DELEGATES RELEASED

CANDIDATES IN ILLINOIS TRY TO GET TOGETHER.

NO RESULT YET

The Sixty-Eighth Ballot Was Taken. Showing No Material Change.—Convention Then Adjourned Until Afternoon.

Springfield, Ill., June 2.—Before the Republican state convention met today the committee on resolutions unanimously voted to report favorably a resolution releasing the delegates from their instructions. The motion was aided by a Yates representative, and Densen's representative voted not to oppose the resolution. This means its adoption by the convention.

The Yates men held a meeting before the convention met at which Governor Yates offered to release all the delegates pledged to him. The delegates, however, refused to be released. After the convention opened Lowden addressed the gathering releasing his delegates. He was followed by Yates releasing his delegates.

Joseph Pierce then spoke a few minutes, releasing his delegations, when John Parker, originator of the resolution, took the floor. Joseph G. Cannon, chairman of the convention, then asked for five minutes, which was accorded with cheers, Congressman Rosenberg taking the chair. When he had finished speaking the sixty-seventh ballot was taken. This ballot showed practically no change in the standing of conditions.

After taking the 68th ballot which was without change, the convention adjourned till afternoon.

ATTEMPTED TO ESCAPE.

Two Military Prisoners Make a Run and One is Killed.

Minneapolis, Minn., June 2.—Two military prisoners at Fort Snelling made an attempt to escape today, and one of them named Wisch was shot dead. Wisch who had seven times been convicted of violation of the rules, belonged to the field artillery. Along with private Reilly who is awaiting trial for desertion, he was employed in cleaning up the grounds under charge of Guard Kennedy. Suddenly the pair attacked the guard who succeeded in beating them off. Then they made a break for liberty. Kennedy shot and killed Wisch. Reilly was recaptured unhurt.

A SOMNAMBULIST

Modie Rainbolt Walks Out The Third Story of the Court House.

L. Modie Rainbolt had a very unhappy experience last night, and he can thank his lucky star that he is alive today. While asleep he walked or jumped out of one of the windows of his sleeping apartment in the court house in the third story above the jail. The window is about twenty feet from the ground. He landed on top of the enclosure around the jail and fell on the outside of same, striking his face and badly bruising his mouth and nose. But this did not awaken the somnambulist. He ran through the court house to Main street and was stopped by a young man opposite the Shelby hotel.

J. H. Hogan was sleeping in the room with Rainbolt and heard him yell, but Hogan was not awakened in time to prevent Rainbolt from jumping, as he was already on the window sill when he shouted. Hogan rushed to the window and saw Rain-

bolt standing on the ground. He yelled at him, but this did not stop the sleep-walker. Shortly after he was stopped on Main street Hogan arrived on the scene and Rainbolt came to himself. He bled profusely from the wounds on his face, and there were splashes of blood from the court house to the Shelby. He was taken to the home of his brother-in-law, Sheriff Fred Higgins, and a physician called to dress his wounds. He is not seriously injured.

The accident occurred about two o'clock this morning. Rainbolt does not remember a thing that occurred between the time he retired and the time he was awakened on Main street. One of his feet had several splinters in it, and this gave rise to the idea that he first struck on top of the board enclosure which is ten feet in height. The enclosure is ten or twelve feet from the jail building, and had he fallen on the inside he would probably have been devoured by the vicious bulldogs that the Sheriff keeps inside the fence to help guard the jail.

NATIVES EXCITED

FEAR PERMANENT OCCUPATION OF MOROCCO BY FOREIGNERS.

SEVERE STORMS

St. Louis Struck by Severe Storm To-Day.—Much Damage Done.—A Tornado Injures Many People in a Nebraska Town.

Tangier, Morocco, June 2.—The Italian third class cruiser Dogali arrived here today. A delegation of the chiefs of the Angeria tribe left here to make a personal appeal to Raissali, the bandit chief, to release Perdicaris and Varley, "in order to prevent the debarkation and permanent occupation of Morocco by foreigners opposed to the Moslem faith, and the expulsion of native Mohammedans." This mission is considered important as the Mohammedan chiefs unite in appealing to Raissali not to endanger their religious supremacy in Morocco. The French government relies much upon the appeal to Mohammedan sentiment. The natives are greatly excited at the arrival of so many foreign warships. They call the foreigners "Roumis," meaning infidels, and they fear the "Roumis" are about to make a united effort to drive out those of Mohammedan faith.

As a part of this plan reports of the nineteen national councils will be given. The special subject of the third evening, peace and arbitration, will be discussed in three formal addresses by Lady Aberdeen in English, by Baroness Von Suttner in German and by a French speaker in her own language.

The second week will be given over to the popular gathering. It will be divided into four sections for discussions under the heads of "Women's education and higher culture, women in social aims and institutions, women's professions and industries, and the legal and political position of women."

HEAVY LOSSES

A RUSSIAN FROM PORT ARTHUR PLACES JAPANESE LOSS HIGH.

A BETTER FEELING

Russia and England Settle the Russo-Canadian Fishery Dispute.—Result is Welcomed in Russia.—United States the Chief Loser.

St. Petersburg, June 2.—Lieutenant Colonel Gourko has succeeded in escaping from the Japanese on Liao Tung peninsula and has reached Russian headquarters at Mukden from Port Arthur. He was the bearer of important information regarding the fighting at Kinchou and the situation at Port Arthur. A long dispatch is now being deciphered at the war office. All the reports received at Gen. Kutropetkin's headquarters from the Kwang Tung peninsula are increasing the extent of the Japanese losses at Kinchou, one today making the number 20,000 men. Accurate reports of the Russian losses as well as of the strength of the Russian forces engaged were probably brought by Lieut. Col. Gourko to Mukden.

St. Petersburg, June 2.—A semi-official dispatch from Mukden dated today says the Russian losses at the battle of Kinchou May 26th were thirty officers and 800 men killed and wounded. The guns abandoned by the Russians were rendered useless.

The comment here on the settlement of the Russo-Canadian fishery dispute is very significant. The agreement is welcomed by the Russian press as evidence of the increasing probability of an Anglo-Russian alliance, the papers pointing out that public opinion in Great Britain, France and Russia is becoming more favorable, the war instead of proving an obstacle to the alliance serving as one of the arguments in its favor. More significant still is the strong intimation of Novosti foreshadowing that a commercial treaty between the two countries will pave the way to a purely commercial rapprochement. Although impossible to ascertain at this time whether the question of such a commercial treaty has actually been taken up, the possibility of its being the next step in the program toward a political agreement arouses the keenest interest in diplomatic circles where it is considered fraught with most far reaching importance. The United States will probably be the chief loser by such a treaty.

London, June 2.—Earl Percy, under secretary of state for foreign affairs, replying to a question in the house of commons today, said that no representations have been made to Russia or Japan in regard to placing mines in the far east outside of territorial limits. The subject, he said was engaging the careful attention of the government. Being asked if in view of the increased range of projectiles the government was prepared to recognize any extension of the three mile limit, Earl Percy answered in the negative.

Dashico, (on the railroad between Hau Chong and Kai Chou) Wednesday, June 1.—The Japanese outposts are now three miles from Vafangow. There is no news from Port Arthur. The Japanese are stopping Chinese runners and searching junks.
