Teddy R. and Gifford P. may yet stir up quite a fuss.

T. Roosevelt evidently believes that when in Rome you should make the Romans sit up and take notice.

Today is base ball day all over the country, inaugurating as it does the season for the great American game.

Democrats yesterday all over the country gathered renewed strength and loyalty through the celebration of Jefferson's birthday.

"They waved the black flag over the land as others had over the sea," seems to just about sum up the career of the Standard Oil trust.

After years of "trust-busting," please tell us what trust has been busted? Shouldn't we call it trust-coddling and people-coddling?

The incoming council will have a number of very knotty questions passed up to it for disposal. One of these is the Main Street sidewalks matter.

About the next pop out of the box old Jupiter Pluvius should do something for Roswell. It has rained all around us, and it seems now to be up to the old deity.

Over Pinos Altos, this territory, a lot of century-old corn was dug out of some of the ancient dwellings, and when planted it bore a crop, producing blue and white corn.

After some years the committee of inquiry into the shooting up of Brownsville, Texas, has rendered its report, finding that the negro troops were responsible.

It looks worse for Dr. Cook. The explorers who have just ascended Mount McKinley, which Cook claimed to have climbed, used Cook's records

CATTLE SANITARY BOARD WORKS FOR BETTER STOCK.

Albuquerque, April 13.—With its tuberculin test of all milch-cows in New Mexico practically completed; with its campaign against glanders successful and with its other sanitary measures moving smoothly and effectively, the New Mexico cattle sanitary board met yesterday in a two day's session to consider the perfecting of its measures of precaution against contagious diseases. The program to be followed out during the coming season on the range has not been fully outlined as yet, but will be complete today. With the aid of the government bureau of animal industry the board has been able to make a complete inspection of every milch-cow in New Mexico. The tuberculin test has been carefully applied and as a result some thirty diseased dairy cows have been slaughtered. This is considered a very fine showing of good health.

The board is going to carry its sanitation campaign more forcibly than ever onto the range during the coming season. It hopes within a short season to have New Mexico, already in a fair condition, entirely free from contagious diseases, so far as the jurisdiction of the board is concerned. "The business of the board is growing rapidly," said one of the members yesterday, "and we are finding more and more work on our hands. As the population increases and the range congests, we find more and more of the work of actual sanitation and it is becoming no small burden to look after the welfare of the industry. Yet the board is doing very well."

"The general conditions of the industry is good. We have had two very dry years, but this season promises to give us plenty of rain, and while the rain will bring more settlers and further congestion of the range, we must look for that. In fact we expect and look forward to it. It will reduce the size of the herds. It will also improve the grade of the stock. Cattlemen generally have no reason to complain. The recent advance in cattle prices has brought plenty of money into the hands of the growers. Recent tightening of the money market has cut out the speculative features of the market and the grower who sells now is getting the worth of his cattle—and is getting a very good price at that."

The board will continue in session today. There were present: President Charles L. Ballard of Roswell; Secretary E. G. Austin, W. H. Jack, of Silver City, W. C. McDonald of Carrizozo, W. L. Cox of Dona Ana county.

WORKING ON THE MOORE MURDER CASE AT CARLSBAD.
 Carlsbad, April 13.—The jury has been selected and the territory has been given in about half of its testimony in the case in which Moore Brothers are charged with the murder of a neighboring claimholder, all the parties in which formerly lived on the plains east of Carlsbad. The case will probably go to the jury by Saturday, at the latest.

CLARK WRITES IN INTEREST OF PUBLIC SCHOOLS.

To County Superintendents, City Superintendents, Town Principals, School Officers and Teachers:
 We write to urge that every means may be used to make the lecture of Hon. H. R. Pattengill in your city FREE. His addresses are full of inspiration and practical common sense. The largest hall available should be packed in every place by all persons between the ages of 7 and 100 years. Every one will get good from the lecture. Raise money by school entertainments, by socials, by subscriptions to avoid charging admission. Advertise the meeting and invite every body to come. The added interest in school matters will mean much to you and to your work.

Teachers should make every effort to be present at the places of meeting. Boards of School Directors may undoubtedly feel sure of the consent of the county superintendent in allowing teachers to be absent from the school rooms for a day or two, if necessary, to attend these meetings. City Superintendents and boards of education should lend their support in this campaign for the sake of educational inspiration. The patrons of the school will be found ready to respond to genuine enthusiasm.

This Educational Campaign now in progress is intended to give renewed impetus to the interest which was awakened a few years ago in our public schools. The appeal being made at present is to the teacher, the school officer, and chiefly to parents and guardians having control of children of school age. To the teacher that she may fit herself during the coming summer for more efficient work next year; to the school officer that he may plan intelligently and patriotically to execute the duties of his office, to the parents and guardians that they may feel the immeasurable importance of education for their children. What will such co-operation mean to the future of New Mexico? It is hard to tell. Statehood may lie in the near or in the distant future, but it will surely be hastened by the interest of the people in education. Let us then, as educators, furnish this as our argument for admission to the Union as a state, that our people are in earnest in their efforts to give every child a fair chance for a common school training.

Please note the places and date of the "Educational Itinerary" as follows:
 Las Vegas, April 17th and 18th, Wagon Mound April 19th and 20th, Albuquerque April 21st and 22nd, Bernillo, April 21st; Belen, April 23rd; Clovis, April 24th and 25th; Portales, April 26th and 27th; Roswell April 27th and 28th; Carlsbad, April 29th; Carrizozo, May 1st and 2nd; Alamogordo May 2nd and 3rd.

Yours very respectfully,
 J. E. Clark,
 Territorial Supt. of Public Instruction

MEXICAN CATTLE COMING INTO THE UNITED STATES.

El Paso, Tex., April 11.—During this month 75,000 head of cattle, paying about \$225,000 in duties, will be entered through this port from Mexico, as the movement is already going on. These are cattle from the State of Chihuahua. It is stated by the customs officers that only one ranch in the State of Coahuila can ship cattle into this country, and that it has been seven years since it has been able to make a shipment on account of the quarantine.

HALLEY'S COMET MORE BRILLIANT THAN OTHERS.

Dallas, Tex., April 13.—"Halley's comet, as I saw it from Dallas last week, is even now larger than the maverick comet, which was visible recently." Prof. George W. Coley said yesterday. "About 5:30 a. m. I have watched Halley's comet for as long as eight minutes, until the dawning of day made it invisible. To me it appears to be about thirty minutes ahead of the sun, and is in the eastern horizon near the point where the sun rises."
