

Barn Paint

is as necessary to the proper protection of the barn and out buildings, as house paint is to the house. Although the barn may be built of coarser lumber and less expensive material throughout, it deserves to be painted, and should be if you want to increase the life of the wood.

THE SHERWIN-WILLIAMS CREOSOTE PAINT is made especially for use on barns, fences, roofs, and all buildings built of rough or coarse lumber. It contains "creosote", a disinfectant that prevents decay. It is good paint at a moderate cost. Get color cards and prices.
