senate he should have been presiding over a rock pile with a hammer. And yet with public approval he has committed this heinous deed, with the facts before them of his previous misdeeds, and a press, pulpit and people united in their demands that justice be meted out, the lawyers, men sworn to uphold the law, will probably manage to find a jury of 'honour' men—God save the thought—that will turn this hydra-headed monster loose upon a suffering people. And they call this law and justice! It's bosh! Bosh!! Bosh!!!"

Escaped an Awful Fate. Mrs. H. Haggins of Melbourne, Fla., writes, "My doctor told me I had consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to the New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by Bamberg Pharmacy; H. C. Rice, of Denmark. Price 50c & \$1. Trial bottles free.

Rylands who had purchased a new horse wanted to be quiet to ride and in harness, and a good trotter to boot, had invited a friend to accompany him for a trial drive. They had not gone far when the horse bolted and ran against a heap of stones lying in the road, and pitched both occupants violently into the lane. When they recovered, the horse had disappeared leaving the buggy shabby and a heap of wreckage.

Rylands began to roar. "What on earth are you laughing at?" dejectedly inquired the friend. "Why, the fellow who sold me that horse lent me the buggy."—New York Times.

Better Than Gold. "I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters which did me more good than all the medicine I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand and reliable invigorant for weak run-down women. No other medicine can take its place in our family."—New York Times.

MR. ALFRED BROWN, A Prominent and Popular Citizen, Says: "After the Use of Paine's Celery Compound, I Am Now in the Best of Health."

The greatest of modern physicians, Prof. Edward E. Phelps, M. D., L. D., of New York, says: "I have used Paine's Celery Compound for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this compound. My horse bolted and ran Mich. For sale by Bamberg Pharmacy."

Rescued from Suffering and Death by PAINE'S Celery Compound THE GREAT MEDICINE.

MR. ALFRED BROWN, A Prominent and Popular Citizen, Says: "After the Use of Paine's Celery Compound, I Am Now in the Best of Health."

A newspaper in Ohio recently brought suit against forty-three men who would not pay their subscriptions, and obtained judgment in each case for the amount of each claim. Of these 28 made affidavits that they owned no more than the law allowed, thus preventing attachment. Then, under the decision of the supreme court, they were arrested for petit larceny and bound over in the sum of \$300 each. It is a square deal, which is the only practice in the gymnasium on account of the work being done on the ball field. The field will be in such a condition in a few weeks that the team will be able to take their practice there instead of in the gymnasium.

Take Laxative Bromo Quinine Tablets. All druggists sell them, or write for them to C. W. Grove's signature is on each box. 25c.

"Cleanliness can do you no harm," said the house-wife. "I washed that mat, ma'am," returned the dusty wayfarer. "Did you ever lose anything by it?" "Yes, mum; I was 'tattooed man' in a circus one time 'an' when dey made me take off all de figures came off 'n' I lost my job."

Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the cure of disease, and the best prevention is to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proved in a case of pneumonia in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a cold, and if the cold is not cured, it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Buy Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by Bamberg Pharmacy.

"Brooks," said Rivers, "second time you've used the term 'aching void.' How can a void ache?" "Well," said Brooks reflectively, "not to speak of a hollow tooth, don't you sometimes have a headache?"
