It is a great convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good liniment and one that is fast becoming a favorite if not a household necessity, is Chamberlain's Pain Balm. By applying it promptly to a cut, bruise or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a sprain may be treated before inflammation sets in, which insures a quick recovery. For sale by all druggists.

Wreck Caused by a Washout.

The cause of the wreck Friday night down the road was a washout near Florence. Dad Archer was the

engineer, and he saw that the track was washed out when he was ninety feet from it. He immediately applied the air brakes, but it was down grade and the train ran into the washout which was about fifteen feet in length and the engine toppled over in the mud and was followed by the tender. Harry Davison, the fireman, jumped, but Archer started with the engine until she started to fall over. Then he also jumped, landing in the mud on his head and having his wrist badly sprained.
