

Cement Walks and Water Works.

To the Editor of The Record: In a recent issue I saw a communication from J. X. Dunn expressing his views in regard to city improvements. Now this is the proper thing for many of us to do, at this time, and as you are so generous as to give us space in your paper at no cost to us, we surely ought to avail ourselves of the opportunity. Now as to the cement walk extension. Mr. Dunn is correct, according to my view. We are at or near the stage when it will demand good judgment in ordering new walks, for the more remote from the business center the less value, and one party is likely to own much more ground, and the walks cost just the same per foot. For instance, on Military Hill, I know of three widows who will have to pay for one hundred feet or more, each of them, and the properties are neither one occupied by the owner, and all for sale at cost or less. Now, I would say to those that may have to do with the ordering of walks in the future, consider well the conditions, and to relieve the Mayor and Council of all responsibility, I would suggest that when a majority of the property holders in a block petition the council for a walk, order it in.

Now as to the water works question. It is high time, if we need and must have water works, that the advantages and importance of a good water system should be talked up as I have five hundred gallons per minute, more than I can use; but I know full well that the city must have a water plant, and now seems to be the time to get it on favorable terms. Now I would like to hear from others on these important questions. Respectfully,

of Ague and Malaria, can be relieved and cured with Electric Bitters. This is a pure tonic medicine; of especial benefit to malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to quinine having none of this drug's bad after effects. E. S. Mundy, of Henrietta, Texas writes: "My brother was very low with malarial fever and jaundice till he took Electric Bitters, which saved his life. A Grim Tragedy.

is daily enacted in thousands of homes, as Death claims, in each one another victim of Consumption or Pneumonia. But when Coughs and colds are properly treated, the tragedy is averted. F. G. Humtley, of Okla. Ind., writes: "My wife had the consumption and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, coughs and colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and \$1.00 by Roswell Drug & Jewelry Company.

Salvation Army Enlarges Plans as to Their Building—New Roofing House to be Erected.

During the recent visit of the commanding officers of the Salvation Army a deal was closed by which the army has sold its lot at the corner of Pecos Avenue and Fourth street to Mrs. Smith, who will erect a large rooming house there. The price paid was \$1,250. With this sum, the army will have more than enough to clear the indebtedness against their lot at the corner of Pecos and Second, and on this they expect to begin work on their hall as soon as the deal is returned from Army headquarters. Adjutant Woodward now has under consideration plans to enlarge the building materially from the size originally intended and include in its complement a Y. M. C. A. feature in the shape of gymnasium, bath, etc. This part of the hall, it is argued, would contribute to help in the support of the place. This plan is not decided upon however.
